Safety, Income & Growth Inc.
(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction of
incorporation or organization)
1114 Avenue of the Americas, 39th Floor
New York, NY
(Address of principal executive offices)

30-0971238
(I.R.S. Employer
Identification Number)
10036
(Zip code)

Registrant's telephone number, including area code: **(212) 930-9400**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class:	Name of Exchange on which registered:
Common Stock, \$0.01 par value	New York Stock Exchange

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (i) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve months (or for such shorter period that the registrant was required to file such reports); and (ii) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated
filer

Non-accelerated
filer

Smaller reporting
company

Emerging growth
company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

As of June 30, 2018, the aggregate market value of Safety, Income & Growth Inc. common stock, \$0.01 par value per share, held by non-affiliates of the registrant was approximately \$189.0 million, based upon the closing price of \$18.97 on the New York Stock Exchange composite tape on such date.

As of February 13, 2019, there were 18,275,941 shares of common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

1. Portions of the registrant's definitive proxy statement for the registrant's 2019 Annual Meeting, to be filed within 120 days after the close of the registrant's fiscal year, are incorporated by reference into Part III of this Annual Report on Form 10-K.

PART I

Item 1. Business

Explanatory Note for Purposes of the "Safe Harbor Provisions" of Section 21E of the Securities Exchange Act of 1934, as amended

Certain statements in this report, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements are included with respect to, among other things, our current business plan, business strategy, portfolio management, prospects and liquidity. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results or outcomes to differ materially from those contained in the forward-looking statements. Important factors that we believe might cause such differences are discussed in the section entitled, "Risk Factors" in Part I, Item 1a of this Form 10-K or otherwise accompany the forward-looking statements contained in this Form 10-K. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. In assessing all forward-looking statements, readers are urged to read carefully all cautionary statements contained in this Form 10-K.

Business

We are a publicly-traded company that originates and acquires ground leases in order to generate attractive long-term risk-adjusted returns from our investments. We believe that our business has characteristics comparable to a high-grade, fixed income investment business, but with certain unique advantages. Relative to alternative fixed income investments generally, our ground leases typically benefit from built-in growth derived from contractual rent increases, and the opportunity to realize value from future rights to acquire the buildings and other improvements on our land at no additional cost to us. We believe that these features offer us the opportunity to realize superior risk-adjusted total returns when compared to certain alternative highly-rated investments.

Ground leases generally represent the ownership of land underlying commercial real estate properties, which are leased on a long term basis (often 30 to 99 years) by the land owner (landlord) to a tenant that owns and operates the building on top of the land ("Ground Lease"), which we refer to as a SafeholdTM. The property is generally leased on a triple net basis with the tenant generally responsible for taxes, maintenance and insurance as well as all operating costs and capital expenditures. Ground Leases typically provide that at the end of the lease term or upon tenant default and the termination of the Ground Lease upon such default, the land, building and all improvements revert to the landlord. We seek to become the industry leader in Ground Leases by demonstrating the value of the product to real estate investors, owners, operators and developers and expanding their use throughout major metropolitan areas.

We have a diverse portfolio of 28 properties located in major metropolitan areas. All of the properties in our portfolio are subject to long-term leases consisting of 23 Ground Leases and one master lease (covering five properties) that provide for contractual periodic rent escalations or percentage rent participations in gross revenues generated at the relevant properties.

We have chosen to focus on Ground Leases because we believe they meet an important need in the real estate capital markets for our customers. We also believe Ground Leases offer a unique combination of safety, income growth and the potential for capital appreciation for investors for the following reasons:

High Quality Long-Term Cash Flow: We believe that a Ground Lease represents a safe position in a property's capital structure. This safety is derived from the typical structure of a Ground Lease, which we believe creates a low likelihood of a tenant default and a low likelihood of a loss by the Ground Lease landlord in the event of a tenant default. A Ground Lease landlord typically has the right to regain possession of its land and take ownership of the buildings and improvements thereon upon a tenant default, which provides a strong incentive for a Ground Lease tenant to make the required Ground Lease rent payments. Furthermore, most lessees finance their leasehold improvements. We believe such leasehold loans provide an additional form of credit support to our investment cash flows because we believe that it is reasonably likely that a leasehold lender would seek to cure a tenant default in order to protect its collateral. Additionally, the combined property value subject to a Ground Lease typically significantly exceeds the amount of the Ground Lease landlord's investment at the time it was made; therefore, even if the Ground Lease landlord

takes over the property following a tenant default or upon expiration of the Ground Lease, the landlord is reasonably likely to recover substantially all of its Ground Lease investment, and possibly amounts in excess of its investment, depending upon prevailing market conditions.

Income Growth: Ground Leases typically provide growing income streams through contractual base rent escalators that may compound over the duration of the lease. These rent escalators may be based on fixed increases, a Consumer Price Index ("CPI") or a combination thereof, and may also include a participation in the gross revenues of the underlying property. We believe that this growth in the lease rate over time can mitigate the effects of inflation and capture for anticipated increases in land values over time, as well as serving as a basis for growing our dividend.

Opportunity for Capital Appreciation: The opportunity for capital appreciation with Ground Leases comes in two forms. First, as the ground rent grows over time, the value of the Ground Lease should grow under market conditions in which capitalization rates remain flat. Second, at the expiration or earlier termination of our Ground Leases, we typically have the right to regain possession of the land underlying the Ground Lease and take title to the buildings and other improvements thereon for no additional consideration. This reversion right creates additional potential value to our stockholders.

We generally target Ground Lease investments in which the initial cost of the Ground Lease represents 30% to 45% of the combined value of the land and buildings and improvements thereon ("Combined Property Value") as if there were no Ground Lease on the land. If the initial cost of a Ground Lease is equal to 35% of the Combined Property Value, the remaining 65% of the Combined Property Value represents potential value accretion to us upon the reversion of the property, assuming no intervening change in the Combined Property Value. We refer to this potential value accretion as the "Value Bank," defined as the difference between the initial cost of the Ground Lease and the Combined Property Value. In our view, there is a strong correlation between inflation and commercial real estate values over time, which supports our belief that the value of our Value Bank should increase over time as inflation increases. Our ability to recognize value through reversion rights may be limited by the rights of our tenants under some of our Ground Leases, including tenant rights to purchase our land in certain circumstances and the right of one tenant to demolish improvements prior to the expiration of the lease. See "Risk Factors" for a discussion of these tenant rights.

We believe that the reversion right is a unique feature distinguishing Ground Leases from other fixed income investments and property types; however, no amounts relating to Value Bank are recorded on our balance sheet or reflected in our earnings. Accordingly, we periodically estimate and report the value of our Value Bank based in part on valuations of the Combined Property Value under our Ground Leases. We retain an independent valuation firm to prepare: (a) initial reports of the Combined Property Value associated with each Ground Lease in our portfolio; and (b) periodic updates of such reports. As reported in our Current Report on Form 8-K filed on February 14, 2019, as of December 31, 2018, our estimated Value Bank is \$1,809 million. Please review that 8-K for a discussion of the valuation methodology used and important limitations and qualifications of the calculation of Value Bank. See also "Risk Factors - There can be no assurance that we will realize any incremental value from the Value Bank or that the market price of our common stock will reflect any value attributable thereto."

Market Opportunity: We believe that there is a significant market opportunity for a dedicated provider of Ground Lease capital like us. We believe that the market for existing Ground Leases is fragmented with ownership comprised primarily of high net worth individuals, pension funds, life insurance companies, estates and endowments. However, while we intend to pursue acquisitions of existing Ground Leases, our investment thesis is predicated, in part, on what we believe is an untapped market opportunity to expand the use of Ground Leases to a broader component of the approximately \$7.0 trillion institutional commercial property market in the U.S. We intend to capture this market opportunity by utilizing multiple sourcing and origination channels, including manufacturing new Ground Leases with third-party owners and developers of commercial real estate and originating Ground Leases to provide capital for development and redevelopment. We further believe that Ground Leases generally represent an attractive source of capital for our tenants and may allow them to generate superior returns on their invested equity as compared to utilizing alternative sources of capital. We draw on the extensive investment origination and sourcing platform of iStar, the parent company of our manager, to actively promote the benefits of the Ground Lease structure to prospective Ground Lease tenants.

Our common stock is listed on the New York Stock Exchange under the symbol "SAFE." We were incorporated in Maryland on April 14, 2017. We elected to be taxed as a real estate investment trust ("REIT") for U.S. federal income tax purposes, commencing with the tax year ended December 31, 2017. We conduct all of our business and own all of our properties through our subsidiary operating partnership, Safety Income and Growth Operating Partnership LP (the "Operating Partnership"), in what is commonly referred to as an "UPREIT" structure.

Investment Strategy

Our primary investment objective is to construct a diversified portfolio of Ground Leases that will generate attractive high-quality risk-adjusted returns and support stable and growing distributions to our stockholders. We have identified several channels for pursuing Ground Lease investment opportunities which include:

- *Create a Ground Lease with a Third Party.* We seek to pursue opportunities where a third party acquiror or existing owner of a commercial property may be interested in utilizing a Ground Lease structure to facilitate its options with respect to its interests in the property. We will create the Ground Lease by splitting ownership of the property into an ownership interest and Ground Lease on the land, and a separate leasehold interest of the building and improvements thereon. We will acquire the ownership interest and Ground Lease on the land from the third party.
- *Acquire Existing Ground Leases.* We seek to acquire existing Ground Leases that are marketed for sale and actively solicit potential sellers and related property brokers of existing Ground Leases to engage in off-market transactions. Our structure as an UPREIT gives us the ability to acquire Ground Leases from owners, particularly estates and high net worth individuals, using Operating Partnership units that may provide the seller with tax advantages, as well as liquidity, portfolio diversification and professional management.
- *Originate Ground Leases to Provide Capital For Development or Value-Add Redevelopment or Repositioning.* We seek opportunities where we can purchase land and simultaneously lease it pursuant to a new Ground Lease to a tenant who plans to develop a new, or significantly improve an existing, commercial property on the land.
- *Acquire a Commercial Real Estate Property to Create a Ground Lease.* We seek in select instances, in partnership with our Manager, to acquire commercial real estate properties that have the potential to be converted into an ownership structure that includes a Ground Lease retained by us and a leasehold interest that may be acquired by our Manager or sold to a third party.
- *Finance Third Party Ground Leases.* Combining our capital resources with our Manager's relationships and Ground Lease expertise, we seek opportunities to originate Ground Lease investments in conjunction with our Manager's origination of a leasehold financing with the same customer.

We generally intend to target Ground Leases that meet some or all of the following investment criteria:

- Underlying properties located in major metropolitan areas;
- Average remaining initial lease terms of 30 to 99 years;
- Periodic contractual rent escalators or percentage rent participations;
- Value of approximately 30% to 45% of the Combined Property Value at the commencement of the lease or the acquisition date;
- Ground Rent Coverage, defined as the ratio of the Underlying Property's NOI to the annualized base rental payment due us, of approximately 2.0x to 5.0x for the initial 12-month period of the lease. Underlying Property NOI is defined as the trailing twelve month net operating income of the commercial real estate being operated at the property without giving effect to any rent paid or payable under our Ground Lease;
- First year cash return on asset of between 3.0% and 4.5%;
- Underlying properties that we believe are well located in markets with high barriers to entry and that have durable cash flow; and
- Transaction sizes ranging from \$20 to \$250 million.

