Press Release

Safehold Reports Third Quarter 2022 Results

NEW YORK, November 1, 2022

Safehold Inc. (NYSE: SAFE) reported results for the third quarter 2022.

SAFE published a presentation detailing these results which can be found on its website, www.safeholdinc.com in the “Investor Relations” section.

Highlights from the earnings announcement include:

- ³/₄ Q3’22 earnings per share were \$1.06, a 182% increase year-over-year
- ³/₄ Q3’22 revenue was \$71.7 million, a 52% increase year-over-year
- ³/₄ Closed \$284 million¹ of new originations in Q3’22, bringing total aggregate portfolio to \$6.1 billion
- ³/₄ Generated a \$46.4 million net gain in Q3’22 from the sale of one ground lease
- ³/₄ UCA grew by an estimated \$597 million in Q3’22, bringing total UCA to an estimated \$10.5 billion

“Safehold reported steady progress during the third quarter with over \$280 million of new originations, growing the portfolio to \$6.1 billion,” said Jay Sugarman, Chairman and Chief Executive Officer. “The sale of an existing ground lease also helped highlight the potential value embedded in our portfolio and in Caret.”

¹ Investments in Q3’22 include \$29m of new forward commitments that have not yet been funded. Such funding commitments are subject to certain conditions. There can be no assurance that Safehold will complete these transactions.

EARNINGS RESULTS

Forward-Looking Statements and Other Matters

This presentation may contain forward-looking statements. All statements other than statements of historical fact are forward-looking statements. These forward-looking statements can be identified by the use of words such as "illustrative", "representative", "expect", "plan", "will", "estimate", "project", "intend", "believe", and other similar expressions that do not relate to historical matters. These forward-looking statements reflect the Company's current views about future events, and are subject to numerous known and unknown risks, uncertainties, assumptions and changes in circumstances that may cause the Company's actual results to differ significantly from those expressed in any forward-looking statement. The Company does not guarantee that the transactions and events described will happen as described (or that they will happen at all).

The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: (1) the war in Ukraine and escalating geopolitical tensions as a result of Russia's invasion of Ukraine; (2) the ability to consummate the announced transactions on the expected terms and within the anticipated time periods, or at all, which is dependent on the parties' ability to satisfy certain closing conditions, including the approval of SAFE's and STAR's stockholders, completion of the Spin-Off, sales of assets and other factors; (3) any delay or inability of New Safehold and/or SpinCo to realize the expected benefits of the transactions; (4) changes in tax laws, regulations, rates, policies or interpretations; (5) the value of New Safehold shares to be issued in the transaction; (6) the value of SpinCo's shares and liquidity in SpinCo's shares; (7) the risk of unexpected significant transaction costs and/or unknown liabilities; (8) potential litigation relating to the proposed transactions; (9) the impact of actions taken by significant stockholders; (9) the potential disruption to STAR's or SAFE's respective businesses of diverted management attention, and the unanticipated loss of key members of senior management or other employees, in each case as a result of the announced transactions; (10) general economic and business conditions that could affect New Safehold and SpinCo following the transactions; (11) market demand for ground lease capital; (12) the Company's ability to source new ground lease investments; (13) the availability of funds to complete new ground lease investments; (14) risks that the rent adjustment clauses in the Company's leases will not adequately keep up with changes in market value and inflation; (15) risks associated with certain tenant and industry concentrations in our portfolio; (16) conflicts of interest and other risks associated with the Company's external management structure and its relationships with iStar and other significant investors; (17) risks associated with using debt to fund the Company's business activities (including changes in interest rates and/or credit spreads, the ability to source financing at rates below the capitalization rates of our assets, and refinancing and interest rate risks); (18) risks that tenant rights in certain of our ground leases will limit or eliminate the Owned Residual Portfolio realizations from such properties; (19) general risks affecting the real estate industry and local real estate markets (including, without limitation, the potential inability to enter into or renew ground leases at favorable rates, including with respect to contractual rate increases or participating rent); (20) dependence on the creditworthiness of our tenants and their financial condition and operating performance; and (21) competition from other ground lease investors and risks associated with our failure to qualify for taxation as a REIT, as amended. Please refer to the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021 and any subsequent reports filed with the Securities and Exchange Commission (SEC) for further discussion of these and other investment considerations. The Company expressly disclaims any responsibility to update or revise forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

