01 Company Overview

Executive Summary

Safehold (NYSE: SAFE) is the creator and market leader of the modern ground lease industry.

We provide a capital solution that seeks to make commercial real estate ownership more cost efficient

Target Attractive Risk Adjusted Returns for Investors

- **Bond Component:** High-grade, predictable, compounding ground lease payments with inflation protection financed via a balance sheet that is A-rated with a long duration, laddered debt maturity profile
- **Capital Appreciation:** Valuable future ownership rights in diversified pool of institutional commercial real estate

Ranked #3 of 19 in long-term, risk-adjusted returns of all real estate asset classes per Green Street Advisors¹

Large Market Opportunity

- Bifurcating fixed asset (Land) from operating asset (Building) can create efficiencies for real estate owners/operators
- Customers receive low-cost, non-maturing capital that can drive higher returns^a
- Any capital event at a commercial property (buy/sell, recap, develop) is an opportunity

Through Safehold, investors can participate in this historically inaccessible asset class (typical owners include universities, churches, royalty, high net worth families)

a. See page 25 for additional detail.

Company Value Components

Safehold’s ground lease portfolio has two primary value components:

1. Bond Component

- Compounding, call protected cash flow streams with strong credit attributes
- Secured by diverse, institutionally-owned real estate in top U.S. markets
- Enhanced by periodic CPI lookbacks²
- Financed with long-term, fixed rate, below market liabilities

+

2. Capital Appreciation (Caret)

- Ownership interests in future capital appreciation above cost basis
- Long-term call option at discount to current spot value
- Attractive growth trajectory via both internal and external growth
- Tax advantaged, no capital or operating requirements, diversified portfolio

Target >100bps “alpha” versus similar high grade fixed income opportunities plus additional return upside via CPI

Potential to return ~20-40x^a the original investment basis at lease expiration

Note: Refer to Appendix for Endnotes.

a. Undiscounted multiple assuming ~40% going-in GLTV, 99-year term and 2-3% annual growth rate of Combined Property Value.

Investment Criteria and Market Opportunity

~90% of Safehold's business is creating ground leases to support commercial property acquisitions, recapitalizations or development. The remaining ~10% is acquiring existing ground leases³

Target Investment Criteria

- **Top 30** MSAs with attractive fundamentals
- **Low GLTV** ~30 to 45% of CPV
- **High Coverage** property NOI covers ground rent ~2.0 – 4.5x
- **Institutional** sponsors and leasehold lenders
- **Property Types:** Multifamily (Market, Affordable & Student Housing), Office, Hotel, Mixed Use, Life Science

Market Opportunity

Platform Highlights

One-of-One

First and only nationally-scaled, publicly traded ground lease platform

Unique Offering

Large portfolio with diverse customer base across the U.S.

In-House Capabilities

Fully-dedicated originations team with investment grade capital advantages

Note: Refer to Appendix for Glossary and Endnotes.

Safehold | The Ground Lease Company | May 2026

Bond Component: Contractual Cash Flows

Safehold shareholders benefit from decades of compounding and contractual growth. Periodic CPI lookbacks further increase returns and mitigate inflationary pressures^{2 16}

Valuation Methodology^a

We calculate the present value of the Bond Component of our assets by projecting all contractual cashflows and then discounting them at applicable market discount rates

Discount Rate	Economic NPV (\$m) ^e	Implied Value Per Share ^f	Infl. Adj. NPV (\$m) ^{g 2}	Implied Value Per Share ^f
7.0%	\$5,410	\$7	\$5,557	\$9
5.7% ^b (MIT Bond Comp)	\$7,110	\$31	\$7,362	\$34
4.0%	\$11,412	\$91	\$11,987	\$99
SAFE Portfolio Yield	6.0%^c		6.2%^{d 2}	

Note: Refer to Appendix for Glossary and Endnotes.

a. Assumes no default, full rent collections, no destruction and no casualty events.

b. Represents Massachusetts Institute of Technology unsecured notes due 2116 yield as of 4/29/2026.

c. Economic Yield. Refer to page 38 for more information.

d. Inflation Adjusted Yield. Refer to page 38 for more information.

e. Calculated as go-forward contractual cashflows through lease expiration assuming CPI of 2.0%.

f. Represents Economic NPV and Inflation Adjusted NPV of ground lease investments less \$4.1b principal value of debt and \$773m revolver balance associated with ground lease investments divided by 71.8 million shares outstanding as of 3/31/2026. Bond Component analysis allocates \$254m of \$1,027m revolver balance (which includes \$890m outstanding as of 3/31/2026 plus \$137m of ground lease forward commitments not yet funded) as funding source for STHO term loan, GL Plus and Leasehold Loan funds (which are not included in the Economic NPV / Infl. Adj. NPV values). See endnote 17 for additional information.

g. Calculated as go-forward contractual cashflows through lease expiration assuming market inflation rate of 2.22%.

Bond Component: In-Place Liability Value

Safehold shareholders benefit from a long-term and bespoke debt profile locked-in during a lower rate environment. We believe these liabilities have significant mark-to-market value in today's rate environment

c. Reflects In-Place Liability Value divided by 71.8 million shares outstanding as of 3/31/2026.

Caret Introduction

Ground leases typically own the right to all land + improvements at lease expiration at no additional cost

Caret is a subsidiary designed to help recognize the value of that capital appreciation above Safehold's investment basis. The Company has sold minority interests in Caret to investors to highlight its value

Caret *(Capital Appreciation)*

At lease expiration, Safehold will own the asset on top of its land

- **Diversified:** 165 institutional quality assets in the top 30 MSAs throughout the U.S.
- **Measurable:** Est. UCA, which underlies Caret, is measured on a rolling annual basis via CBRE appraisals
- **Growing:** Grows in value with every acquisition and organic CRE appreciation
- **Non-dilutable:** Fixed number of authorized units (12m)

Ground Lease *(Bond Component)*

- Collect fixed rent payments
- Includes contractual escalations and CPI adjustments during the lease term²
- Not responsible for property operations, taxes, insurance, capital expenditures, etc.

Note: Safehold is contractually required to hold at least 51% of the Caret Units. All asset dispositions are subject to Safehold board approval. 9.5m Caret units currently outstanding. Refer to Appendix for Unrealized Capital Appreciation Details, Glossary and Endnotes.