Recent iStar Investment Transaction

On January 2, 2019, iStar invested \$250.0 million in our Operating Partnership by purchasing 12,500,000 newly designated limited partnership units, or the "Investor Units", from the Operating Partnership at a purchase price of \$20.00 per unit. This transaction was approved by a special committee of our board of directors, with the advice of independent legal and financial advisors. We used proceeds from the sale of the Investor Units to repay the 2017 Revolver and intend to use the remaining proceeds to fund future investments in Ground Leases.

Investor Units. Each Investor Unit will receive distributions equivalent to distributions declared and paid on one share of our common stock. The Investor Units have no voting rights. They have limited protective consent rights over certain matters such as amendments to the terms of the Investor Units that would adversely affect the Investor Units.

The Investor Units may not be converted or exchanged for cash or other property; provided, however, that we have agreed to seek stockholder approval to exchange the Investor Units for shares of our common stock, on a one-for-one basis. The Investor Units may not be transferred prior to such exchange. They will be transferable, subject to compliance with securities laws, if stockholder approval for the exchange has not been obtained by June 30, 2019. Prior to the stockholder meeting held to obtain approval for the exchange, we will be restricted from issuing our common stock or partnership units of the Operating Partnership at less than \$20.00 per share or unit other than grants pursuant to our equity incentive plan; provided, however, that we may issue up to \$100.0 million of shares of our common stock at a price less than \$20.00 in an offering in which iStar is offered the opportunity to purchase shares to maintain its percentage ownership interest in us.

The Investor Units represent an approximately 40.6% fully diluted economic interest in us. After giving effect to the issuance of the Investor Units, iStar's aggregate fully diluted economic interest in us (including the shares of our common stock and Investor Units owned by iStar) is approximately 65.5%; however, iStar's voting power, both before and after giving effect to each of the purchase of the Investor Units and their exchange for our common stock, and will be limited to 41.9%, as a result of limitations on iStar's voting power contained in the Stockholder's Agreement described below.

Stockholder's Agreement. In connection with iStar's purchase of the Investor Units, we entered into a Stockholder's Agreement with iStar on January 2, 2019, which sets forth certain rights and obligations of the parties relating to iStar's ownership of the Investor Units and our common stock.

The Stockholder's Agreement provides that with respect to any matter presented for a vote or written consent of the holders of our common stock after the date on which the Investor Units are exchanged for shares of our common stock or the "Exchange Date", iStar will vote all "Excess Shares" in the same proportions as the votes cast or consents delivered by holders of our common stock other than iStar. "Excess Shares" means the number of shares of our common stock, including, without limitation, shares issued in exchange for Investor Units, or the "Exchange Shares", owned by iStar from time to time that exceed 41.9% of our outstanding common stock at such time, including the Exchange Shares. These voting limitations will remain in effect until the first date on which iStar's aggregate ownership percentage of our outstanding common stock is less than 41.9%.

The Stockholder's Agreement also provides that, notwithstanding the voting limitations described above, for three years, iStar will cast all of its voting power in favor of three individuals who are independent of each of iStar and us within the meaning of the listing rules of the New York Stock Exchange to serve as directors on our board. iStar has also agreed to certain standstill provisions for a term of two years.

The Stockholder's Agreement restricts iStar's ability to transfer Exchange Shares for one year after the Exchange Date. In addition, for a period of two years, iStar will not transfer shares of our common stock representing more than 20% of our outstanding common stock in one transaction or a series of related transactions to any person or group, other than transfers pursuant to a widely distributed public offering, unless the non-iStar holders of our common stock are afforded the opportunity to participate in the transaction at the same price per security and in the same proportion as their shares of our common stock represent of our outstanding fully diluted equity.

The Stockholder's Agreement provides that iStar will have certain rights (but not the obligation) to maintain its percentage ownership interest of our common stock by purchasing additional shares of our common stock when we issue additional shares from time to time, subject to certain exceptions. Any shares purchased by iStar pursuant to such rights will be subject to the voting power limitations set forth in the agreement.

Amended and Restated Management Agreement. In connection with the transactions described above, SFTY Manager LLC (a wholly-owned subsidiary of iStar) and we amended and restated our Management Agreement, dated as of June 27, 2017, or the "Amended and Restated Management Agreement." The Amended and Restated Management Agreement, dated January 2, 2019, provides for a base management fee that will increase incrementally as our Total Equity (as defined in the agreement) increases (refer to Note 13). The management fee will be payable in cash or shares of our common stock, at our election (as determined by our independent directors). Our common stock issued to pay the management fee will be valued at the greater of \$20.00 or a recent volume weighted average market price.

The Amended and Restated Management Agreement will have an initial term through June 30, 2022 during which the agreement is non-terminable, except for certain cause events. After the initial term, the agreement will be automatically renewed for additional one-year terms, unless two-thirds of our independent directors decline to renew the agreement because they have determined that the manager's long-term performance is unsatisfactory to the point of material detriment to us. We will be obligated to pay the manager a termination fee equal to three times the annual management fee paid in respect of the last completed fiscal year prior to the termination if, by the time of such termination, we have raised Total Equity of at least \$820.0 million since inception, including from iStar.

In addition, beginning with the seventh annual renewal term after the initial term and in connection with each annual renewal thereafter, we may decline to renew the management agreement if two-thirds of our independent directors determine that the

management fee is unfair and the manager does not accept a different fee, or the parties are unable, after good faith negotiations, to agree on a new fee. The termination fee will be payable upon such termination provided that the total equity condition described above has been satisfied.

Additional Agreements. In connection with iStar's purchase of the Investor Units, we have entered into an Amended and Restated Registration Rights Agreement with iStar, dated January 2, 2019, which requires us to, among other things, use commercially reasonable efforts to file with the Securities and Exchange Commission within six months after the purchase of the Investor Units a shelf registration statement providing for resale of all shares of our common stock held by iStar. The agreement also provides iStar with certain demand registration rights. The agreement amends and restates the Registration Rights Agreement, dated as of June 27, 2017, between iStar and us.

We entered into voting agreements with each of SFTY Venture LLC and SFTY VII-B, LLC pursuant to which they have agreed to vote their shares of our common stock to approve the issuance of our common stock upon the exchange of Investor Units and the grant of the preemptive rights described above to iStar at the stockholder meeting called for such purpose. The voting agreements expire on June 30, 2019. SFTY VII-B, LLC is an affiliate of Lubert-Adler, L.P. Dean Adler, a principal of Lubert-Adler, L.P., is a director of SAFE REIT. SFTY Venture LLC owns 2,125,000 shares of our common stock and SFTY VII-B, LLC owns 750,000 shares of our common stock at the date of this Report.

Policies with Respect to Other Activities

Our investment, disposition, financing and corporate governance policies (including conflicts of interests policies) are managed under the ultimate supervision of our board of directors. We can amend, revise or eliminate these policies at any time without a vote of its shareholders. We intend to originate and manage investments in a manner consistent with the requirements of the Internal Revenue Code of 1986, as amended (the "Code") for us to qualify as a REIT.

Investment Policies

Investment in Real Estate or Interests in Real Estate

We conduct substantially all of our investment activities through our Operating Partnership and its affiliates. Our primary investment objective is to enhance stockholder value by increasing cash flow from our operations.

We pursue our primary investment objective primarily through the ownership, directly or indirectly, by our Operating Partnership of our Ground Lease investments. Future investment activities will not be limited to any geographic area or to a specified percentage of our assets. While we may diversify in terms of property type, geography, tenant and lease term, we do not have any limit on the amount or percentage of our assets that may be invested in any one of the foregoing categories. We intend to engage in such future investment activities in a manner that is consistent with our qualification and maintenance of our qualification as a REIT for U.S. federal income tax purposes. We do not have a specific policy to acquire assets primarily for capital gain or primarily for income. In addition, we may purchase, lease and/or finance Ground Lease assets for long-term investment, or sell such assets, in whole or in part, when circumstances warrant.

We may also participate with third parties in ventures or other types of co-ownership, if we determine that doing so would be the most effective means of raising capital. We will not, however, enter into a venture or other partnership arrangement to make an investment that would not otherwise meet our investment policies. We also may acquire real estate or interests in real estate in exchange for the issuance of common stock, Operating Partnership units, preferred stock or options to purchase stock.

Investments may be subject to existing mortgage financing and other indebtedness or to new indebtedness which may be incurred in connection with acquiring or refinancing these investments, and we may in the future have corporate level indebtedness through credit facilities and debt securities. Principal of and interest on our debt will have a priority over any dividends and any liquidation amounts with respect to our common stock. Investments are also subject to our policy not to be treated as an investment company under the 1940 Act.

Investments in Real Estate Mortgages

Our current portfolio consists primarily of, and our business objectives emphasize, equity investments in real estate. We may also finance Ground Lease transactions in the future and invest in mortgages or deeds of trust. Debt investments run the risk that one or more borrowers may default under the debt and the collateral securing the debt may not be sufficient to enable us to recoup our full investment. See "Risk Factors—Risks Related to Our Portfolio and Our Business—Loans that we make to Ground Lease owners will be subject to delinquency, foreclosure and loss, which could result in losses to us."

Investments in Securities of or Interests in Persons Primarily Engaged in Real Estate Activities and Other Issuers

Subject to our qualification as a REIT, we may invest in securities of other REITs, other entities engaged in real estate activities or securities of other issuers, including for the purpose of exercising control over such entities. We do not currently have any policy limiting the types of entities in which we may invest or the proportion of assets to be so invested, whether through acquisition of an entity's common stock, limited liability or partnership interests, interests in another REIT or entry into a joint venture. We intend to invest primarily in entities that own real estate and provide Ground Lease capital. We have no current plans to make material investments in entities that are not engaged in real estate activities. Our business objectives are to enhance stockholder value by increasing cash flow from operations, acquire and originate target investments and provide cash distributions and long-term capital appreciation to our stockholders through increases in the value of our company. We have not established a specific policy regarding the relative priority of the foregoing objectives.

Investment in Other Securities

Other than as described above, we do not intend to invest in any additional securities such as loans, bonds, preferred stock or common stock.

Disposition Policies

We may from time to time dispose of investments if, based upon our Manager's and our board's periodic review of our portfolio, we determine such action would be in our best interest. In addition, we may elect to enter into joint ventures or other types of co-ownership with respect to properties that we own, either in connection with acquiring interests in other properties (as discussed above in "—Investment Policies—Investment in Real Estate or Interests in Real Estate") or from investors to raise equity capital.

Financing Policies

We expect to utilize leverage. Our current strategy is to generally target overall leverage at an amount that is approximately 25% of the aggregate Combined Property Value of our portfolio, but not to exceed an overall ratio of 2:1 relative to our total equity. However, our organizational documents do not limit the amount of indebtedness that we may incur. We anticipate that our Manager, under the supervision of our board of directors, will consider a number of factors in evaluating our level of indebtedness from time to time, as well as the amount of such indebtedness that will be either fixed or floating rate. Our board of directors may from time to time modify our leverage policies in light of the then-current economic conditions, relative costs of debt and equity capital, market values of our properties, general market conditions for debt and equity issuances, fluctuations in the market price of our common stock, growth and acquisition opportunities and other factors, including the restrictive covenants under our debt obligations.