This presentation also contains modeling and information relating to potential inflation, which are presented for illustrative purposes only, and are not guarantees or otherwise necessarily indicative of future performance. In addition, this presentation contains certain figures, projections and calculations based in part on management's underlying assumptions. Management believes these assumptions are reasonable; however, other reasonable assumptions could provide differing outputs.

Important Note re COVID-19: Readers of this presentation are cautioned that, due to the possibility that the COVID-19 pandemic will have a delayed adverse impact on our financial results, along with the uncertainty created by the pandemic, our results for the period may not be indicative of future results. Similarly, our Rent Coverage and Unrealized Capital Appreciation as of September 30, 2022 may decline with respect to certain properties in future periods due to the continuing impact of the pandemic and the fact that certain metrics that we report and monitor may not reflect the full effects of the pandemic as of their dates of determination. Readers are urged to read our Quarterly Report on Form 10-Q for the quarter ended September 30, 2022 when it is filed with the SEC for a more fulsome discussion of our quarterly results, including the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section included therein.

Note: Please refer to the Glossary at the end of this presentation for a list of defined terms and metrics. Everything as of 9/30/22 unless otherwise noted.

Forward-Looking Statements and Other Matters

Inflation Adjusted Yield / CPI Adjustments: Safehold™ originated ground leases typically include a periodic rent increase based on prior years cumulative CPI growth with the initial lookback year generally starting between lease year 11 and 21. These CPI lookbacks are generally capped between 3.0% - 3.5% per annum compounded. In the event cumulative inflation growth for the lookback period exceeds the cap, the excess is not captured by the CPI lookback. Other forms of inflation capture include fair market value resets and percentage rent, typically for acquired ground leases. 84% of our portfolio as determined by cash rent has some form of a CPI lookback and 95% of our portfolio as determined by cash rent has some form of inflation capture. For Inflation Adjusted Yield calculation assumes current FRED 30-yr Breakeven Inflation Rate of 2.27% annually. (Federal Reserve Bank of St. Louis, 30-year Breakeven Inflation Rate, retrieved from FRED, Federal Reserve Bank of St. Louis; <https://fred.stlouisfed.org/series/T30YIEM>, October 31, 2022)

Rent Coverage / Property NOI: The Company uses estimates of the stabilized Property NOI if it does not receive current tenant information or if the properties are under construction/in transition. These estimates are based on leasing activity at the property, third property appraisals and available market information, such as leasing activity at comparable properties in the relevant market.

Additional Information and Where You Can Find It

In connection with the proposed transactions, STAR will file with the SEC a registration statement on Form S-4 that will include a joint proxy statement of STAR and SAFE and that also will constitute a prospectus for the shares of STAR Common Stock being issued to SAFE's stockholders in the proposed Merger. In addition, SpinCo will file with the SEC a Form 10 registration statement that will register its common shares. STAR, SAFE and SpinCo also may file other documents with the SEC regarding the proposed transactions. This document is not a substitute for the joint proxy statement/prospectus or Form 10 registration statement or any other document which STAR, SAFE and SpinCo may file with the SEC. INVESTORS AND SECURITY HOLDERS OF STAR AND SAFE, AS APPLICABLE, ARE URGED TO READ THE JOINT PROXY STATEMENT/PROSPECTUS, THE FORM 10 REGISTRATION STATEMENT AND ANY OTHER RELEVANT DOCUMENTS THAT ARE FILED OR WILL BE FILED WITH THE SEC, AS WELL AS ANY AMENDMENTS OR SUPPLEMENTS TO THESE DOCUMENTS, CAREFULLY AND IN THEIR ENTIRETY BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION ABOUT THE PROPOSED TRANSACTIONS AND RELATED MATTERS. Investors and security holders may obtain free copies of the joint proxy statement/prospectus and the Form 10 registration statement (when available) and other documents filed with the SEC by STAR, SAFE and SpinCo through the web site maintained by the SEC at www.sec.gov or by contacting the investor relations departments of STAR or SAFE at the following:

