"The ability to take down the entire envelope of a large deal gives us a key competitive advantage by allowing us to provide our borrowers speed, flexibility and certainty of closing," said Jay Sugarman, iStar's chairman and chief executive officer. "The added benefit is we can elect to syndicate a piece of the loan in order to manufacture a synthetic note that meets our risk/return hurdles that would not otherwise be available in the market."

At June 30, 2015, the Company's non-performing loans (NPLs) had a carrying value of \$83.6 million versus \$64.8 million at the end of the first quarter. (1) Adjusted Income (loss) allocable to common shareholders should be examined in conjunction with net income (loss) as shown in the Consolidated Statements of Operations. This non-GAAP financial measure should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of the Company's performance, or to cash flows from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is it indicative of funds available to fund the Company's cash needs or available for distribution to shareholders. It should be noted that the Company's manner of calculating this non-GAAP financial measure may differ from the calculations of similarly-titled measures by other companies. Management believes that it is useful to consider Adjusted Income because the adjustments are non-cash items that do not necessarily reflect an actual change in the long-term economic value or performance of our assets. Management considers this non-GAAP financial measure as supplemental information to net income in analyzing the performance of our underlying business. Depreciation and amortization includes our proportionate share of depreciation and amortization expense relating to equity method investments and excludes the portion of depreciation and amortization expense allocable to non-controlling interests. Impairment of assets includes impairments on cost and equity method investments recorded in other income and earnings from equity method investments, respectively.