To the extent our board of directors determines to obtain additional capital, we may, without stockholder approval, borrow funds or issue debt or equity securities, including additional Operating Partnership units, retain earnings (subject to the distribution requirements applicable to REITs under the Code) or pursue a combination of these methods. As long as our Operating Partnership is in existence, the proceeds of all equity capital raised by us will be contributed to our Operating Partnership in exchange for additional interests in our Operating Partnership, which will dilute the ownership interests of the then existing limited partners in our Operating Partnership.

Hedging Strategy

We may enter into hedging transactions with respect to one or more of our assets or liabilities. Hedging transactions could take a variety of forms, including interest rate swap agreements, interest rate cap agreements, options, futures contracts, forward rate agreements or similar financial instruments. We intend to structure any hedging transactions in a manner that does not jeopardize our qualification as a REIT.

Conflict of Interest Policies

Conflicts of interest may exist or could arise in the future with iStar and its affiliates, including our Manager, our executive officers and/or directors who are also officers and/or directors of iStar, and any limited partner of our Operating Partnership. Conflicts may include, without limitation: conflicts arising from the enforcement of agreements between us and iStar or our Manager; conflicts in the amount of time that officers and employees of our Manager will spend on our affairs versus iStar's other affairs; conflicts in future transactions that we may pursue with iStar; and conflicts in pursuing transactions that could be structured as either a Ground Lease or as another type of transaction that is within iStar's investment focus. iStar is our largest shareholder and owned approximately 41.8% of our common stock at the date of this Report. On January 2, 2019, iStar purchased \$250.0 million of Investor Units in our Operating Partnership, representing approximately 40.6% of the limited partner interests in our Operating Partnership and bringing iStar's aggregate economic interest in our Operating Partnership to approximately 65.5%. See "Recent iStar Investment Transaction" above for further details. In addition, two directors of iStar serve on our board of directors,

including Jay Sugarman, who is the chief executive officer of iStar and our chief executive officer. Our Manager is a wholly-owned subsidiary of iStar. As a result of the foregoing relationships, iStar has significant influence over us.

We have entered into an exclusivity agreement with iStar pursuant to which iStar (including iStar's Net Lease Venture II equity method investment) has agreed that it will not acquire, originate, invest in, or provide financing for a third party's acquisition of, a Ground Lease unless it has first offered that opportunity to us. The exclusivity agreement does not apply to opportunities that include only an incidental interest in Ground Leases or opportunities to manufacture or otherwise create a Ground Lease from a property that has been owned by iStar's first net lease venture (Net Lease Venture) for at least three years after the closing of our initial public offering. The existing net lease venture invests in single tenant properties leased to corporate entities under triple net leases. iStar owns a 51.9% interest in, and manages the day to day operations of, the net lease venture and several of its executives whose time is substantially devoted to the venture own a 0.6% equity interest in the venture and are entitled to participate in promote payments made to iStar. The exclusivity agreement will remain in effect during the term of the management agreement. The exclusivity agreement will automatically terminate upon any termination of the management agreement and will not otherwise be terminable. We do not generally expect to enter into ventures with iStar, but if we do so, the terms and conditions of our venture investment will be subject to the approval of a majority of disinterested directors of our board of directors.

Our directors and executive officers have duties to us under applicable Maryland law in connection with their management of our company. At the same time, we have fiduciary duties, as a general partner, to our Operating Partnership and to the limited partners under Delaware law (the jurisdiction of the Operating Partnership's organization) in connection with the management of our Operating Partnership. Our duties as a general partner to our Operating Partnership and its partners may come into conflict with the duties of our directors and executive officers to our company. Unless otherwise provided for in the relevant partnership agreement, Delaware law generally requires a general partner of a Delaware limited partnership to adhere to fiduciary duty standards under which it owes its limited partners the highest duties of loyalty and care and which generally prohibits such general partner from taking any action or engaging in any transaction as to which it has a conflict of interest. The limited partners of our Operating Partnership have agreed that in the event of such a conflict, we will fulfill our fiduciary duties to such limited partners by acting in the best interests of our company.

Additionally, the Operating Partnership agreement expressly limits our liability by providing that neither the general partner of the Operating Partnership, nor any of its directors or officers, will be liable or accountable in damages to our Operating Partnership, the limited partners or assignees for errors in judgment, mistakes of fact or law or for any act or omission if we, or such director or officer, acted in good faith. In addition, our Operating Partnership is required to indemnify us, our affiliates and each of our respective executive officers, directors and employees and any person we may designate from time to time in our sole and absolute discretion, including present and former members, managers, stockholders, directors, limited partners, general partners, officers or controlling persons of our predecessor, to the fullest extent permitted by applicable law against any and all losses, claims, damages, liabilities (whether joint or several), expenses (including, without limitation, attorneys' fees and other legal fees and expenses), judgments, fines, settlements and other amounts arising from any and all claims, demands, actions, suits or proceedings, civil, criminal, administrative or investigative, that relate to the operations of the Operating Partnership, provided that our Operating Partnership will not indemnify such person for: (i) willful misconduct or a knowing violation of the law; (ii) any transaction for which such person received an improper personal benefit in violation or breach of any provision of the Operating Partnership agreement; or (iii) in the case of a criminal proceeding, the person had reasonable cause to believe the act or omission was unlawful.

The provisions of Delaware law that allow the common law fiduciary duties of a general partner to be modified by an operating partnership agreement have not been resolved in a court of law, and we have not obtained an opinion of counsel covering the provisions set forth in the Operating Partnership agreement that purport to waive or restrict our fiduciary duties that would be in effect under common law were it not for the Operating Partnership agreement.

Our charter and bylaws do not restrict any of our directors, executive officers, stockholders or affiliates from having a pecuniary interest in an investment or transaction that we have an interest in or from conducting, for their own account, business activities of the type we conduct. We have, however, adopted certain policies designed to eliminate or minimize certain potential conflicts of interest. Specifically, we adopted a code of business conduct and ethics that prohibits conflicts of interest between our executive officers, employees and directors on the one hand, and our company on the other hand, except in compliance with the policy. Our code of business conduct and ethics states that a conflict of interest exists when a person's private interest interferes with our interest. For example, a conflict of interest will arise when any of our employees, executive officers or directors or any immediate family member of such employee, executive officer or director receives improper personal benefits as a result of his or her position with us. Our code of business conduct and ethics also limits our employees, executive officers and directors from engaging in any activity that is competitive with the business activities and operations of our company, except as disclosed by us from time to time in our public filings. In addition, our code of business conduct and ethics also restricts the ability of our employees, executive officers and directors to participate in a joint venture, partnership or other business arrangement with us, except in compliance with the policy. Waivers of our code of business conduct and ethics will be required to be disclosed in accordance

with New York Stock Exchange ("NYSE") and Securities and Exchange Commission ("SEC") requirements. In addition, we have adopted corporate governance guidelines to assist our board of directors in the exercise of its responsibilities and to serve our interests and those of our stockholders. However, we cannot assure you these policies or provisions of law will always succeed in eliminating the influence of such conflicts. If they are not successful, decisions could be made that might fail to reflect the best interest of all stockholders.

Competition

We compete with numerous commercial developers, real estate companies (including other REITs), financial institutions (such as banks and insurance companies) and other investors (such as pension funds, investment funds, private companies and individuals) for investment opportunities and tenants. This competition may result in higher costs for properties, lower returns and impact our ability to grow. Some of these competitors have greater financial and other resources and access to more attractive capital than we do. However, due to our focus on Ground Leases located throughout the U.S., and because some of our competitors are locally and/or regionally focused, we do not always encounter the same competitors in each market.

Regulation

General

Our properties are subject to various laws, ordinances and regulations. We believe that we are in compliance in all material respects with the necessary permits and approvals to conduct our business.

Environmental Matters

Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, as an owner of real property, we may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under the properties we own as well as certain other potential costs relating to hazardous or toxic substances. These liabilities may include government fines and penalties and damages for injuries to persons and adjacent property. These laws may impose liability without regard to whether we knew of, or were responsible for, the presence or disposal of those substances. This liability may be imposed on us in connection with the activities of an operator of, or tenant at, the property. The cost of any required remediation, removal, fines or personal or property damages, and our liability therefor, could be significant and could exceed the value of the property and/have a material adverse effect on us. In addition, the presence of those substances, or the failure to properly dispose of or remove those substances, may adversely affect our ability to sell or rent the affected property or to borrow using such property as collateral, which, in turn, would reduce our revenues and ability to satisfy our debt service obligations and to make distributions to our stockholders.

A property can also be adversely affected either through physical contamination or by virtue of an adverse effect upon value attributable to the migration of hazardous or toxic substances, or other contaminants that have or may have emanated from other properties.

Although our tenants are primarily responsible for any environmental damages and claims related to the leased properties, a tenant's bankruptcy or inability to satisfy its obligations for these types of damages or claims could require us to satisfy such liabilities. In addition, we may be held directly liable for any such damages or claims irrespective of the provisions of any lease.

From time to time, in connection with the conduct of our business, we authorize the preparation of environmental reports with respect to our properties. There can be no assurance that these environmental reports will reveal all environmental conditions at the properties in which we have an interest or that the following will not expose us to material liability in the future:

- the discovery of previously unknown environmental conditions;
- changes in law;
- activities of prior owners or tenants;
- activities of current tenants; or
- activities relating to properties in the vicinity of our properties.

Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of the tenants of our properties, which could materially and adversely affect us.

Emerging Growth Company Status

We are an "emerging growth company," as defined in the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other publicly-traded companies that are not "emerging growth companies," including not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"). We have elected to utilize the exemption for auditor attestation requirements.

In addition, the JOBS Act provides that an "emerging growth company" can take advantage of the extended transition period provided in the Securities Act, for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. However, we have chosen to "opt out" of this extended transition period, and, as a result, we will comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for all public companies that are not emerging growth companies. Our decision to opt out of the extended transition period for complying with new or revised accounting standards is irrevocable.

We will remain an "emerging growth company" until the earliest to occur of: (i) the last day of the fiscal year during which our total annual revenue equals or exceeds \$1.07 billion (subject to adjustment for inflation); (ii) the last day of the fiscal year following the fifth anniversary of our initial public offering; (iii) the date on which we have, during the previous three-year period, issued more than \$1.0 billion in non-convertible debt; or (iv) the date on which we are deemed to be a "large accelerated filer" under the Exchange Act.

Code of Conduct

The Company has adopted a code of conduct that sets forth the principles of conduct and ethics to be followed by our directors, officers, Manager and employees of our Manager who perform services for us (the "Code of Conduct"). The purpose of the Code of Conduct is to promote honest and ethical conduct, compliance with applicable governmental rules and regulations, full, fair, accurate, timely and understandable disclosure in periodic reports, prompt internal reporting of violations of the Code of Conduct and a culture of honesty and accountability. A copy of the Code of Conduct has been provided to each of our directors, officers, the Manager and relevant employees, who are required to acknowledge that they have received and will comply with the Code of Conduct. A copy of the Company's Code of Conduct has been previously filed with the SEC and is incorporated by reference in this Annual Report on Form 10-K as Exhibit 14.1. The Code of Conduct is also available on the Company's website at www.safetyincomegrowth.com. The Company will disclose to shareholders material changes to its Code of Conduct, or any waivers for directors or executive officers, if any, within four business days of any such event. As of December 31, 2018, there have been no amendments to the Code of Conduct and the Company has not granted any waivers from any provision of the Code of Conduct to any directors or executive officers.