Caret Evolution

Caret is designed to capture long-term value creation without the need to issue additional Caret units, with two sources of growth:

- **Internal Growth** – Existing assets typically increase in value over long periods of time
- **External Growth** – New ownership interests are added as Safehold’s ground lease portfolio grows

MSD Partners led an investment round in March 2023, purchasing 1.0% of then-authorized units for an aggregate \$20m at a \$2.0b valuation. Management's most recent valuation is \$1.7b^a

Note: Refer to Appendix for Unrealized Capital Appreciation Details. In 2018, Safe established the Caret program through the formation of a subsidiary called Caret Ventures LLC. Ownership percentage is based on outstanding Caret units. a. The most recent Caret valuation is based on management’s estimate under ASC 718 in accordance with US GAAP, conducted in accordance with management’s valuation of Caret equity compensation plan awards.

Value of Existing Portfolio

Bond Component

- Contractual cashflows, typically includes 2.0% annual escalators, compounding and locked-in for 99 years
- Inflation capture above 2.0% CPI (typically up to 3.0-3.5% compounded, which can increase lookback year NOI growth from 2.0% to 12.5-18.0%)^{2 a}
- Long-term liabilities at below market rates

Discount Rate	7.0%	5.7%*	4.0%
1. Economic NPV	\$7	\$31	\$91
2. Inflation Capture (2.22% CPI ²)	\$2	\$4	\$8
3. In-Place Liabilities	\$12	\$6	\$(3)
Implied Bond Component Value Per Share¹⁷	\$21	\$41	\$95

*Current MIT 2116 Notes yield 5.7% (AAA-rated)

Capital Appreciation (Caret)

- 84% interest in entity that controls future ownership of assets on top of our land at no cost
- Estimated UCA, which underlies Caret, is measured on a rolling annual basis via CBRE appraisals^b
- Value above ground leases on existing portfolio + external growth from future investments
- Non-dilutable, measurable and growing

Implied Caret Value
~\$1.4 billion¹⁸

(Based on Safehold's 84% ownership of Caret using management's most recent valuation)^c

As interest rates and the macro environment stabilize, we believe the significant value gap between equity markets and the Company's intrinsic value should tighten

Note: Rent Value methodology adjusts assets and liabilities using mark-to-market discount rates and asset-level CPI adjustments. Refer to Appendix for Unrealized Capital Appreciation Details and Endnotes.

a. Refer to page 21 for additional detail.

b. For properties not valued by CBRE, management may use purchase price metrics to assess CPV.

c. As part of a Series A Round in Q1'22, 6 investors purchased or committed to purchase 1.37% of the then-authorized units at a \$1.75b valuation with redemption option (less any distributions). In April 2024, the Series A round was redeemed at par. MSD Partners led a Series B investment round in March 2023, purchasing 1.0% of then-authorized Caret units at a \$2.0b valuation. The most recent Caret valuation is based on management's estimate under ASC 718 in accordance with US GAAP, conducted in accordance with management's valuation of Caret equity compensation plan awards.

Conclusion

01 Ground Leases Are A Compelling Asset Class

- Large addressable market with proven product; fits a variety of capital events at a commercial property (buy/sell, recapitalization, development)
- Historically inaccessible asset class; compelling long-term risk adjusted return opportunity now available to public shareholders

~\$4 Trillion

Estimated 5-year
U.S. CRE transaction activity^a

~0.3% SAFE Share

Annual ground lease related activity as
percentage of 5-year CRE activity¹⁹

02 Market Leader With Platform Built For Scale

- Since 2017 IPO, Safehold has grown its portfolio from \$0.3b to \$7.1b, building national scale and brand equity over the last 8+ years with 72 employees
- We target well-located, institutionally owned commercial real estate with attractive fundamentals diversified across the Top 30 U.S. MSAs

~\$7.1 Billion²⁰

Diversified portfolio across top 30
major markets in the U.S.

165 Ground Leases

108 unique leasehold tenants and
60 unique leasehold lenders

03 Attractive Entry Point Versus Sum-Of-The-Parts

- Valuable investments platform with strong repeat customer base and lending relationships; investment grade ratings provide further competitive advantages; diverse ground lease portfolio funded by long-term, below market liabilities
- We believe SAFE shares are undervalued relative to its value components

**Sum-Of-The-Parts:
Current Share Price
Undervalued^b**

Note: Refer to Appendix for Endnotes.