(1) Merger and Caret related costs were \$5.8m in Q3 '22, (\$0.1m) in Q3 '21, \$6.3m YTD '22 and \$0.1m YTD '21 from legal, tax, accounting and miscellaneous.

(2) Non-recurring gains include \$46.4m gain on sale of Net Investment in Lease (net of Caret distribution) in Q3 '22 and \$1.8m selling profit from sales-type leases in Q3 '21.

Attractive Ground Lease Realization

- ❑ In Q3 '22, Safehold sold a ground lease in the Washington D.C. MSA for \$136.0m, generating a gain for Safehold of approximately \$55.8m (gross of Caret allocations to third parties)
- ❑ Safehold originally purchased the asset in December 2020 for \$76.7 million
- ❑ After paying closing costs, establishing reserves and returning the original cost basis to Safehold, the remaining \$55.8m proceeds will be distributed approximately \$46.8m to Safehold and approximately \$9.0m to the minority Caret unitholders (including management)

Caret Update

- ❑ In Q3 '22, we announced that MSD Partners committed to purchase 1.0% of the total authorized Caret Units for an aggregate \$20.0 million implying a valuation of \$2.0 billion with no redemption options⁽¹⁾
- ❑ Caret Ownership
 - Inclusive of all commitments, Safehold will own ~83% of outstanding Caret units
 - After giving effect to the MSD Partners transaction, other investors including management will own ~17% of outstanding Caret Units

⁽¹⁾ Concurrent with and subject to the closing of the business combination and subject to Safehold shareholders' consent to certain CARET modifications.
⁽²⁾ Including commitment to purchase 28,571 units.

Caret Timeline

⁽¹⁾ Reached 100 transaction milestone, enhancing diversification.

⁽²⁾ Increased UCA from \$1.6b to \$10.5b from Q3 '18 to Q3 '22.

⁽³⁾ Achieved investment grade unsecured corporate ratings.

⁽⁴⁾ We are obligated to seek to provide a public market listing for the Caret Units by Q1'24. If we are unable to achieve a public market liquidity event at a value in excess of \$1.75b, investors in the initial round will have the option to cause the redemption of their Caret Units at their original purchase price.

⁽⁵⁾ Management was granted up to 15% of Caret units under this plan.

⁽⁶⁾ Concurrent with and subject to the closing of the business combination and subject to Safehold shareholders' consent to certain CARET modifications.

Note: Figures in millions except for per share amounts.

Net income attributable to Safehold Inc. common shareholders excluding merger & Caret related costs and non-recurring gains for the period is a non-GAAP metric used internally as a supplemental performance measure adjusting for certain extraordinary items to give management and investors a view of net income more directly derived from operating activities in the period in which they occur. Net income attributable to Safehold Inc. common shareholders excluding merger & Caret related costs and non-recurring gains for the period is calculated as net income (loss) attributable to common shareholders, prior to the effect of non-recurring gains, and charges related to the merger and administration of Caret, all as adjusted to exclude the impact of gains and charges allocable to noncontrolling interests. It should be examined in conjunction with net income (loss) attributable to common shareholders as shown in our consolidated statements of operations. It should not be considered as an alternative to net income (loss) attributable to common shareholders (determined in accordance with generally accepted accounting principles in the United States of America ["GAAP"]). This metric may differ from the calculations of similarly-titled measures used by other companies.