Employees

We have no employees, as our Manager provides all services to us.

Additional Information

We maintain a website at www.safetyincomegrowth.com. The information on our website is not incorporated by reference in this report, and our web address is included only as an inactive textual reference. In addition to this Annual Report on Form 10-K, we file quarterly and special reports, proxy statements and other information with the SEC. Through our corporate website, www.safetyincomegrowth.com, we make available free of charge our annual proxy statement, annual reports to stockholders, annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. These documents also may be accessed through the SEC's electronic data gathering, analysis and retrieval system via electronic means, including on the SEC's homepage, which can be found at www.sec.gov.

Item 1a. Risk Factors

In addition to the other information in this report, you should consider carefully the following risk factors in evaluating an investment in the Company's securities. Any of these risks or the occurrence of any one or more of the uncertainties described below could have a material adverse effect on the Company's business, financial condition, results of operations, cash flows and market price of the Company's common stock. The risks set forth below speak only as of the date of this report and the Company disclaims any duty to update them except as required by law. For purposes of these risk factors, the terms "our Company," "we," "our" and "us" refer to Safety, Income & Growth Inc. and its consolidated subsidiaries, unless the context indicates otherwise.

Risks Related to Our Portfolio and Our Business

Our expectations as to the potential size of the market for Ground Lease transactions and the availability of investment opportunities may prove to be incorrect.

We believe we are the first public company that invests primarily in Ground Lease assets and the achievement of our investment objectives depends, in part, on our ability to grow our portfolio. We cannot assure you that the size of the market for Ground Leases will meet our estimates. Potential tenants may prefer to own the land underlying the improvements they intend to develop, rehabilitate or own. In addition, as and when interest rates increase, there may be less activity generally in real estate transactions, including leasing, development and financing, and less financing available for potential tenants to finance their leasehold interests.

If potential tenants are unable to secure financing for their leasehold interests, their appetite for Ground Leases may diminish, which could materially and adversely affect our growth prospects. In addition, if our current tenants are unable to secure financing to continue to operate their businesses and pay us rent, we could be materially and adversely affected.

A potential tenant's interest in entering into a Ground Lease transaction as opposed to alternative financing, such as mortgage financing, will depend in part on such tenant's ability to secure financing for a leasehold interest on attractive terms. If leasehold financing is not available on terms that are at least as favorable as available mortgage financing, we expect that potential tenants will be less likely to pursue Ground Lease transactions with us, which may materially adversely affect the market for our leases and our ability to grow and meet our investment objectives.

Additionally, many of our tenants rely on external sources of financing to operate their businesses. The U.S. may experience significant liquidity disruptions, resulting in the unavailability of financing for many businesses. If our current tenants are unable to secure financing necessary to continue to operate their businesses, they may be unable to meet their rent obligations to us or be forced to declare bankruptcy and reject their leases.

Unfavorable market and economic conditions in the U.S. and globally, in the specific markets or submarkets where our properties are located or in the markets and industries in which our tenants conduct business could materially and adversely affect the market value of our properties, the financial performance of our tenants, the availability of attractive investment and financing opportunities, the demand for Ground Leases and our ability to sell, recapitalize or refinance our properties.

Unfavorable market and economic conditions in the U.S. and globally, especially in the markets or submarkets where our properties are located or in the markets and industries in which our tenants conduct business, may significantly affect the market value of our properties, the financial performance of our tenants, the availability of attractive investment and financing opportunities, the demand for Ground Leases and our ability to strategically dispose, recapitalize or refinance our properties on economically favorable terms or at all. Our ability to originate Ground Lease transactions, lease our properties on favorable terms, obtain financing and re-let leasehold improvements after Ground Lease expirations or earlier terminations is dependent upon overall economic conditions, which are adversely affected by, among other things, job losses and unemployment levels, recession, market volatility and uncertainty about the future. We expect that any declines in our lease-related revenues would cause us to have less cash available to meet our operating requirements, including debt service, and to make distributions to our stockholders. Our business may be affected by the volatility and illiquidity in the financial and credit markets, a general global economic recession and other market or economic challenges experienced by the real estate industry or the U.S. economy as a whole. Factors that may affect our lease-related revenues, the Underlying Property NOI related to our properties and/or the market value of our properties include the following, among others:

- downturns in global, national, regional and local economic conditions;
- declines in the financial position or liquidity of our tenants due to bankruptcy, competition, operational failures or other reasons, which may result in tenant defaults under our Ground Leases;
- the inability or unwillingness of potential tenants to enter into Ground Leases; and
- changes in the values of our leases.

Our operating performance and the market value of our properties are subject to risks associated with real estate assets and the real estate industry, which could materially and adversely affect us.

Real estate investments are subject to various risks and fluctuations and cycles in value and demand, many of which are beyond our control. Certain events may adversely affect our operating results and decrease cash available for distributions to our stockholders, as well as the market value of our properties. These events include, but are not limited to:

- adverse changes in international, national, regional or local economic and demographic conditions;

- vacancies or our inability to enter into Ground Lease transactions or re-let a property on favorable terms, including possible market pressures to offer tenants various incentives to sign or renew their leases;
- increases in market rental rates that we are unable to capture because our leases are long-term and any rent escalations under our leases may often be fixed;
- increases in inflation that exceed any rent adjustment clauses;
- adverse changes in the financial position or liquidity of tenants and buyers of properties;
- decreases in market rental rates at the end of our leases;
- our inability to collect rent from tenants;
- competition from other real estate investors with significant capital, including real estate operating companies, other publicly traded REITs, institutional investment funds, banks, insurance companies and individuals;
- fluctuations in interest rates, which could adversely affect our ability, or the ability of buyers and lessees of our land, to obtain financing on favorable terms or at all;
- civil disturbances, hurricanes and other natural disasters, or terrorist acts or acts of war, which may result in uninsured or underinsured losses; and
- changes in, and changes in enforcement of, laws, regulations and governmental policies, including, without limitation, health, safety, environmental, zoning and tax laws and governmental fiscal policies.

In addition, periods of economic slowdown or recession, rising interest rates or declining demand for real estate, or the public perception that any of these events may occur, could result in a general decline in attractive investment opportunities or an increased incidence of defaults under our existing leases. As a result of the foregoing, there can be no assurance that we can achieve our investment objectives.

The rental payments under our leases may not keep up with changes in market value and inflation.

The master lease relating to the Doubletree Seattle Airport, Hilton Salt Lake, Doubletree Mission Valley, Doubletree Sonoma and Doubletree Durango and the leases relating to Dallas Market Center: Marriott Courtyard and Hyatt Centric provide for percentage rent participations in operating revenues from the hotels located on the properties. In addition, the leases at most of our other properties provide for rental payments that are CPI-Linked or fixed with future CPI adjustments (see Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Our Portfolio). These percentage rent participations and CPI adjustments may not keep up fully with changes in inflation. They may also not keep up with increases in lease payments at a fair market value. As a result, we may not capture the full value of the land underlying our leases. Future leases that we enter into may contain similar or other limitations on rent increases, which may limit the appreciation in value of our land and our net asset value.

Multi-tenanted leasehold improvements expose us to additional risks.

Land that is ground leased to a tenant that will operate a multi-tenant building will involve risks not typically encountered in properties that are ground leased to, and occupied by, a single tenant. Leasing land to operators of multi-tenant properties could expose us to the risk that a sufficient number of suitable tenants may not be found by our Ground Lease tenant to enable the property to operate profitably enough to pay rent under our Ground Lease. The risk may be compounded by the failure of multiple tenants of the leasehold improvements to satisfy their obligations to our Ground Lease tenant due to various factors. Multi-tenant properties are also subject to tenant turnover and fluctuation in occupancy rates, which could affect our Ground Lease tenant's ability to pay rent to us, and may lower our percentage rents, if any.

Some of our tenants do not operate their properties and rely on revenues from subtenants to cover operating expenses, ground rent, taxes, debt service and other costs associated with the property.

Some of our tenants do not operate their properties and instead enter into subleases with subtenants on the expectation that such subleases will generate sufficient income to cover the tenant's operating expenses, ground rent, taxes on the property, leasehold mortgage debt service and other costs associated with the leasehold improvements. If the tenant is not able to enter into such subleases, or such subleases are not able to generate sufficient revenue, the tenant may not be able to pay rent to us or may pay less rent to us as a result of any percentage rent participations.

The ground rent we charge our tenants may exceed the rents our tenants collect from their subtenants.

The ground rent we charge typically increases periodically or participates in revenues from the operations of our tenants at the properties. However, the rents our tenants charge their subtenants may not increase at the same rate. As a result, the Ground

Rent Coverage of our leases may decline and in some cases our tenants may be unable to meet their rental obligations under our lease.

We are the tenant of a Ground Lease underlying a majority of our Doubletree Seattle Airport property.

The sum of our cash base rental income in place for our Doubletree Seattle Airport property as of December 31, 2018 and total percentage cash rental income during the year ended December 31, 2018 for such property totaled an aggregate of \$5.7 million, or approximately 19.0% of the cash rental income of our entire portfolio. A majority of the land underlying our Doubletree Seattle Airport property is owned by a third party and is ground leased to us. We are obligated to pay the third-party owner of the Ground Lease \$0.4 million, subject to adjustment for changes in the CPI, per year through 2044; however, we pass this cost on to our tenant under the terms of our master lease.

As an owner primarily of land, our depreciation expenses are expected to be limited for financial and tax reporting purposes, with the result that we will be highly dependent on external capital sources to fund our growth.

As an owner of land, we expect to record limited depreciation expenses for either financial reporting or tax reporting purposes. As a result, we will not have significant depreciation expenses that will reduce our net taxable income and the payment ratio of our distributions to our cash available for distribution to our stockholders or other metrics is likely to be higher than at many other REITs. This also means that we will be highly dependent on external capital sources to fund our growth. If capital markets are experiencing disruption or are otherwise unfavorable, we may not have access to capital on attractive terms, or at all, which could prevent us from achieving our investment objectives.

Lease defaults, terminations or landlord-tenant disputes may reduce our revenue from our lease investments.

The creditworthiness of our tenants could be negatively impacted as a result of challenging economic conditions or otherwise, which could result in their inability to meet the terms of their leases with us. Lease defaults or terminations by one or more tenants may reduce our revenues unless a default is cured or a suitable replacement tenant is found promptly. In addition, disputes may arise between us and a tenant that result in the tenant withholding rent payments, possibly for an extended period. These disputes may lead to litigation or other legal procedures to secure payment of the rent withheld or possession of the building and improvements thereon. Upon a lease default, we may have limited or no recourse against a guarantor. Neither tenants nor any guarantors may have the ability to satisfy any judgments we may obtain in full or at all. We may also have duties to mitigate our losses and we may not be successful in that regard. Any of these situations may result in extended periods during which there is a significant decline in revenues or no revenues generated by a property.

Counterparty concentration may expose us to financial credit risk.

Concentrations of credit risks arise when we derive a significant percentage of our revenues from a particular tenant or credit party, or a number of our tenants are engaged in similar business activities, or activities in the same geographic region, or have similar economic features, such that their ability to meet their contractual obligations, including those to us under our leases, could be similarly affected by changes in economic conditions. For the year ended December 31, 2018, the tenant under our master lease relating to five hotels accounted for approximately \$13.2 million, or 26.5%, of our total revenues, and our tenant who leases the land on which the One Ally Center in Detroit, Michigan is located accounted for approximately \$5.3 million, or 10.7%, of our total revenues. To the extent we have a significant concentration of ground and other lease income from any tenant, credit party, business or geography, we could be materially and adversely affected.