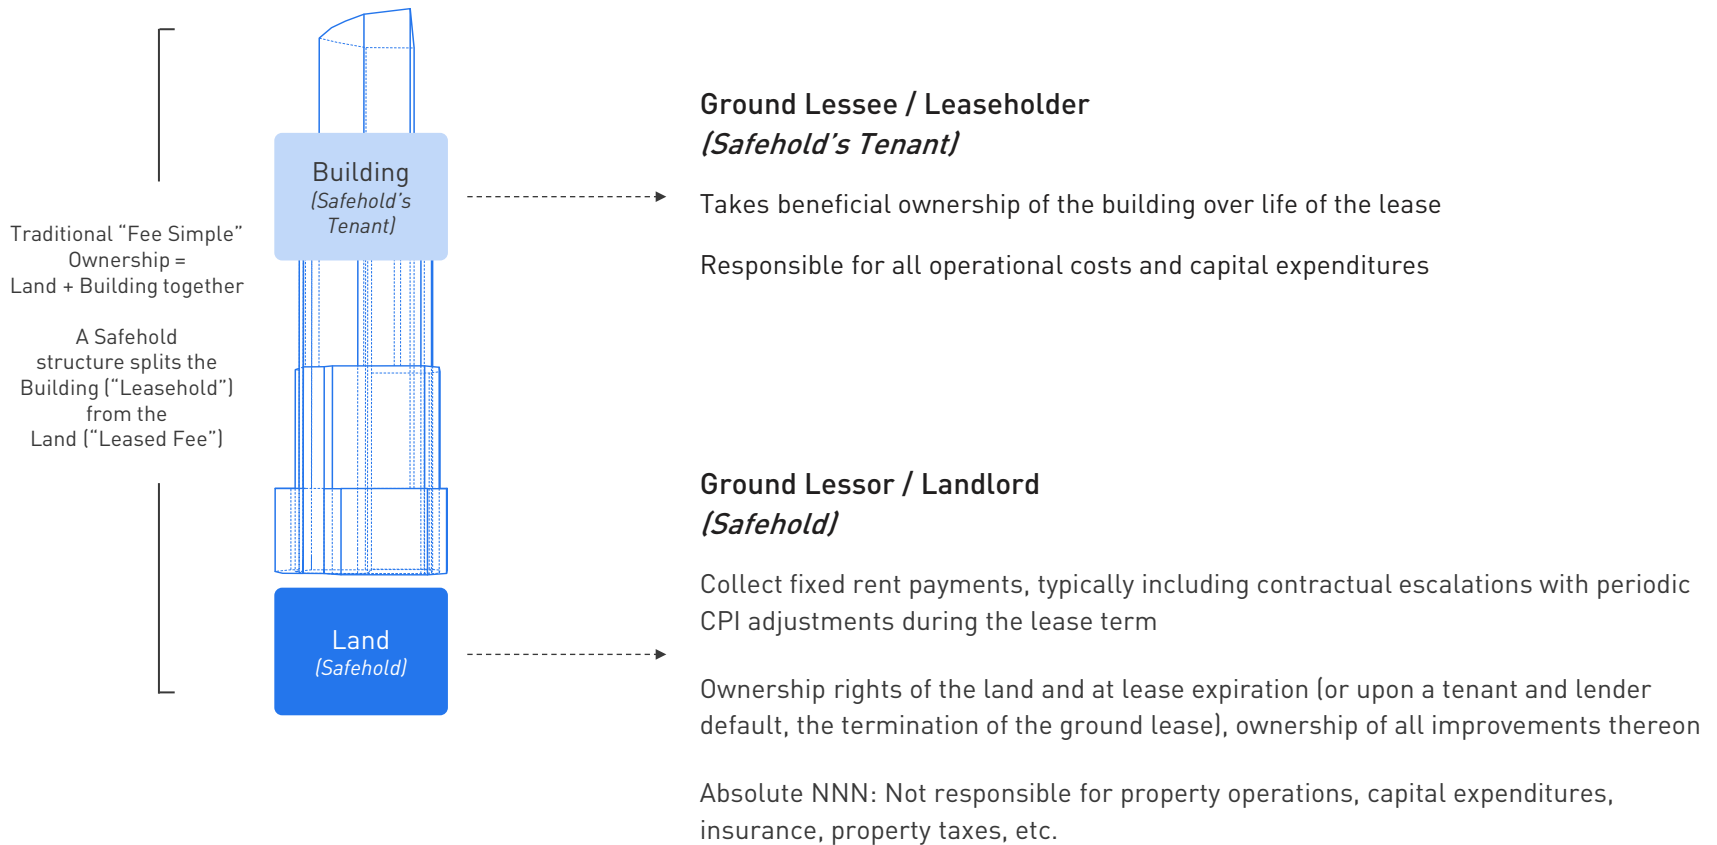

a. See page 6 for additional information. Includes acquisitions (>\$50m), recapitalizations, and developments of all US multifamily, office, lodging, and industrial assets since 2020. Source: RCA Analytics, CoStar, Green Street.

b. See page 14 for additional information.

02 Additional Information

What is a Ground Lease

A Ground Lease (“GL”) represents **ownership of the land underlying a commercial real estate property**. The land is leased on a long-term basis by the landlord (Safehold) to a tenant that operates the property

Typical Safehold Ground Lease Terms

Lease Term	99 Years
Contractual Escalators	Annual fixed bumps (~2.0%) with periodic CPI-based lookbacks (~3.0 - 3.5%)
Property Expenses	No landlord (Safehold) obligations
Capital Expenditures	No landlord (Safehold) obligations
Tenant Repair and Maintenance	Tenant obligated to maintain the underlying asset
Remedies Upon Tenant Default	Leasehold mortgagee cure rights; otherwise, landlord (Safehold) entitled to terminate the lease, regain possession and take ownership of the improvements
Reversion Right at Lease Expiration	Possession / ownership of the land and improvements thereon revert to landlord (Safehold) for no consideration

Note: Reflects typical underwriting standards when reviewing potential investments. Actual terms may vary.

The Modern Ground Lease

Safehold’s form structure standardizes how ground leases should function in the capital markets by removing value destroying features found in archaic ground leases and creating a bond-like instrument with growing, predictable cash flows which benefits all parties

	Old Ground Lease	Safehold Ground Lease
Payments	✗ Unpredictable (FMV, % rent)	✓ Fixed, growing, predictable
Underwriting	✗ High GLTV, unknown coverage	✓ Low GLTV, high coverage
Reporting	✗ Irregular standards (if any)	✓ Quarterly certified financials
Insurance	✗ Opaque provisions	✓ CTL-like protections
Maintenance	✗ Vague language	✓ Clear building standards
Loan Friendly	✗ Precludes certain lenders	✓ Capital markets friendly

Illustrative Principal and Income Safety

Principal Safety

Income Safety

Safehold's ground rent payment is **senior to and higher priority than** leasehold interest expense

Motivated tenant to grow and protect value with an **additional layer of protection via a leasehold lender** that can step in and cure ground rent if necessary

Annual Escalators and CPI Lookback Mechanics

CPI Lookbacks² provide meaningful inflation capture that is better than comparable risk, long-term fixed-rate bonds we benchmark against, and continue periodically throughout the life of a lease. Safehold’s standard form ground lease contains 8 to 9 CPI lookbacks over its 99-year term

Target Safehold Ground Lease

2.0% Rent Bumps per Annum | 10-Year CPI Lookbacks | 3.0% Inflation Scenario

- A** Safehold’s minimum contractual rent growth over a 10-year period is 21.9% (2.0% compounded)
- B** If CPI exceeds 2.0% on a compounded basis for that period, Safehold’s leases will have an adjustment to capture that increase, up to a defined cap (typically 3.0 – 3.5% compounded). Assuming 3.0% CPI over a 10-year period, Safehold’s rent growth would be 34.4% (3.0% compounded), an additional 12.5% gross rent change versus the contractual 21.9% floor
- C** Following this upward CPI adjustment, future contractual 2.0% increases are based off the higher CPI-adjusted rent figure, until the next 10-year period concludes, when the next CPI adjustment occurs

Illustrative Same-Store NOI Growth

Years 1 – 10
+2.0%^a

Year 11 + every 10 years
+12.5 – 18.0%^b

a. Contractual growth rate.
b. Assumes maximum lookback is realized on 3.0 and 3.5% CPI cap
Safehold | The Ground Lease Company | May 2026

Portfolio Economics

Safehold’s portfolio consists primarily of assets on our form lease structure (99-year term, 2.0% annual escalators, CPI lookbacks up to ~3.25%), whereby an IRR is used to calculate GAAP returns which are equivalent to economic returns

