3.125% Convertible Bonds Statement Attached to and Made Part of **Form 8937** for the quarter ended September 30, 2021

Line 14 -- Describe the organizational action and, if applicable, the date of action or the date against which shareholders' ownership is measured for the action.

On each of the record dates listed below, the common shareholders of iStar Inc. received dividends. iStar Inc. provides the following information with respect to its 3.125% convertible debt. Under sections 305(b) and 305(c) of the Internal Revenue Code of 1986, as amended, (the "Code") and the corresponding treasury regulations, the adjustment to the conversion rates should be treated as a deemed distribution.

The information provided herein is intended to satisfy the public reporting requirements of Code section 6045B and is not intended as a complete analysis of all potential federal or other tax consequences of holding these securities.

Line 15 -- Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis

In connection with each dividend record date, the conversion rate changed by the amount indicated per share. All the cash distributions were a return of capital as iStar Inc. had no current or accumulated earnings and profits. Accordingly, the deemed distribution under sections 305(b) and 305(c) and corresponding regulations would not increase the adjusted basis of security holders.

Record Date	Common Dividend per Share	Conversion Rate	Conversion Rate per Share	Change in Conversion Rate per Share	Adjustment to Basis
2/26/2021	0.110	70.7160	14.14	0.09	-

9/1/2021	0.125	71.5797	13.97	0.07	-

Line 16 -- Describe the calculation of the change in basis and the data that supports the calculation, such as market values of securities and the valuation dates

The conversion rate is computed as by the following formula:

- CR1 The applicable conversion rate in effect immediately after the close of business on the record date of such dividend or other distribution
- CR0 The applicable conversion rate in effect immediately prior to the close of business on the record date of such dividend or other distribution
- SP0 The average of the closing sale prices of iStar Inc.'s common stock over the 10 consecutive trading-day period ending on and including the trading day immediately preceding the ex-dividend date for such dividend or other distribution
 - C The amount of cash per share paid or distributed to holders of iStar Inc.'s common stock
