## Press Release

# iStar Reports Second Quarter 2021 Results

**NEW YORK, August 3, 2021**

iStar Inc. (NYSE: STAR) today reported results for the second quarter ended June 30, 2021.

Highlights for the quarter include:

- o Net income (loss) of (\$19.5) million or (\$0.27) per diluted common share
- o Adjusted earnings of \$12.0 million or \$0.15 per diluted common share
- o Unrealized gain on Safehold investment increased by \$289 million during the second quarter to \$1.7 billion
- o Fitch credit rating upgrade to BB
- o \$34 million of legacy asset sales proceeds
- o \$167 million of legacy asset sales proceeds closed subsequent to the end of the quarter

“We have made substantial progress on our strategy so far this year by further expanding the ground lease ecosystem, increasing our balance sheet strength, and making significant inroads with legacy asset monetization,” said Jay Sugarman, Chairman and Chief Executive Officer. “We remain focused on executing our ‘Scale-Strengthen-Streamline’ strategy and look forward to building on our growing momentum.”

The Company published a presentation detailing its results and a reconciliation of non-GAAP financial metrics, which can be found on its website, in the "Investors" section.

# Forward-Looking Statements and Other Matters

Statements in this presentation which are not historical fact may be deemed forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Although iStar believes the expectations reflected in any forward-looking statements are based on reasonable assumptions, the Company can give no assurance that its expectations will be attained. The Company undertakes no obligation to update or publicly revise any forward-looking statement, whether as a result of new information, future events or otherwise.

This presentation should be read in conjunction with our consolidated financial statements and related notes in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2021 and our Annual Report on Form 10-K for the year ended December 31, 2020. In assessing all forward-looking statements herein, readers are urged to read carefully all cautionary statements in our Form 10-K.

Factors that could cause actual results to differ materially from iStar's expectations include general economic conditions and conditions in the commercial real estate and credit markets, the effect of the COVID-19 pandemic on our business and growth prospects, the performance of SAFE, the Company's ability to grow its ground lease business directly and through SAFE, sales of all or a portion of its net lease portfolio, the Company's ability to generate liquidity and to repay indebtedness as it comes due, additional loan loss provisions and asset impairments, the market demand for legacy assets the Company seeks to sell and the pricing and timing of such sales, changes in NPLs, repayment levels, the Company's ability to make new investments, the Company's ability to maintain compliance with its debt covenants, the Company's ability to generate income and gains from its portfolio and other risks detailed in "Risk Factors" in our 2020 Annual Report on Form 10-K, and any updates thereto made in our subsequent filings with the SEC.

**Important Note re COVID-19:** Readers of this presentation are cautioned that, due to the uncertainty created by the COVID-19 pandemic, our results for the first quarter may not be indicative of our future results. Readers are urged to read our Quarterly Report on Form 10-Q for the quarter ended June 30, 2021 when it is filed with the SEC for a more fulsome discussion of our first quarter results, including the "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors" sections included therein.

**Note:** Please refer to the "Glossary" section in the Appendix for a list of defined terms and metrics.

In 2019, we announced a new business strategy that would focus our management personnel and our investment resources primarily on scaling our Ground Lease platform. As part of this strategy, we accelerated the monetization of legacy assets, reducing our legacy portfolio to approximately 14% of our overall portfolio as of June 30, 2021, and deployed a substantial portion of the proceeds into additional investments in SAFE and new loan and net lease originations relating to the Ground Lease business. Adjusted earnings is a non-GAAP metric management uses to assess our execution of this strategy and the performance of our operations. Adjusted earnings reflects impairment charges and loan provisions in the same period in which they are recognized in net income (loss) prepared in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Adjusted earnings is used internally as a supplemental performance measure adjusting for certain items to give management a view of income more directly derived from operating activities in the period in which they occur. Adjusted earnings is calculated as net income (loss) allocable to common shareholders, prior to the effect of depreciation and amortization, including our proportionate share of depreciation and amortization from equity method investments and excluding depreciation and amortization allocable to noncontrolling interests, stock-based compensation expense, the non-cash portion of loss on early extinguishment of debt and the liquidation preference recorded as a premium above book value on the redemption of preferred stock ("Adjusted Earnings").

Adjusted Earnings should be examined in conjunction with net income (loss) as shown in our consolidated statements of operations. Adjusted Earnings should not be considered as an alternative to net income (loss) (determined in accordance with GAAP), or to cash flows from operating activities (determined in accordance with GAAP), as a measure of our liquidity, nor is Adjusted Earnings indicative of funds available to fund our cash needs or available for distribution to shareholders. Rather, Adjusted Earnings is an additional measure we use to analyze our business performance because it excludes the effects of certain non-cash charges that we believe are not necessarily indicative of our operating performance. It should be noted that our manner of calculating Adjusted Earnings may differ from the calculations of similarly-titled measures by other companies.

Q2 '21 SAFE mark-to-market value of iStar's investment in Safehold is \$2,764m, calculated as iStar's ownership of 35.2m shares of SAFE at the June 30, 2021 closing stock price of \$78.50. Q2 '20 SAFE mark-to-market value of iStar's investment in Safehold is \$1,923m calculated as iStar's ownership of 33.4m shares of SAFE at the June 30, 2020 closing stock price of \$57.49. We use adjusted common equity, a non-GAAP financial measure, as a supplemental measure to give management a view of equity allocable to common shareholders prior to the impact of certain non-cash GAAP measures. Management believes that adjusted common equity provides a useful measure for investors to consider in addition to total shareholders equity because cumulative effect of depreciation and amortization expenses and CECL allowances calculated under GAAP may not necessarily reflect an actual reduction in the value of the Company's assets. Adjusted common equity should be examined in conjunction with total shareholders' equity as shown on the Company's consolidated balance sheet. Adjusted common equity should not be considered an alternative to total shareholders' equity (determined in accordance with GAAP), nor is adjusted common equity indicative of funds available for distribution to shareholders. It should be noted that our manner of calculating adjusted common equity may differ from the calculations of similarly-titled measures by other companies.