~14% of portfolio are acquisitions of existing ground leases with a component of variable rent (% rent, FMV resets, CPI-linked). GAAP ascribes 0% inflation / \$0 go-forward value to variable rent, inconsistent with economic reality

		<i>GAAP Yield</i>	<i>Economic Yield</i>
~86% of Portfolio	Primarily Safehold form ground leases with 2.0% contractual annual escalators over the life of the lease captured in GAAP revenue	5.9%	5.9%
~14% of Portfolio	Acquired existing ground leases with a component of variable rent not captured in GAAP revenue (% rent, FMV resets, CPI-linked)	3.8%	6.0% ^a
\$7.0b Ground Lease Portfolio		5.5%	6.0%

There is currently ~50bps of Economic Yield not captured in Safehold’s financials due to GAAP accounting methodology requirements

a. Using 2.0% annual growth / inflation assumption.
Safehold | The Ground Lease Company | May 2026

Illustrative Growth – Contractual Cash Flow and Inflation Capture²

Minimum contractual ground lease cash flows target ~100+ bps of spread vs. similar long-term, high grade fixed income securities. In addition, CPI lookbacks² in our portfolio are designed to provide meaningful inflation capture, typically up to 3.0 - 3.5% on a compounded basis

Target Safehold Ground Lease – Illustrative Returns and Compounding Effect

5.0% Initial Yield | 2.0% Rent Bumps per Annum | 10-Year CPI Lookbacks

	MIT 2116 Notes ^a <i>AAA Rated</i>	Illustrative New Deal Returns	
		Contractual GL Cash Flows ^b	3.0% Infl. Adj. GL Cash Flows ^b
Yield	5.7%	7.1%	7.9%
Multiple ^c	1.0x	1.3x	1.7x

Note: Refer to Appendix for Endnotes.

a. Illustrative example represents Massachusetts Institute of Technology unsecured notes due 2116 yield as of 4/29/26.

b. Target yields and cash flow multiples that assume no default, full rent collections, no destruction and no casualty events.

c. The net present value of the cash flows (discounted using the Massachusetts Institute of Technology 2116 unsecured AAA-rated bonds trading at a yield to maturity of 5.7% as of 4/29/26) of an illustrative portfolio of modern ground leases meeting our yield to maturity target divided by the initial investment in the portfolio of ground leases.

A Better Capital Solution

Making ground leases *modern*, *efficient*, and *value-enhancing* for building owners

Improved Capital Efficiency

Buildings and land are different investments, most efficiently capitalized by different investors

Improved Cost Efficiency

- ✗ Transfer Tax
- ✗ Mortgage Recording Tax
- ✗ Title Insurance
- ✗ Broker Fees
- ✗ Other Transaction Costs

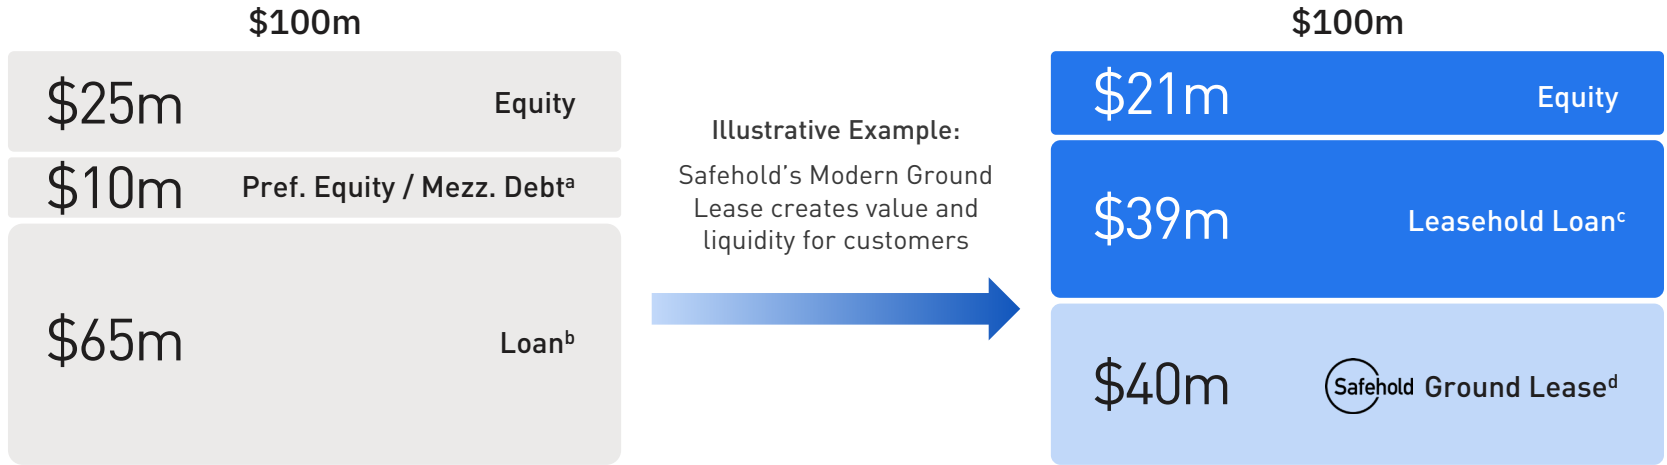

Reduces friction costs associated with selling real estate by giving 40% of capital a long-term structure of up to 99 years

Significant Risk Reduction

Eliminates debt maturity risk on a large portion of capital structure by replacing it with a long-term lease of up to 99 years

Efficient Capital Creates Better Returns for New Transactions

\$100m	Fee Simple Purchase Price	\$100m
\$25m	Sponsor Equity Required	\$21m (-16%)
6.0%	Unlevered Yield	6.7% (+11%)
6.8%	Cost of Capital	5.5% (-19%)
3.6%	Cash-on-Cash Returns ^e	7.9% (>100%)
13.0%	IRR (10-Year Hold) ^e	16.8% (+30%)
2.9x	Equity Multiple (10-Year Hold) ^e	3.6x (+22%)
Higher	Refinancing Risk	Lower

Note: Hypothetical capitalization comparison between traditional mortgage capitalization versus a typical Safehold ground lease and leasehold loan capitalization. All figures are illustrative. Refer to Appendix for Glossary and Endnotes.

a. Assumes 12.0% fixed interest rate, 10-year term, 75% LTV of property value.
 b. Assumes 6.0% fixed interest rate, 10-year term, 65% LTV of property value.
 c. Assumes 6.0% fixed interest rate, 10-year term, 65% LTV of property value.
 d. Assumes 5.0% initial yield, 2.0% annual escalators, 99-year term, 40% GLTV of combined property value.
 e. Assumes 3.0% growth on going-in unlevered yield of 6.0%.