Hotel industry concentration exposes us to the financial risks of a downturn in the hotel industry generally, and the hotel operations at our specific properties.

Some of our tenants operate hotels at the leased properties. For the year ended December 31, 2018, 28.0% of our total revenues came from hotel properties. The master lease relating to the Doubletree Seattle Airport, Hilton Salt Lake, Doubletree Mission Valley, Doubletree Sonoma and Doubletree Durango and the leases relating to Dallas Market Center: Marriott Courtyard and Hyatt Centric provide for percentage rent participations in operating revenues at the hotels located on the properties. Although these leases also provide for a fixed rent or a minimum rent (in addition to our right to receive percentage rent), declines in the operating revenues of these hotels, or a decline in the hotel industry generally, could materially reduce the percentage rent that we receive. The performance of the hotel industry has historically been closely linked to the performance of the general economy and, specifically, growth in U.S. gross domestic product. It is also sensitive to business and personal discretionary spending levels. Declines in corporate budgets and consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence or terrorist activity can lower the revenues and profitability of our tenants participating in the hotel industry. As a result of our current concentration, we are particularly susceptible to adverse developments in the hotel industry.

Percentage rent payable under our master lease relating to the Park Hotels Portfolio is calculated on an aggregate portfolio-wide basis.

Our master lease relating to the five assets constituting the Park Hotels Portfolio obligates the tenant to pay us percentage rent equal to 7.5% of the positive difference between the aggregate annual operating revenues of the five hotels in the Park Hotels Portfolio for any year and the aggregate base revenues of the five hotels specified in the master lease of approximately \$81.4 million. Accordingly, to the extent the aggregate operating revenues of the five hotels for any year do not exceed \$81.4 million we will not be entitled to any percentage rent from any of those hotels. As a result, a deterioration in the operating performance at any of the hotels in the Park Hotels Portfolio would adversely affect our ability to earn percentage rent under any of the remaining hotels in the Park Hotels Portfolio, and it is possible that poor operating performance at one or more hotels in the Park Hotels Portfolio could reduce or eliminate percentage rent for any annual period notwithstanding stable or improving operating performance at other hotels included in the Park Hotels Portfolio.

We are subject to the risk of bankruptcy of our tenants.

The bankruptcy or insolvency of a tenant may materially and adversely affect the income produced by our properties or could force us to "take back" a property as a result of a default or a rejection of the lease by a tenant in bankruptcy, any of which could materially and adversely affect us. If any tenant becomes a debtor in a case under federal bankruptcy law, we cannot evict the tenant and assume ownership of the building and improvements thereon solely because of the bankruptcy if the tenant continues to comply with the terms of our lease. In addition, the bankruptcy court might permit the tenant to reject and terminate its lease with us. Our claim against the tenant for unpaid and future rent would be subject to a statutory cap that might be substantially less than the rent actually owed to us under the lease. Our claim for unpaid rent will be a general unsecured claim that would likely not be paid in full. We may also be unable to re-lease a terminated or rejected space or re-lease it on comparable or more favorable terms.

It is also possible that, if a tenant were to become subject to bankruptcy proceedings, a bankruptcy court could re-characterize the lease transactions as secured lending transactions depending on its interpretation of the terms of the lease, including, among other factors, the length of the lease relative to the useful life of the leased property. If a lease were judicially recharacterized as a secured lending transaction, we would not be treated as the owner of the property subject to the lease and could lose the legal as well as economic attributes of the owners of the property, which could have a material adverse effect on us.

In addition, one of our current leases is a multiple property master lease, and we may acquire additional master leases in the future. Bankruptcy laws afford certain protections to a tenant that may also affect the master lease structure. Subject to certain restrictions, a tenant under a master lease generally is required to assume or reject the master lease as a whole, rather than making the decision on a property-by-property basis. This prevents the tenant from assuming only the better performing properties and terminating the master lease with respect to the poorer performing properties. If these tenants are considering filing for bankruptcy protection, we may find it necessary to agree to amend their master leases to remove certain underperforming properties rather than risk the tenant rejecting the entire master lease in bankruptcy. Whether or not a bankruptcy court will require a master lease to be assumed or rejected as a whole depends upon a "facts and circumstances" analysis. A bankruptcy court will consider a number of factors, including the parties' intent, the nature and purpose of the relevant documents, whether there was separate and distinct consideration for each property included in the master lease, the provisions contained in the relevant documents and applicable state law. If a bankruptcy court allows a master lease to be rejected in part, certain underperforming leases related to properties we own could be rejected by the tenant in bankruptcy, thereby adversely affecting payments derived from the properties. As a result, the bankruptcy of a tenant subject to a master lease could materially and adversely affect us.

Our future Ground Leases may be subject to subordination clauses.

The lender of a leasehold financing may request a first security position against the land and buildings from the tenant. Although our existing Ground Leases do not require us to agree to subordinate our interest in the land to any leasehold financings, there can be no assurance that we will not agree to do so in the future. If we agree to subordinate our interest in the Ground Lease to the lender's interest, and if the tenant goes into default under the loan documents, we risk losing the land in addition to any rights to the building and improvements thereon.

We may be unable to renew Ground Leases or re-lease the land on favorable terms or at all at the end of our Ground Leases.

Above-market lease rates at some of the properties in our portfolio at the time of any Ground Lease renewal or re-lease may force us to renew some expiring leases or re-lease properties at lower rates. We cannot assure you existing tenants will exercise any extension options or that our expiring leases will be renewed or that our properties will be re-leased at lease rates equal to or above their then weighted average lease rates.

The tenant under our Ground Lease relating to the One Ally Center property has the right to demolish the building before the expiration of the lease.

Prior to the expiration of the Ground Lease relating to the One Ally Center property, the tenant has the right to demolish the building and improvements on the property, although it cannot do so during the last five years of the lease without our prior consent. Rent under our Ground Lease must continue to be paid through the end of the lease, even if the tenant demolishes the building and any improvements on the property. If the tenant elects to demolish the building and any improvements on the property, it will be more difficult for us to re-let the property, taking more time for us to find a replacement tenant willing to develop the property. Accordingly, no assurance can be given as to the commencement date of any future lease or the attractiveness of the future lease terms.

Our master lease relating to five hotel properties and our Ground Lease relating to the Lock Up Self Storage Facility provide the tenants with the right to purchase our hotel properties or land, as the case may be, in certain circumstances.

Our master lease gives the tenant the right to purchase one or more of the hotels at fair market value if the hotel suffers a major casualty or condemnation event, as defined under the master lease. The Lock Up Self Storage Facility lease gives the tenant the right to purchase our interest in the underlying land at fair market value as of the expiration of the lease in 2037. Additionally, we may enter into leases in the future that provide the tenants with purchase options. If a tenant exercises a purchase option, we would lose the right to future lease payments from the property. Furthermore, the purchase price we are entitled to receive may be less than the price we paid for the related property and we may not be able to reinvest the purchase price we receive in comparable investments that produce similar or better returns.

The tenants under the Ground Leases relating to the One Ally Center, 3333 LifeHope, Northside Forsyth Hospital Medical Center, NASA/JPSS Headquarters and The Buckler Apartments properties have certain preemptive rights should we decide to sell the properties.

Each of the One Ally Center, 3333 LifeHope and Northside Forsyth Hospital Medical Center leases gives the tenant a right of first refusal to purchase the property before we can sell the property to a third party. Each of the NASA/JPSS Headquarters and The Buckler Apartments leases gives the tenant a right of first offer to purchase the property, i.e., we must first offer the property to the tenant before soliciting offers for the sale of the property to any other person. The existence of such preemptive rights could limit third-party offers for the property, inhibit our ability to sell a property or adversely affect the timing of any sale of any such property and affect our ability to obtain the highest price possible in the event that we decide to market or sell the property.

We typically agree to grant certain mortgagee protections to a permitted leasehold mortgagee, and there can be no assurance that we will not be materially and adversely affected by the exercise of such protections.

We typically permit tenants to obtain mortgage financing secured by their leasehold interest, and in connection with that financing, we permit the tenant to assign the lease and the tenant's rights under the lease to the mortgagee as collateral. We also typically agree to grant certain mortgagee protections to a permitted leasehold mortgagee, including, without limitation, the right to receive notices and cure tenant defaults under the lease, the right to require us to enter into a new lease with a successor tenant on the same terms as the existing lease and the right to consent to certain actions. We may grant a leasehold mortgagee more time to cure certain non-monetary defaults than would be afforded to the tenant under the lease. We may also agree to defer certain remedies while the leasehold mortgagee is endeavoring to cure a default, such as terminating or giving notice of termination of the lease and bringing a proceeding and dispossessing the tenant or subtenants. In addition, some leasehold mortgage lenders may insist, should a casualty, loss or condemnation occur, upon using insurance proceeds to reduce the tenant's debt to it rather than restoring or repairing the casualty, loss or condemnation, although the tenant would likely not be able to generate sufficient revenues from the resulting property to pay ground rent to us. As of December 31, 2018, many of the tenants at our properties had leasehold mortgage financing in place. There can be no assurance that we will not be materially and adversely affected by a leasehold mortgagee's exercise of such mortgagee protections.

Our tenants generally do not have credit ratings.

Our tenants generally do not have credit ratings. To the extent a tenant has a credit rating, such rating is subject to ongoing evaluation by the rating agency assigning the rating, and we cannot assure you that such rating will not be lowered, reduced or withdrawn by the rating agency in the future if, in its judgment, circumstances warrant. If a rating agency assigns a lower than expected rating or reduces or withdraws, or indicates that it may reduce or withdraw, the credit rating of a tenant, the value of our investment in any properties leased to such tenant could significantly decline.

We rely on Underlying Property NOI as reported to us by our tenants.

We rely on Underlying Property NOI as reported to us by our tenants, or as otherwise publicly available, to, among other things, calculate Ground Rent Coverage and evaluate the security of the rent owed to us pursuant to a Ground Lease and the safety

of our investment in a Ground Lease. We seek to invest in Ground Leases that we believe will generate secure rental payments, with Ground Rent Coverage of 2.0x to 5.0x for the initial year of the lease. Similarly, we seek safety in our Ground Lease investments by typically limiting our investment in a Ground Lease to 30% to 45% of our estimate of the Combined Property Value as of the commencement of the lease or as of our acquisition of the Ground Lease. In evaluating Ground Rent Coverages and estimating Combined Property Values, we rely, to a significant degree, on Underlying Property NOI as reported to us by our tenants, or as otherwise publicly available, without independent investigation or verification on our part. Our tenants do not, nor do we expect that future tenants will, provide us with full financial statements prepared in accordance with GAAP, and the financial information provided to us by our tenants has not been, nor do we expect that future information will be, audited or reviewed by an independent registered public accounting firm. Our leases generally do not specify the detail upon which such financial information must be prepared. Our leases also generally do not require our approval for rent concessions or abatements given by our tenants to their subtenants, nor do our leases generally require our tenants to advise us of such concessions or abatements. Additionally, we do not independently investigate or verify the information supplied to us by our tenants, or that is otherwise publicly available, but rather assume the accuracy and completeness of such information and the appropriateness of the accounting methodology or principles, assumptions, estimates and judgments made by our tenants in preparing the information provided to us, or that is otherwise publicly available. Accordingly, no assurance can be given that the information provided to us by our tenants, or that is otherwise publicly available, is accurate or complete, which could materially and adversely affect our underwriting decisions. Tenants may also restrict our ability to disclose publicly their Underlying Property NOI. For example, we are prohibited from publicly disclosing the Underlying Property NOI at One Ally Center pursuant to a confidentiality agreement with the tenant. In addition, with respect to properties under development or renovation, the foregoing weighted average reflects our estimated annual rent coverage at the expected stabilization or completion of renovation at the applicable property. There can be no assurance our estimates will prove to be correct.