Unrealized Capital Appreciation Details

Refer to the Glossary in the Appendix for a definition of Owned Residual Portfolio, Unrealized Capital Appreciation ("UCA"), and "Combined Property Value" ("CPV"). SAFE relies in part on CBRE's appraisals of the CPV of our portfolio in calculating UCA. SAFE may utilize management's estimate of CPV for ground lease investments recently acquired that CBRE has not yet appraised. For construction deals, CPV represents the cost to build inclusive of the land. CPV is a hypothetical value of the as-improved subject property, based on an assumed ownership structure different from the actual ownership structure. CPV does not take into account the in-place Ground Lease or other contractual obligations and is based on the hypothetical condition that the property is leased at market rent at stabilized levels, where applicable, as of the valuation date, without consideration of any costs to achieve stabilization through lease up and associated costs. In determining the CPV of each property, CBRE has utilized the sales comparison approach, based on sales of comparable properties, adjusted for differences, and the income capitalization approach, based on the subject property's income-producing capabilities. The assumptions applied to determine values for these purposes vary by property type and are selected for use based on a number of factors, including information supplied by our tenants, market data and other factors. We currently intend that the CPV associated with each Ground Lease in our portfolio will be valued approximately every 12 calendar months and no less frequently than every 24 months.

The calculation of the estimated UCA in our Owned Residual Portfolio is subject to a number of limitations and qualifications. We do not typically receive full financial statements prepared in accordance with U.S. GAAP for the commercial properties being operated on the land subject to our Ground Leases. In some cases, we are prohibited by confidentiality provisions in our Ground Leases from disclosing information that we receive from our tenants to CBRE. Additionally, we do not independently investigate or verify the information supplied by our tenants, but rather assume the accuracy and completeness of such information and the appropriateness of the accounting methodology or principles, assumptions, estimates and judgments made by our tenants in providing the information to us. Our calculation of UCA in our Owned Residual Portfolio is not subject to U.S. GAAP and will not be subject to independent audit. We conduct rolling property valuations; therefore, our estimated UCA and CPV may not reflect current market conditions and may decline materially in the future. There can be no assurance that we will realize any incremental value from the UCA in our Owned Residual Portfolio or that the market price of our common stock will reflect any value attributable thereto. We will generally not be able to realize value from UCA through near term transactions, as properties are leased to tenants pursuant to long-term leases. For more information on UCA, including additional limitations and qualifications, please refer to our Current Report on Form 8-K filed with the SEC on November 1, 2022 and "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021, as updated from time to time in our subsequent periodic reports, filed with the SEC.

We formed a subsidiary called Caret Ventures LLC that is structured to track and capture UCA to the extent UCA is realized upon sale of our land and Ground Leases or certain other specified events. Under a shareholder-approved plan, management was granted up to 15% of the total authorized Caret units, some of which remains subject to time-based vesting. See our 2021 proxy statement for additional information on the long-term incentive plan.

We announced on February 15, 2022 that we sold 108,571 Caret units and received a commitment for the sale of 28,571 Caret units for an aggregate \$24.0 million. Those 137,142 Caret units equal 1.37% of the authorized Caret units in Caret Ventures LLC, implying a total Caret unit valuation of \$1.75 billion. As part of the sale, we are obligated to seek to provide a public market listing for the Caret units, or securities into which they may be exchanged, within two years. If we are unable to provide public market liquidity within the two years at a value in excess of the new investors' basis, the investors have the right to cause us to redeem their Caret units at their original purchase price.

Additionally, we announced on August 11, 2022 that MSD Partners, L.P. subscribed to purchase 100,000 Caret units from SAFE for an aggregate purchase price of \$20.0 million, conditioned on, among other things, the closing of the merger and spin-off and the implementation of certain changes to the Caret program.