Washington D.C.

Ground leases under office assets were underwritten at ~40% GLTV implying ~\$4 billion subordinate capital

Organization Structure

Safehold benefits from its full-service platform (74 employees) and leadership team with decades of experience in all key functions

● Represents years spent with the Company (includes both Safehold and iStar).

Income Statement

	For the three months ended March 31,	
	2026	2025
Revenues:		
Interest income from sales-type leases	\$75,034	\$69,664
Operating lease income	20,156	21,382
Hotel revenues	9,864	-
Interest income	3,109	2,333
Other income	2,691	4,298
Total revenues	\$110,854	\$97,677
Costs and expenses:		
Interest expense	\$53,515	\$50,426
Hotel expenses	12,195	-
Real estate expense	1,310	1,158
Depreciation and amortization	1,848	2,196
General and administrative ^a	11,524	10,645
General and administrative - stock-based compensation	3,779	3,487
Provision for (recovery of) credit losses	498	2,296
Other expense	638	2,168
Total costs and expenses	\$85,307	\$72,376
Income (loss) from operations before other items	\$25,547	\$25,301
Earnings (losses) from equity method investments	4,035	4,992
Net income (loss) before income taxes	\$29,582	\$30,293
Income tax expense	(685)	(883)
Net income (loss)	\$28,897	\$29,410
Net (income) loss attributable to noncontrolling interests	(36)	(46)
Net income (loss) attributable to Safehold Inc. common shareholders	\$28,861	\$29,364
Weighted avg. share count - basic	71,811	71,521
Weighted avg. share count - diluted	71,975	71,635
Earnings (loss) per share (basic & diluted)	\$0.40	\$0.41

Note: Figures in thousands except for per share amounts.

a. For the three months ended March 31, 2026 and March 31, 2025, general and administrative expenses were partially offset by \$2.1m and \$3.6m of management fees, respectively, which are included in "Other income."

Balance Sheet

	As of March 31, 2026	As of December 31, 2025
Assets:		
Net investment in sales-type leases	\$3,607,076	\$3,563,675
Ground Lease receivables, net	2,053,883	2,003,931
Real estate:		
Real estate, at cost	743,728	740,971
Less: accumulated depreciation	(53,771)	(52,222)
Real estate, net	689,957	688,749
Real estate-related intangible assets, net	203,131	204,016
Real estate available and held for sale	836	2,028
Total real estate, net, real estate-related intangible assets, net and real estate available and held for sale	893,924	894,793
Loan receivable, net	62,103	46,088
Loans receivable, net - related party	112,535	112,556
Equity investments	285,919	280,850

Less: Noncontrolling interest	-	(2)	(2)	(19)	(2)	(2)
Gross Book Value	\$339	\$5,148	\$5,967	\$6,392	\$6,751	\$6,982
Add: Forward Commitments	-	310	238	70	32	137
Aggregate Gross Book Value	\$339	\$5,458	\$6,205	\$6,462	\$6,783	\$7,119
Less: Accruals to net investment in leases and ground lease receivables	-	(118)	(198)	(288)	(385)	(495)
Aggregate Cost Basis	\$339	\$5,340	\$6,008	\$6,174	\$6,398	\$6,624
Less: Forward Commitments	-	(310)	(238)	(70)	(32)	(137)
Cost Basis	\$339	\$5,030	\$5,770	\$6,104	\$6,366	\$6,487

Note: Figures in thousands. Represents Core Ground Lease Portfolio.

a. Excludes \$3m other assets.

b. Includes purchase premium from the Q3'24 JV buyout.

c. Relates to the two hotels previously in the Park Hotels Portfolio for which the tenant elected not to extend the master lease past the original maturity of December 2025, at which time we became responsible for operating such properties.

Earnings Reconciliation

	For the three months ended	
	2026	2025
Net income (loss) attributable to Safehold Inc. common shareholders	\$28,861	\$29,364
Add: Non-recurring (gains) / losses ^a	-	1,945
Net income excluding non-recurring (gains) / losses	\$28,861	\$31,309
Net income attributable to Safehold Inc. common shareholders excluding non-recurring (gains) / losses	\$28,861	\$31,309
Weighted average number of common shares - basic	71,811	71,521
Weighted average number of common shares - diluted	71,975	71,635
EPS excluding non-recurring (gains) / losses - basic & diluted	\$0.40	\$0.44

Note: Figures in millions except for per share amounts. Net income attributable to Safehold Inc. common shareholders excluding non-recurring gains and losses and EPS excluding non-recurring gains and losses are non-GAAP measures used as supplemental performance measures to give management and investors a view of net income and EPS more directly derived from operating activities in the period in which they occur. Net income attributable to Safehold Inc. common shareholders excluding non-recurring gains and losses is calculated as net income (loss) attributable to common shareholders, prior to the effect of non-recurring gains and losses, as adjusted to exclude corresponding amounts allocable to noncontrolling interests. It should be examined in conjunction with net income (loss) attributable to common shareholders as shown in our consolidated statements of operations. EPS excluding non-recurring gains and losses is calculated as net income attributable to Safehold Inc. common shareholders excluding non-recurring gains and losses, divided by the weighted average number of diluted common shares. These metrics should not be considered as alternatives to net income (loss) attributable to common shareholders or EPS, respectively (in each case determined in accordance with generally accepted accounting principles in the United States of America ("GAAP")). These measures may differ from similarly-titled measures used by other companies.

a. Non-recurring losses were \$1.9m in Q1'25 for the write-off of preferred equity position in leasehold joint venture and \$0 in Q1'26. There were no non-recurring gains in either period.