There can be no assurance that we will realize any incremental value from the "value bank" or that the market price of our common stock will reflect any value attributable thereto.

At the end of a Ground Lease, we regain possession of the land, pursuant to the typical terms of a Ground Lease, and generally take title to the building and any improvements thereon, without the payment of any additional consideration by us. Since we target Ground Leases where the initial cost of the Ground Lease represents between 30% and 45% of the Combined Property Value, we regard the difference between the initial Ground Lease value and the Combined Property Value as a value bank of incremental value that we may realize at the end of the lease through a releasing or sale transaction, or perhaps by operating the property directly. To the extent we choose to operate a property directly after the expiration or other termination of a Ground Lease, we will be subject to additional risks associated with leasing commercial real estate, including responsibility for property operating costs, such as taxes, insurance and maintenance, that previously were paid for by our tenant pursuant the Ground Lease. Additionally, the value bank may grow during the term of the Ground Lease in an amount equal to any appreciation in the Combined Property Value. Though we estimate Combined Property Value using one or more valuation methodologies that we consider appropriate, there can be no assurance that this estimate or the amount of any value bank is accurate at the time we invest in a Ground Lease. Even if we estimate that a value bank exists initially, we will generally not be able to realize that value through a near term transaction, as the property is leased to a tenant pursuant to a long-term lease. While the value of commercial real estate as a broad class has generally increased over extended periods of time and is believed by some to exhibit a positive correlation with rates of inflation, the value of a particular commercial real estate asset is primarily a function of its location, overall quality and the terms of relevant leases. Since our leases are typically long-term (base terms ranging from 30 to 99 years), it is possible that the value bank will increase in value, but over long periods of time. However, the Combined Property Value of a particular property at the end of a Ground Lease will be highly dependent on its unique attributes and there can be no assurance that it will exceed the amount of our initial investment in the Ground Lease. Moreover, no assurance can be given that the market price of our common stock will include any value attributable to the value bank. In addition, our ability to recognize value through reversion rights may be limited by the rights of our tenants under some of our Ground Leases, including tenant rights to purchase the properties under certain circumstances and the right of the One Ally Center tenant to demolish the improvements prior to the expiration of the Ground Lease. See "—The tenant under our Ground Lease relating to the One Ally Center property has the right to demolish the building before the expiration of the lease," "—Our master lease relating to five hotel properties and our Ground Lease relating to the Lock Up Self Storage Facility provide the tenants with the right to purchase our hotel properties or land, as the case may be, in certain circumstances" and "—The tenants under the Ground Leases relating to the One Ally Center, 3333 LifeHope, Northside Forsyth Hospital Medical Center, NASA/JPSS Headquarters and The Buckler Apartments properties have certain preemptive rights should we decide to sell the properties." Moreover, the market price of our common stock may not reflect any value ascribed to the value bank, as it is difficult and highly speculative to estimate the value of a commercial real estate portfolio that may be realized at a distant point in time.

We use our estimates of Combined Property Value when underwriting investments and monitoring our portfolio, which are based on various assumptions and information supplied to us by our tenants; accordingly, such estimated values may not be indicative of actual values.

We intend to target investments in Ground Leases in which the initial cost of our Ground Lease represents between 30% and 45% of the Combined Property Value. When underwriting a potential investment and monitoring our portfolio, our estimate of Combined Property Value is based on expected lease terms, information supplied to us by our prospective tenant or tenant and numerous assumptions made by us. We do not independently investigate or verify the information provided to us by our tenants and no assurance can be given that the information is accurate. See "—We rely on Underlying Property NOI as reported to us by our tenants." The use of different information or assumptions could result in valuations that are materially lower than those used in our underwriting and portfolio monitoring processes.

Our estimates of Combined Property Values represent our opinion and may not accurately reflect the current market value of the properties relating to our Ground Leases. Such estimates are based on numerous estimates and assumptions and not on contractual sale terms or third-party appraisals and, therefore, are inherently uncertain, and no assurance can be given regarding the accuracy or appropriateness of such estimates and assumptions. The application of alternative estimates or assumptions could result in valuations, by us or others, that are materially lower than those used in our underwriting and portfolio monitoring processes.

Ground Leases with developers expose us to risks associated with property development and redevelopment that could materially and adversely affect us.

One of our business strategies is to enter into Ground Leases with developers looking to construct or rehabilitate a building. In Ground Lease transactions with developers, rent may not commence until construction is completed. Therefore, we will be subject to risks that the developer will be unable to complete the project and have it begin paying rent to us. Risks associated with development transactions include, without limitation: (i) the availability and pricing of financing for the developer on favorable terms or at all; (ii) the availability and timely receipt by the developer of zoning and other regulatory approvals; (iii) the potential for the fluctuation of occupancy rates and rents, which could affect any percentage rents that we may receive; (iv) development, repositioning and redevelopment costs may be higher than anticipated by the developer, which may cause the developer to abandon the project; and (v) cost overruns and untimely completion of construction (including due to risks beyond the developer's control, such as weather or labor conditions, or material shortages). In addition, if our tenant has obtained leasehold financing to complete construction, and the construction lender forecloses on the mortgage following a default, there is a risk that the mortgagee or a new tenant may not have necessary or sufficient development experience to complete the project or to do so to the same standards as the original developer. These risks could result in substantial unanticipated delays or expenses and could prevent the initiation or the completion of development, repositioning or redevelopment activities, any of which could materially and adversely affect us.

We may directly own one or more commercial properties before we are able to execute a Ground Lease transaction, which will expose us to the risks of ownership of operating properties and require us to bear the costs of owning and operating the properties.

Certain of our business and growth strategies involve creating Ground Leases from existing commercial properties by separating a property into an ownership interest in land that is ground leased to a tenant and an ownership interest in the buildings and improvements thereon that is retained by the original owner of the property or acquired by a third party. In pursuing such transactions, there may be instances where we take ownership of the commercial property for a period of time prior to the separation of the fee and leasehold interests. For example, if a proposed Ground Lease tenant fails to complete a Ground Lease transaction with us, we may nonetheless maintain or take ownership of the commercial property while we pursue an alternative transaction.

The ownership and operation of commercial properties will expose us to risks, including, without limitation,

- adverse changes in international, regional or local economic and demographic conditions;
- tenant vacancies and market pressures to offer tenant incentives to sign or renew leases;
- adverse changes in the financial position or liquidity of tenants;
- the inability to collect rent from tenants;
- tenant bankruptcies;
- higher costs resulting from capital expenditures and property operating expenses;
- civil disturbances, hurricanes and other natural disasters, or terrorist acts or acts of war, which may result in uninsured or underinsured losses;
- liabilities under environmental laws;

- risks of loss from casualty or condemnation; and
- changes in, and changes in enforcement of, laws, regulations and governmental policies, including, without limitation, health, safety, environmental, zoning and tax laws.

Upon taking ownership of a commercial property, we may be required to contribute ownership of the commercial property to a taxable REIT subsidiary ("TRS"), which would subsequently seek to sell a leasehold interest in such commercial property. Any gain from the sale of such leasehold interest would be subject to corporate income tax. See "—Tax Risks Related to Ownership of Our Shares—Our TRSs are subject to special rules that may result in increased taxes."

Loans that we make to Ground Lease owners will be subject to delinquency, foreclosure and loss, which could result in losses to us.

Certain of our business and growth strategies involve financing the acquisition of Ground Leases by third parties. The ability of a borrower to repay a loan secured by a Ground Lease typically is dependent primarily upon the successful operation of the commercial property by our borrower's tenant, rather than upon the existence of independent income or assets of our borrower. If the net operating income of such commercial property is reduced, and our borrower's tenant fails to pay the contractual rent to our borrower, our borrower's ability to repay our loan may be impaired.

Loan defaults by one or more borrowers may reduce our revenues unless the default is cured. If a default is not cured, we will bear a risk of loss of principal to the extent of any deficiency between the value of the Ground Lease loan collateral and the principal and accrued interest of the loan. Upon a lease default, we may have limited or no recourse against a guarantor. Neither the borrower nor any guarantors may have the ability to satisfy any judgments we may obtain in full or at all.

In the event of the bankruptcy of a Ground Lease loan borrower, the loan to that borrower will be deemed to be secured only to the extent of the value of the underlying collateral at the time of bankruptcy (as determined by the bankruptcy court), and the lien securing the loan will be subject to the avoidance powers of the bankruptcy trustee or debtor-in-possession to the extent the lien is unenforceable under state law if, for example, the bankruptcy trustee or debtor in possession determined that we did not properly perfect our lien. Foreclosure of a secured loan can be an expensive and lengthy process.

We may not be successful expanding into new markets.

We intend to explore acquisitions and originations of properties across the U.S. and, possibly, internationally. Each of the risks applicable to our ability to successfully acquire and integrate in our current markets is also applicable to our ability to successfully acquire and integrate properties in new markets. In addition to these risks, we will not possess the same level of familiarity with the dynamics and market conditions of any new markets that we may enter, which could adversely affect the results of our expansion into those markets, and we may be unable to build a significant market share or achieve a desired return on our investments in new markets. If we are unsuccessful in expanding into new markets, it could materially adversely affect our ability to grow and achieve our investment objectives.

Competition may adversely affect our ability to acquire and originate investments.

We compete with commercial developers, other REITs, real estate companies, financial institutions, such as banks and insurance companies, funds, and other investors, such as pension funds, private companies and individuals, for investment opportunities. Our competitors include both competitors seeking to originate or acquire Ground Lease transactions or acquire properties in their entirety and competitors offering debt financing as an alternative to a Ground Lease. Some of our competitors have greater financial and other resources and access to capital than we do. Due to our focus on Ground Leases throughout the U.S., and because most competitors are often locally and/or regionally focused, we do not always encounter the same competitors in each market.

We may be unable to identify and successfully complete acquisitions and originations and even if acquisitions and originations are identified and completed, the investments may not perform as expected.

One of our business strategies is to acquire and originate Ground Lease transactions and grow our portfolio. Our acquisition and origination activities and their success are subject to the following risks:

- we may be unable to acquire or originate a desired investment because of competition from other well capitalized real estate investors, including developers, other publicly traded REITs, institutional investment funds, banks, insurance companies and individuals, or because the seller of a property elects to obtain alternative capital rather than enter into a Ground Lease transaction with us;
- even if we enter into an agreement for a transaction, it is usually subject to customary conditions to closing, including completion of due diligence investigations to our satisfaction, which may not be satisfied;

- even if we are able to acquire or originate a desired Ground Lease transaction, competition from other real estate investors may significantly increase the investment price;
- we may be unable to finance investments on favorable terms or at all;
- we may incur significant expenses in pursuing both consummated transactions and potential investment opportunities;
- acquired and originated properties may become subject to environmental liabilities of which we were unaware at the time we acquired the property despite any environmental testing; and
- new investments may fail to perform as expected.