Glossary

Aggregate Cost Basis	Represents Cost Basis plus unfunded commitments. For unfunded commitments, it represents the aggregate future amount to be paid under the commitments.
Aggregate Gross Book Value	Represents the Current Portfolio plus unfunded commitments. For unfunded commitments, it represents the aggregate future amount to be paid under the commitments.
Annualized Cash Yield	Calculated as the annualized base Cash Rent plus Percentage Rent divided by Cost Basis.
Annualized Yield	Calculated as the annualized base Net Rent plus Percentage Rent divided by GBV.
Cash Interest Rate	The current cash interest rate of debt.
Cash Rent	Represents base ground lease income recognized excluding straight-line rent, amortization of lease intangibles, and non-cash income from sales-type leases.
Combined Property Value (CPV)	The current combined value of the land, buildings and improvements relating to a commercial property, as if there was no ground lease on the land at the property. CPV is generally based on independent appraisals; however, the Company will use actual sales prices/management estimates for recently acquired and originated ground leases for which appraisals are not yet available. For construction projects, CPV represents the total cost associated with the acquisition, development, and construction of the project.
Cost Basis	Represents the historical purchase price of an asset, including capitalized acquisition costs.
Current Portfolio	Represents the portfolio of assets owned at the date indicated, measured using Gross Book Value. Does not include unfunded commitments.
Effective Interest Rate	Represents the all-in stated interest rate over the term of debt from funding through maturity based on the contractual payments owed excluding the effect of debt premium, discount and deferred financing costs.
GAAP Rent	Current period revenue from operating and sales-type leases recognized under GAAP.
Gross Book Value (GBV)	Represents Cost Basis plus accrued interest on sales-type leases.
Ground Lease-to-Value (GLTV)	Calculated as the Aggregate GBV divided by CPV. Safehold uses this metric to assess risk and our seniority level in a real estate capital structure. Similar to the concept of the LTV metric used in the loan market.
Ground Lease Plus Commitment (GL+)	Safehold's commitment or option to purchase ground leases from iStar or a third-party contingent on certain development and timing criteria.
Inflation Adjusted Yield	Computed similarly to effective yield on a bond, the Inflation Adjusted Yield is calculated using projected cash flows beginning 10/1/2022 for the duration of the lease, with an initial cash outflow and a residual value equal to our cost of the land. The cash flows incorporate contractual fixed escalators and the impact of an assumed inflation scenario on variable rate escalators such as (i) CPI adjustments and CPI lookbacks, (ii) percentage of revenues the building generates and/or (iii) periodic fair market valuations of the land. For CPI adjustments and CPI lookbacks, this metric uses the assumed inflation scenario for the duration of the leases. For ground leases that have other forms of inflation capture including fair market value resets and percentage rent based on building revenue, this metric assumes fair market value and building revenue increase by the assumed inflation scenario annually.
Net Rent	GAAP Rent less depreciation & amortization. This includes the amortization of a right of use asset recorded as real estate expense (totals \$1.0m annualized). Includes our proportionate share of GAAP rent and amortization from our equity method investment.
Owned Residual Portfolio	Represents the portfolio of properties under which Safehold owns a ground lease and reflects Safehold's right to the land, property and tenant improvements at the end of the lease. The current value of the Owned Residual Portfolio is typically represented by the Combined Property Value or CPV of our portfolio.
Percentage Rent	Represents TTM cash percentage rent paid by the property.
Property NOI	Represents the net operating income (NOI) of the building/Safehold's ground lease tenant prior to paying ground lease rent.
Rent Coverage	The ratio of Property NOI as provided by the building owner or estimated Property NOI to the annualized Cash Rent due to Safehold. The Company adjusts Property NOI for material non-recurring items and uses estimates of the stabilized Property NOI if it does not receive current tenant information and for properties under construction or transition, in each case based on leasing activity at the property and available market information, including leasing activity at comparable properties in the relevant market.
Safehold™/Safehold™ Ground Lease	A ground lease originated and structured by Safehold.
Unrealized Capital Appreciation (UCA)	Calculated as the difference between CPV and the portfolio's Aggregate Cost Basis. The Company tracks UCA because we believe it provides relevant information with regard to the three key investment characteristics of our ground leases: [1] the safety of our position in a tenant's capital structure; [2] the quality of the long-term cash flows generated by our portfolio rent that increases over time; and [3] increases and decreases in CPV of the portfolio that will ultimately revert to us.