Unrealized Capital Appreciation Details

Refer to the Glossary in the Appendix for a definition of Owned Residual Portfolio, Unrealized Capital Appreciation (“UCA”), and “Combined Property Value” (“CPV”). SAFE relies in part on CBRE’s valuations of the CPV of our portfolio in calculating UCA. SAFE may utilize management’s estimate of CPV for ground lease investments recently acquired that CBRE has not yet evaluated. For construction deals, CPV represents the cost to build inclusive of the land. CPV is a hypothetical value of the as-improved subject property, based on an assumed ownership structure different from the actual ownership structure. CPV does not take into account the in-place Ground Lease or other contractual obligations and is based on the hypothetical condition that the property is leased at market rent at stabilized levels, where applicable, as of the valuation date, without consideration of any costs to achieve stabilization through lease up and associated costs. In determining the CPV of each property, CBRE has utilized the sales comparison approach, based on sales of comparable properties, adjusted for differences, and the income capitalization approach, based on the subject property’s income-producing capabilities. The assumptions applied to determine values for these purposes vary by property type and are selected for use based on a number of factors, including information supplied by our tenants, market data and other factors. We currently intend that the CPV associated with each Ground Lease in our portfolio will be valued approximately every 12 calendar months and no less frequently than every 24 months. Lagging valuations may not accurately capture declines in our UCA, CPV or derived metrics such as GLTV, and such declines could be reflected in future periods, and any such decline could be material.

The calculation of the estimated UCA in our Owned Residual Portfolio is subject to a number of limitations and qualifications. We do not typically receive full financial statements prepared in accordance with U.S. GAAP for the commercial properties being operated on the land subject to our Ground Leases. In some cases, we are prohibited by confidentiality provisions in our Ground Leases from disclosing information that we receive from our tenants to CBRE. Additionally, we do not independently investigate or verify the information supplied by our tenants, but rather assume the accuracy and completeness of such information and the appropriateness of the accounting methodology or principles, assumptions, estimates and judgments made by our tenants in providing the information to us. Our calculation of UCA in our Owned Residual Portfolio is not subject to U.S. GAAP and will not be subject to independent audit. We conduct rolling property valuations; therefore, our estimated UCA and CPV may not reflect current market conditions and may decline materially in the future. There can be no assurance that we will realize any incremental value from the UCA in our Owned Residual Portfolio or that the market price of our common stock will reflect any value attributable thereto. We will generally not be able to realize value from UCA through near term transactions, as properties are leased to tenants pursuant to long-term leases. For more information on UCA and CPV, including additional limitations and qualifications, please refer to our Current Report on Form 8-K filed with the SEC on April 30, 2026 and the “Risk Factors” section of our Annual Report on Form 10-K for the year ended December 31, 2025 as updated from time to time in our subsequent periodic reports, filed with the SEC.

Certain interests (Caret units) in our subsidiary Safehold GL Holdings LLC (“Portfolio Holdings”) are structured to track and capture UCA to the extent UCA is realized upon sale of our land and Ground Leases or certain other specified events. Under a shareholder-approved plan, management was granted up to 15% of the total authorized Caret units, 1,411,004 of which are currently outstanding and some of which remains subject to time-based vesting. See our 2026 Proxy Statement for additional information on the long-term incentive plan.

As of March 31, 2026, we had sold an aggregate of 122,500 Caret units to third-party investors, including affiliates of MSD Partners, L.P., that remain outstanding. As of March 31, 2026, we own approximately 83.9% of the outstanding Caret units. In connection with the sale of 137,142 Caret units in February 2022 (28,571 of which were committed to be purchased at the time, but did not close), we agreed to use commercially reasonable efforts to provide public market liquidity for such units, or securities into which they may be exchanged, prior to the second anniversary of such sales. Because public market liquidity was not achieved by February 2024, the investors in the February 2022 transaction had the right to cause their Caret units purchased in February 2022 to be redeemed at the purchase price less the amounts of distributions previously made on such units. In April 2024, such outstanding units were redeemed.

Aggregate Cost Basis	Represents Cost Basis plus unfunded commitments of the Core Ground Lease Portfolio. For unfunded commitments, it represents the aggregate future amount to be paid under the commitments.
Aggregate Gross Book Value	Represents the Gross Book Value plus unfunded commitments of the Core Ground Lease Portfolio. For unfunded commitments, it represents the aggregate future amount to be paid under the commitments.
Annualized Cash Yield	Calculated as the annualized base Cash Rent plus Percentage Rent divided by Cost Basis, each for the Core Ground Lease Portfolio.
Annualized Yield	Calculated as the annualized base Net Rent plus Percentage Rent divided by GBV, each for the Core Ground Lease Portfolio.
Caret Adjusted Yield	Using the same cash flows as Inflation Adjusted Yield except that initial cash outlay (i.e., Safehold's basis) is reduced by ~\$1.4b, which amount corresponds to Safehold's share (~84%) of management's most recent Caret valuation of \$1.7b. The most recent valuation is based on management's estimate under ASC 718 in accordance with US GAAP, conducted in connection with management's valuation of Caret equity compensation awards.
Cash Interest Rate	The current cash interest rate of debt.
Cash Rent	Represents in-place base ground lease income recognized excluding straight-line rent, amortization of lease intangibles, and non-cash income from sales-type leases, each for the Core Ground Lease Portfolio.
Combined Property Value (CPV)	The current combined value of the land, buildings and improvements relating to a commercial property, as if there was no ground lease on the land at the property. CPV is generally based on independent appraisals; however, the Company will use actual sales prices/management estimates for recently acquired and originated ground leases for which appraisals are not yet available. For construction projects, CPV represents the total cost associated with the acquisition, development, and construction of the project.
Core Ground Lease Portfolio	Represents the portfolio of assets owned at the date indicated and our proportionate share of two unconsolidated joint venture assets, and excludes the two properties whose ground lease recently expired and which we began operating, the Star Holdings Loan, consolidated Leasehold Loans, Leasehold Loan Fund and GL Plus Fund.
Cost Basis	Represents the historical purchase price of an asset in the Core Ground Lease Portfolio, including capitalized acquisition costs of the assets.
Debt Effective Interest Rate	Represents the all-in stated interest rate over the term of debt from funding through maturity based on the contractual payments owed excluding the effect of debt premium, discount and deferred financing costs.
Economic Yield	Computed similarly to effective yield on a bond, the Economic Yield is calculated using projected cash flows beginning 4/1/2026 for the duration of the lease, with an initial cash outflow and a residual value equal to our cost of the land. The cash flows incorporate contractual fixed escalators and the impact of an assumed inflation scenario on variable rate escalators such as (i) CPI adjustments and CPI lookbacks, (ii) percentage of revenues the building generates and/or (iii) periodic fair market valuations of the land. For CPI adjustments and CPI lookbacks, this metric uses the Federal reserve long-term 2.0% CPI target for the duration of the leases. For ground leases that have other forms of inflation capture including fair market value resets and percentage rent based on building revenue, this metric assumes fair market value and building revenue increase by the Federal Reserve long-term 2.0% CPI target annually. Target yields and cash flow multiples assume no default, full rent collections, no destruction and no casualty events.
GAAP Rent	In-place revenue from operating and sales-type leases recognized under GAAP, each for the Core Ground Lease Portfolio.
GL Plus Fund	The Company's investment fund that targets the origination and acquisition of Ground Leases for commercial real estate projects that are in a pre-development phase.
Gross Book Value (GBV)	Represents Cost Basis plus accrued interest on sales-type leases of the Core Ground Lease Portfolio. The amount is not reduced for general provision for credit losses allowances.
Ground Lease-to-Value (GLTV)	Calculated as the Aggregate GBV divided by CPV of the Core Ground Lease Portfolio. Safehold uses this metric to assess risk and our seniority level in a real estate capital structure. Similar to the concept of the LTV metric used in the loan market.
Inflation Adjusted Yield	For CPI adjustments and CPI lookbacks, Inflation Adjusted Yield is computed in the same manner as Economic Yield, assuming a specific alternative inflation scenario for the duration of the leases. For ground leases that have other forms of inflation capture including fair market value resets and percentage rent based on building revenue, Inflation Adjusted Yield is based on Economic Yield and assumes fair market value and building revenue increase by the assumed inflation scenario annually.
Net Rent	GAAP Rent less depreciation & amortization for the Core Ground Lease Portfolio. This includes the amortization of a right of use asset recorded as real estate expense (totals \$1.0m annualized). Includes our proportionate share of GAAP rent and amortization from our equity method investments, each for the Core Ground Lease Portfolio.
Owned Residual Portfolio	Represents the portfolio of properties under which Safehold owns a ground lease and reflects Safehold's right to the land, property and tenant improvements at the end of the lease. The current value of the Owned Residual Portfolio is typically represented by the Combined Property Value or CPV of our portfolio.
Percentage Rent	Represents TTM cash percentage rent paid by the property.
Property NOI	Represents the net operating income (NOI) of the building/Safehold's ground lease tenant prior to paying ground lease rent.
Rent Coverage	The ratio of Property NOI as provided by the building owner or estimated Property NOI to the annualized Cash Rent due to Safehold. The Company adjusts Property NOI for material non-recurring items and uses estimates of the stabilized Property NOI for Rent Coverage calculations if it is not contractually entitled to current tenant information, does not receive current tenant information, or if the properties are under construction / in transition. These estimates are based on leasing activity at the property, third party appraisals and available market information, such as leasing activity at comparable properties in the relevant market.
Safehold™/Safehold™ Ground Lease	A ground lease originated and structured by Safehold.
Unrealized Capital Appreciation (UCA)	Calculated as the difference between CPV (including expired ground leases) and Aggregate Cost Basis (including expired ground leases) for both the Core Ground Lease Portfolio and the two properties whose ground lease recently expired and which we began operating. For the one such property with land that is ground leased to us, we use a CPV equal to the Aggregated Cost Basis for estimated UCA. The Company tracks UCA because we believe it provides relevant information with regard to the three key investment characteristics of our ground leases: (1) the safety of our position in a tenant's capital structure; (2) the quality of the long-term cash flows generated by our portfolio rent that increases over time; and (3) increases and decreases in CPV of the portfolio that will ultimately revert to us.