Any delay or failure on our part to identify, negotiate, finance and consummate such acquisitions and originations in a timely manner and on favorable terms could also impede our growth and ability to achieve our investment objectives.

Acquired and originated properties may expose us to unknown liabilities.

We may acquire properties subject to liabilities and without any recourse, or with only limited recourse, against the prior owners or other third parties with respect to unknown liabilities. As a result, if a liability were asserted against us based upon our current or prior ownership of those properties, we might have to pay substantial sums to settle or contest it. Unknown liabilities with respect to acquired properties might include:

- environmental liabilities, including for clean-up or remediation of environmental contamination;
- claims by tenants, vendors or other persons associated with the properties;
- liabilities incurred in the ordinary course of business or otherwise; and
- claims for indemnification by general partners, directors, officers and others entitled to indemnification.

As an owner of real property, we could become subject to liability for environmental contamination, regardless of whether we caused such contamination.

Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, as an owner of real property, we may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under the properties we own as well as certain other potential costs relating to hazardous or toxic substances. These liabilities may include government fines and penalties and damages for injuries to persons and adjacent property. These laws may impose liability without regard to whether we knew of, or were responsible for, the presence or disposal of those substances. This liability may be imposed on us in connection with the activities of an operator of, or tenant at, the property. The cost of any required remediation, removal, fines or personal or property damages, and our liability therefor, could be significant and could exceed the value of the property and have a material adverse effect on us. In addition, the presence of those substances, or the failure to properly dispose of or remove those substances, may adversely affect our ability to sell or rent the affected property or to borrow using such property as collateral, which, in turn, would reduce our revenues and ability to satisfy our debt service obligations and to make distributions to our stockholders.

A property can also be adversely affected either through physical contamination or by virtue of an adverse effect upon value attributable to the migration of hazardous or toxic substances, or other contaminants that have or may have emanated from other properties.

Although our tenants are primarily responsible for any environmental damages and claims related to the properties, a tenant's bankruptcy or inability to satisfy its obligations for these types of damages or claims could require us to satisfy such liabilities. In addition, we may be held directly liable for any such damages or claims irrespective of the provisions of any lease.

Our tenants may fail to maintain required insurance, and certain potential losses may not be fully covered by insurance.

Our leases generally require the tenant to maintain all insurance on the property, and the failure of the tenant to maintain the proper insurance could adversely impact our interest in a property in the event of a loss. Furthermore, there are certain types of losses, such as losses resulting from wars, terrorism or certain acts of God, that generally are not insured because they are either uninsurable or not economically insurable. Should an uninsured loss or a loss in excess of insured limits occur, we could lose capital invested in a Ground Lease as well as the anticipated future revenues from a Ground Lease, while remaining obligated for any indebtedness we may have incurred related to the Ground Lease. Any loss of these types could materially and adversely affect us.

We may become subject to litigation.

In the future, we may become subject to litigation, including claims relating to our investments, equity or debt financings and otherwise in the ordinary course of our business. Some of these claims may result in significant defense costs and potentially

significant judgments against us, some of which are not, or cannot be, insured against. We generally intend to defend ourselves vigorously; however, we cannot be certain of the ultimate outcomes of any claims that may arise in the future. Resolution of these types of matters against us may result in our having to pay significant fines, judgments, or settlements, which may be uninsured or exceed insured levels. Certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage.

We may acquire investments through tax deferred contribution transactions, which could result in stockholder dilution and limit our ability to sell such assets.

We may acquire investments in exchange for Operating Partnership units in tax deferred contribution transactions. Generally, these units will be redeemable, at the option of the holder, for cash equal to the market value of an equal number of shares of our common stock at the time of redemption or, at our election, exchangeable for shares of our common stock on a one-for-one basis. The issuance and subsequent redemption or exchange of such units may result in stockholder dilution. Additionally, this acquisition structure may require us to protect the contributors' ability to defer recognition of taxable gain by limiting our ability to dispose of the contributed properties and/or requiring us to maintain a minimum amount of nonrecourse partnership liabilities encumbering the contributed property. These restrictions could limit our ability to sell or refinance an asset at a time, or on terms, that would be favorable absent such restrictions.

Our business is highly dependent on information systems and communication systems; systems failures and other operational disruptions could significantly affect our business.

Our business is highly dependent on communication and information systems which may interfere with or depend on systems operated by third parties, including market counterparties, tenants and service providers. Any failure or interruption of these systems could cause delays or other problems in our activities, including in our investment activities.

Additionally, we rely heavily on financial, accounting and other data processing systems and operational risks arising from mistakes made in the closing of transactions, from transactions not being properly booked, evaluated or accounted for or other similar disruption in our operations may cause us to suffer financial loss, the disruption of our business, liability to third parties, regulatory intervention and reputational damage.

Cybersecurity risk and cyber incidents may adversely affect our business by causing a disruption to our operations, a compromise or corruption of our confidential information and/or damage to our business relationships.

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of our information resources. These incidents may be an intentional attack or unintentional event and could involve gaining unauthorized access to our or our Manager's information systems for purposes of misappropriating assets, stealing confidential information, corrupting data or causing operational disruption. The result of these incidents may include disrupted operations, misstated or unreliable financial data, liability for stolen assets or information, increased cybersecurity protection and insurance cost, litigation and damage to our business relationships. As reliance on technology has increased, so have the risks posed to both our and our Manager's information systems and those provided by third-party service providers. Our Manager has implemented processes, procedures and internal controls to help mitigate cybersecurity risks and cyber intrusions, but these measures, as well as our increased awareness of the nature and extent of a risk of a cyber incident, do not guarantee that we will not be materially and adversely affected by such an incident.

Changes in accounting rules, assumptions and/or judgments could materially and adversely affect us.

Accounting rules for certain aspects of our anticipated operations are highly complex and involve significant judgment and assumptions. These complexities could lead to a delay in the preparation of our financial statements and the public reporting of this information. Furthermore, changes in accounting rules or in our accounting assumptions and/or judgments, such as asset impairments, could materially and adversely affect us.

Changes to lease accounting rules could affect our financial reporting.

In February 2016, the FASB issued ASU 2016-02, Leases ("ASU 2016-02"), and in July 2018, the FASB issued ASU 2018-11, Leases ("ASU 2018-11"), to address two requirements of ASU 2016-02. ASU 2016-02 and ASU 2018-11 are effective for interim and annual reporting periods beginning after December 15, 2018. ASU 2016-02 requires the recognition of lease assets and lease liabilities by lessees for those leases classified as operating or finance leases. Adoption of ASU 2016-02 may result in the lessor and lessee under a long term lease of land to record the lease as a financing transaction. The lessor under a long-term lease of land will likely classify its land as a sales-type lease and record the land as a net investment in the lease. For the Company's Ground Leases which are sales-type leases, lease payments received by the Company will be recorded as interest income and amortization of the net investment in the lease. The amount recorded as interest income in any given period will likely be different than the straight-line ground lease income that would have been recorded under the superseded guidance. Management has decided to elect

the practical expedient package that allows the Company: (a) to not reassess whether any expired or existing contracts entered into prior to January 1, 2019 are or contain leases; (b) to not reassess the lease classification for any expired or existing leases entered into prior to January 1, 2019; and (c) to not reassess initial direct costs for any expired or existing leases entered into prior to January 1, 2019.

Lessees under operating and finance leases will be required to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its statement of financial position. Lessees under operating leases will be required to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, generally on a straight line basis, and classify all cash payments within operating activities in its statement of cash flows. Lessees under finance leases will be required to recognize interest expense on the lease liability (under the effective interest method) and amortization expense of the right-of-use asset (generally on a straight line basis), each reflected separately in the statement of operations.

ASU 2018-11 amends ASU 2016-02 so that: (a) entities may elect to not recast the comparative periods presented when transitioning to ASC 842 by allowing entities to change their initial application to the beginning of the period of adoption; and (b) provides lessors with a practical expedient to not separate non-lease components from the associated lease component of the contractual payments if certain conditions are met. Management has decided to elect both of these provisions.

Changes in our lease accounting will affect the comparability of our reported results with prior periods.

If there are deficiencies in our disclosure controls and procedures or internal control over financial reporting, we may be unable to accurately present our financial statements, which could materially and adversely affect us.

As a publicly-traded company, we are required to report our financial statements on a consolidated basis. Effective internal controls are necessary for us to accurately report our financial results. Section 404 of the Sarbanes-Oxley Act will require us to evaluate and report on our internal control over financial reporting. However, for as long as we are an "emerging growth company" under the JOBS Act, our independent registered public accounting firm will not be required to attest to the effectiveness of our internal control over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act. We could be an "emerging growth company" for up to five years. An independent assessment of the effectiveness of our internal controls could detect problems that our management's assessment might not. There can be no guarantee that our internal control over financial reporting will be effective in accomplishing all control objectives all of the time. Furthermore, as we grow our business, our internal controls will become more complex, and we may require significantly more resources to ensure our internal controls remain effective. Deficiencies, including any material weakness, in our internal control over financial reporting which may occur could result in misstatements of our results of operations that could require a restatement, failing to meet our public company reporting obligations and causing investors to lose confidence in our reported financial information, which could materially and adversely affect us.

Risks Related to Our Relationship with Our Manager

We do not have a policy that expressly prohibits our directors, executive officers, security holders or affiliates from engaging for their own account in business activities of the types conducted by us.

We do not have a policy that expressly prohibits our directors, executive officers, security holders or affiliates from engaging for their own account in business activities of the types conducted by us. However, our code of business conduct and ethics contains a conflicts of interest policy that prohibits our directors and executive officers, as well as personnel of our Manager or iStar who provide services to us, from engaging in any transaction that involves an actual conflict of interest with us without the approval of a majority of our independent directors. In addition, our management agreement with our Manager does not prevent our Manager and its affiliates from engaging in additional management or investment opportunities, some of which could compete with us.

Termination of the management agreement would be difficult and costly.

Termination of the management agreement without cause will be difficult and costly. In connection with the Recent iStar Investment Transaction (refer to Item 1. Business - Recent iStar Investment Transaction), we amended and restated the management agreement to, among other things, provide that until June 30, 2022, we may not terminate the agreement except for certain cause events. Thereafter, the agreement may be terminated upon the affirmative vote of at least two-thirds of our independent directors, based upon unsatisfactory long-term performance by our Manager that is materially detrimental to us and our subsidiaries taken as a whole. The agreement may also be terminated beginning with the seventh annual renewal term after the initial term upon a finding by at least two-thirds of our independent directors that the management fee payable to our Manager is not fair, subject to our Manager's right to prevent any termination due to unfair fees by accepting a reduction of the management fee agreed to by at least two-thirds of our independent directors. We must provide our Manager 180 days' written notice of any termination. Additionally, upon such a termination, or if we are in default of the management agreement and our Manager terminates the management agreement, the management agreement provides that we will pay our Manager a termination fee equal to three times the average annual management fee earned by our Manager during the last completed fiscal year immediately preceding the

effective date of termination if we have raised total equity of \$820 million (as defined in the management agreement) by the time of such termination. These provisions increase the cost to us of terminating the management agreement, adversely affect our ability to terminate the management agreement without cause and may inhibit change of control transactions that may be in the interests of our non-iStar stockholders.