Endnotes

- (1) Green Street Advisors Commercial Property Monthly April 2026.
- (2) Inflation Adjusted Yield / Inflation Capture / CPI Adjustments: Safehold™ originated ground leases typically include a periodic rent increase based on prior years cumulative CPI growth with the initial lookback year generally starting between lease year 11 and 21. These CPI lookbacks are generally capped between 3.0% - 3.5% per annum compounded. In the event cumulative inflation growth for the lookback period exceeds the cap, the excess is not captured by the CPI lookback. Other forms of inflation capture include fair market value resets and percentage rent, typically for acquired ground leases. 83% of our portfolio as determined by cash rent has some form of a CPI lookback and 93% of our portfolio as determined by cash rent has some form of inflation capture. For Inflation Adjusted Yield calculation assumes current FRED 30-yr Breakeven Inflation Rate of 2.22% annually. [Federal Reserve Bank of St. Louis, 30-year Breakeven Inflation Rate, retrieved from FRED, Federal Reserve Bank of St. Louis; <https://fred.stlouisfed.org/series/T30YIEM>, April 23, 2026].
- (3) Past activity may not be indicative of future activity.
- (4) Total estimated size of institutional quality commercial real estate in top 30 markets. Source: RCA Analytics and management estimates.
- (5) Includes acquisitions (>\$50M), recapitalizations, and developments of all US multifamily, office, lodging, and industrial assets beginning 2020. Source: RCA Analytics, CoStar, Green Street.
- (6) Represents approximate Combined Property Value of all transactions originated beginning 2020. Over the last 5 years, Safehold has averaged ~\$700+ million of ground lease investment activity per year. At ~40% GLTV, that implies annual ground lease and related CRE activity is roughly 0.3% of annualized CRE activity.
- (7) The portfolio is presented using Aggregate Gross Book Value. As of 3/31/26, the portfolio included \$137m of Safehold's forward commitments that have not yet been funded (such funding commitments are subject to certain conditions). There can be no assurance Safehold will fully fund these transactions.
- (8) The CPV used to calculate GLTV is generally based on independent appraisals; however, the Company will use actual sales prices / management estimates for recently acquired and originated ground leases for which appraisals are not yet available. We currently intend that the CPV associated with each Ground Lease in our portfolio will be valued approximately every 12 calendar months and no less frequently than every 24 months.
- (9) The Company uses estimates of the stabilized Property NOI for Rent Coverage calculations if it is not contractually entitled to current tenant information, does not receive current tenant information, or if the properties are under construction / in transition. These estimates are based on leasing activity at the property, third party appraisals and available market information, such as leasing activity at comparable properties in the relevant market.
- (10) Annualized Yield is based on GAAP treatment, which assumes 0% growth / inflation environment for the remaining term of existing legacy ground leases that have structures with a component of variable rent.
- (11) Illustrative Caret Adjusted Yield uses the 6.2% Inflation Adjusted Yield as the starting point, and reduce initial cash outlay (i.e. Safehold's basis) by ~\$1.4b, which is Safehold's 84% ownership of Caret using management's most recent valuation. The most recent valuation is based on management's estimate under ASC 718 in accordance with US GAAP, conducted in connection with management's valuation of Caret equity compensation awards.
- (12) Creditor LTV represents look-through LTV to hypothetical asset. Lessors 75% LTV on 100% of value, Mortgage REIT 75% Loan-on-Loan LTV on 70% LTV asset, Equity REIT 40% LTV on 100% of value, Safehold 66% LTV on 40% GLTV ground lease position.
- (13) Includes JV debt attributable to Safehold. Corporate leverage represents total debt divided by total equity.
- (14) Excludes outstanding borrowings under the Company's unsecured revolving credit facility.
- (15) Reflects amount due at maturity, including JV debt and excluding unamortized discounts and unamortized deferred financing costs.
- (16) Target yields and cash flow multiples that assume no default, full rent collections, no destruction and no casualty events.
- (17) Refer to pages 10 and 11 for asset and liability NPV detail. Assumes discount rate range of 4.0% to 7.0% applied to cash flow stream and in-place liabilities, CPI of 2.22% based on 30-year FRED breakeven inflation expectations. Includes -\$47 million implied equity value of net other assets/liabilities. Other assets include cash, loan receivables, equity investments in Ground Lease Plus and Leasehold Loan funds, deferred expenses and other assets. Other liabilities include revolver purchase of STHO term loan, leasehold loans, fund interests, accounts payable, accrued expenses, non-redeemable non-controlling interest and other liabilities.
- (18) Represents Safehold's 84% ownership of Caret using management's most recent \$1.7 billion valuation. The most recent valuation is based on management's estimate under ASC 718 in accordance with US GAAP, conducted in connection with management's valuation of Caret equity compensation awards.
- (19) Represents approximate current Combined Property Value of all Safehold transactions originated beginning 2020.
- (20) Aggregate Gross Book Value.
- (21) Based on number of unique sponsors.
- (22) Excludes Ground Lease Plus, IPO assets, deals in which iStar was the sponsor, and acquisition of existing ground leases.
- (23) Total New York MSA including areas outside of Manhattan makes up 28% of GBV (18 assets).
- (24) Estimated Subordinate Capital represents CPV at closing less ground lease cost basis.

Forward-Looking Statements and Other Matters

This presentation may contain forward-looking statements. All statements other than statements of historical fact are forward-looking statements. These forward-looking statements can be identified by the use of words such as “illustrative”, “representative”, “expect”, “plan”, “will”, “estimate”, “project”, “intend”, “believe”, and other similar expressions that do not relate to historical matters, and include estimates of UCA, Illustrative Caret Adjusted Yield and Underwritten Rent Coverage. These forward-looking statements reflect the Company’s current views about future events, and are subject to numerous known and unknown risks, uncertainties, assumptions and changes in circumstances that may cause the Company’s actual results to differ significantly from those expressed in any forward-looking statement. The Company does not guarantee that the transactions and events described will happen as described (or that they will happen at all).

The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: (1) any delay in or our inability to realize the expected benefits of the merger of Safehold Inc. and iStar Inc. and/or our spin-off of Star Holdings (collectively, the “transactions”); (2) changes in tax laws, regulations, rates, policies or interpretations; (3) the impact of actions taken by significant stockholders; (4) general economic and business conditions; (5) market demand for ground lease capital; (6) the Company’s ability to source new ground lease investments; (7) the availability of funds to complete new ground lease investments; (8) risks that the rent adjustment clauses in the Company’s leases will not adequately keep up with changes in market value and inflation; (9) risks associated with certain tenant and industry concentrations in our portfolio; (10) conflicts of interest and other risks associated with our relationship with Star Holdings and other significant investors; (11) risks associated with using debt to fund the Company’s business activities (including changes in interest rates and/or credit spreads, the ability to source financing at rates below the capitalization rates of our assets, and refinancing and interest rate risks); (12) risks that we will be unable to realize incremental value from the UCA in our Owned Residual Portfolio; (13) the value that will be attributed to Caret units in the future; (14) risks that tenant rights in certain of our ground leases will limit or eliminate the Owned Residual Portfolio realizations from such properties; (15) general risks affecting the real estate industry and local real estate markets (including, without limitation, the potential inability to enter into or renew ground leases at favorable rates, including with respect to contractual rate increases or participating rent); (16) dependence on the creditworthiness of our tenants and their financial condition and operating performance; (17) escalating geopolitical tensions as a result of the war in Ukraine and the evolving conflict in the Middle East; (18) the impact of tariffs and global trade disruptions on us and our customers; and (19) competition from other ground lease investors and risks associated with our failure to qualify for taxation as a REIT, as amended. Please refer to the section entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2025 and any subsequent reports filed with the Securities and Exchange Commission (SEC) for further discussion of these and other investment considerations. The Company expressly disclaims any responsibility to update or revise forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

This presentation also contains modeling and information relating to potential inflation, which are presented for illustrative purposes only, and are not guarantees or otherwise necessarily indicative of future performance. In addition, this presentation contains certain figures, projections and calculations based in part on management’s underlying assumptions. Management believes these assumptions are reasonable; however, other reasonable assumptions could provide differing outputs.

Important Note regarding Certain Metrics; Readers of this presentation are cautioned that certain metrics that we report and monitor may not reflect current market values, including the decline in office values. Our estimated UCA and CPV are based, in part, on valuations associated with each Ground Lease that occur every 12 to 24 months, and lagging valuations may not accurately capture declines. Additionally, given the limitations of the information used in our estimates, it is possible that actual Ground Rent Coverage may be lower than our estimates. Readers are urged to read our quarterly report on Form 10-Q for the quarter ended March 31, 2026 when it is filed with the SEC for a more fulsome discussion of our quarterly results, including the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section included therein.

Merger Transaction / Basis of Presentation: On November 10, 2022, Safehold Inc. (“Old Safe”) entered into an Agreement and Plan of Merger (the “Merger Agreement”) with iStar Inc. (“iStar”), and on March 31, 2023, in accordance with the terms of the Merger Agreement, Old Safe merged with and into iStar, at which time Old Safe ceased to exist, and iStar continued as the surviving corporation and changed its name to “Safehold Inc.” (the “Merger”). For accounting purposes, the Merger is treated as a “reverse acquisition” in which iStar is considered the legal acquirer and Old Safe is considered the accounting acquirer. As a result, the historical financial statements of Old Safe became the historical financial statements of Safehold Inc. Unless context otherwise requires, references to “iStar” refer to iStar prior to the Merger, and references to “we,” “our” and “the Company” refer to the business and operations of Old Safe and its consolidated subsidiaries prior to the Merger and to Safehold Inc. (formerly known as iStar Inc.) and its consolidated subsidiaries following the consummation of the Merger.