Our Manager's liability is limited under the management agreement, and we have agreed to indemnify our Manager against certain liabilities. As a result, we could experience poor performance or losses for which our Manager would not be liable.

Pursuant to the management agreement, our Manager does not assume any responsibility other than to render the services called for thereunder and is not responsible for any action of our board of directors in following or declining to follow its advice or recommendations. Under the terms of the management agreement, our Manager, its officers, stockholders, members, managers, directors, personnel, any person or entity controlling or controlled by our Manager (including iStar) and any of their officers, stockholders, members, managers, directors, employees, consultants and personnel, and any person providing advisory services to our Manager are not liable to us, any subsidiary of ours, our directors, our stockholders or any subsidiary's stockholders or partners for acts or omissions performed in accordance with and pursuant to the management agreement, except because of acts constituting bad faith, willful misconduct, gross negligence, or reckless disregard of their duties under the management agreement. In addition, we have agreed to indemnify our Manager, its officers, stockholders, members, managers, directors, personnel, any person or entity controlling or controlled by our Manager and any of their officers, stockholders, members, managers, directors, employees, consultants and personnel, and any person providing advisory services to our Manager with respect to all expenses, losses, damages, liabilities, demands, charges and claims arising from acts of our Manager not constituting bad faith, willful misconduct, gross negligence, or reckless disregard of duties, performed in accordance with and pursuant to the management agreement.

Our Manager's failure to make investments on favorable terms that satisfy our investment strategy and otherwise generate attractive risk-adjusted returns would materially and adversely affect us.

Our ability to achieve our investment objectives depends on our ability to grow, which depends, in turn, on the management team of our Manager and its ability to identify and to make investments on favorable terms that meet our investment strategy as well as on our access to financing on acceptable terms. Our ability to grow is also dependent upon our Manager's ability to successfully hire, train, supervise and manage new personnel. We may not be able to manage growth effectively or to achieve growth at all.

Because we depend upon our Manager and, through our Manager, iStar to conduct our operations, any adverse events or developments affecting our Manager or iStar or any adverse changes in our relationship with our Manager could hinder our operating performance and ability to achieve our investment objectives.

We depend on our Manager to manage our assets and operations. Any adverse events or developments affecting our Manager or its parent, iStar, or any adverse changes in our relationship with our Manager, could hinder our operating performance and ability to achieve our investment objectives.

We depend on our Manager and our Manager's key personnel with long-standing business relationships. The loss of our Manager or our Manager's key personnel could threaten our ability to operate our business successfully.

Our future success depends, to a significant extent, upon the continued services of our Manager's management team. In particular, the Ground Lease experience of the management team and the extent and nature of the relationships they have developed within the real estate industry and with financial institutions are critically important to the success of our business. The loss of services of one or more members of our Manager's management team, whether as a result of their departure from iStar or iStar's unilateral decision to no longer make them available to our Manager, could threaten our ability to operate our business successfully. Additionally, the management agreement does not require our Manager to devote all of its resources or for its personnel to devote all of their business time to managing our affairs or for iStar to allocate any specific officers or employees to our Manager for our benefit, and we don't expect any of the officers or employees of our Manager or iStar to be dedicated exclusively to us. The ability of our Manager, iStar and their officers and employees to engage in other business activities may reduce the time our Manager spends managing us.

Transactions between iStar and us were negotiated between related parties and their terms may not be as favorable to us as if they had been negotiated with an unaffiliated third party.

Transactions between iStar and us, including our Formation Transactions, the Recent iStar Investment Transaction (refer to Item 1. Business - Recent iStar Investment Transaction), our management agreement (refer to Note 11 and Note 13) and certain other transactions (refer to Note 4) were negotiated between related parties and their terms may not be as favorable to us as if they had been negotiated with an unaffiliated third party. In addition, we may choose not to enforce, or to enforce less vigorously, our rights under agreements with iStar because of our desire to maintain our ongoing relationship with iStar and our Manager.

iStar has significant influence over us. Certain other investors may have influence through their significant ownership interests or their representation on our board of directors.

As of December 31, 2018, iStar serves (through a subsidiary) as our Manager pursuant to a management agreement, and owned approximately 41.8% of the outstanding shares of our common stock. On January 2, 2019, iStar acquired 12,500,000 Investor Units in our Operating Partnership, bringing iStar's fully diluted economic interest in us to approximately 65.5% (refer to Item 1. Business - Recent iStar Investment Transaction). In connection with the Recent iStar Investment Transaction, we entered into a Stockholder Agreement with iStar, pursuant to which iStar agreed to limit its aggregate voting power in us to 41.9% and iStar agreed to certain standstill provisions. We have agreed to seek stockholder approval to exchange iStar's Investor Units for shares of our common stock on a one-for-one basis. Assuming this exchange occurs, iStar will own approximately 65.5% of our outstanding common stock, but will continue to be subject to a voting power limitation of 41.9%. See "Item 1. Business - Recent iStar Investment Transaction" for further details. Two directors of iStar also serve on our board of directors, including Jay Sugarman, who is the chief executive officer of iStar and our chief executive officer.

Two institutional investors own approximately 15.7% of our outstanding common stock. In addition, one of the institutional investors designated one member of our board of directors.

As a result of the foregoing relationships, iStar and one institutional investor will collectively have significant influence over the outcome of voting matters presented to our stockholders, and, in addition, iStar and one institutional investor will have influence over our affairs through their representation on our board of directors.

There are various potential conflicts of interest in our relationship with iStar and its affiliates, including our Manager, and our executive officers and/or directors who are also officers and/or directors of iStar, which could result in decisions that are not in the best interest of our stockholders.

Conflicts of interest may exist or could arise in the future with iStar and its affiliates, including our Manager, our executive officers and/or directors who are also directors or officers of iStar, and any limited partner of our Operating Partnership. Conflicts may include, without limitation: conflicts arising from the enforcement of agreements between us and iStar or our Manager; conflicts in the amount of time that officers and employees of our Manager will spend on our affairs versus iStar's other affairs; conflicts in future transactions that we may pursue with iStar; and conflicts in pursuing transactions that could be structured as either a Ground Lease or as another type of transaction that is within iStar's investment focus. Transactions between iStar and us would be subject to the approval of a majority of our independent directors; however, there can be no assurance that such approval will be successful in achieving terms and conditions as favorable to us as would be available from a third party. Two directors of iStar also serve on our board of directors, including Jay Sugarman, who is the chief executive officer of iStar and our chief executive officer. Our Manager is a wholly-owned subsidiary of iStar. As a result of the foregoing relationships and iStar's significant ownership of our common stock and partnership interests, iStar has significant influence over us. Additionally, although we entered into an exclusivity agreement with iStar, the agreement contains exceptions to iStar's exclusivity for opportunities that include only an incidental interest in Ground Leases and opportunities to manufacture or otherwise create a Ground Lease from a property that has been owned by iStar's existing net lease venture for at least three years after our initial public offering. Accordingly, the exclusivity agreement will not prevent iStar from pursuing certain Ground Lease opportunities directly or through the aforementioned net lease venture.

Conflicts of interest may exist or could arise in the future with investors and us in connection with the enforcement of the stockholders and registration rights agreements between us and the investors, and with iStar's existing net lease joint venture and us in connection with future investment opportunities.

Our directors and executive officers have duties to our company under applicable Maryland law, and our executive officers and our directors who are also directors or officers of iStar also have duties to iStar under applicable Maryland law. Those duties may come in conflict from time to time. At the same time, we, as the general partner of our Operating Partnership, have fiduciary duties and obligations to our Operating Partnership and its other partners under Delaware law. Our Operating Partnership agreement provides that in the event of a conflict in the duties owed by our directors and executive officers to our company and the fiduciary duties owed by us, in our capacity as general partner of our Operating Partnership, to those limited partners, we will fulfill our fiduciary duties to those limited partners by acting in the best interests of our company.

We have adopted policies that are designed to reduce certain potential conflicts of interests. See "Item 1. Business - Policies with Respect to Certain Activities."

The manner of determining the management fee may not provide sufficient incentive to our Manager to maximize risk-adjusted returns on our investment portfolio since it is based on our total equity (as defined in the management agreement) and not on other measures of performance.

Our Manager is entitled to receive a management fee that is based on the amount of our total equity (as defined in the management agreement) at the end of each quarter, regardless of our performance. Our total equity for the purposes of calculating the management fee is not the same as, and could be greater than, the amount of total equity shown on our balance sheet. The possibility exists that significant management fees could be payable to our Manager for a given quarter despite the fact that we could experience a net loss during that quarter. Our Manager's entitlement to such significant nonperformance-based compensation may not provide sufficient incentive to our Manager to devote its time and effort to source and maximize risk-adjusted returns on our investment portfolio.

Our Manager manages our portfolio pursuant to our investment guidelines and our board of directors will not approve each investment decision made by our Manager, which may result in our Manager making riskier investments on our behalf than would be specifically approved by our board of directors.

Our Manager is required to manage our business affairs in conformity with the policies and the investment guidelines approved by our board of directors. While our directors periodically review our policies, investment guidelines and our investment portfolio, they do not review all of our proposed investments, which may result in our Manager making riskier investments on our behalf than would be specifically approved by our board of directors. In addition, in conducting periodic reviews, our directors may rely primarily on information provided to them by our Manager. Furthermore, our Manager may enter into complicated transactions that may be difficult or impossible to unwind by the time they are reviewed by our directors. Our Manager has great latitude within the broad investment guidelines in determining the types of assets it may decide are proper investments for us, which could result in investment returns that are substantially below expectations or that result in losses. Decisions made and investments entered into by our Manager may not fully reflect your best interests.

Our Manager may change its investment process, or elect not to follow it, without stockholder approval at any time, which may adversely affect our investments.

Our Manager may change its investment process without stockholder approval at any time. In addition, there can be no assurance that our Manager will follow the investment process in relation to the identification and underwriting of prospective investments. Changes in our Manager's investment process may result in inferior due diligence and underwriting standards, which may adversely affect our investments.

Financing and Investment Risks

Our debt obligations will reduce cash available for distribution to our stockholders and may expose us to the risk of default under those debt obligations and may include covenants that prohibit or otherwise restrict our ability to make distributions to our stockholders.

In March 2017, we entered into a \$227.0 million non-recourse secured financing transaction (the "2017 Secured Financing") that bears interest at a fixed rate of 3.795% and matures in April 2027. The 2017 Secured Financing was collateralized by seven Ground Leases and one master lease (covering the accounts of five properties). In June 2017, we entered into a recourse senior secured revolving credit facility with a group of lenders in the maximum aggregate initial original principal amount of up to \$300.0 million (the "2017 Revolver"). In July 2018, we added an additional lender to the 2017 Revolver bringing total capacity for the 2017 Revolver to \$350.0 million. The 2017 Revolver has a term of three years with two 12-month extension options exercisable by us, subject to certain conditions, and bears interest at an annual rate of applicable LIBOR plus 1.35%. An undrawn credit facility commitment fee ranges from 0.15% to 0.25%, based on utilization each quarter. We expect to use the 2017 Revolver and future borrowings of debt from other sources to, among other things, fund potential investments, general corporate uses and working capital. In December 2017, we entered into a \$71.0 million mortgage on 6200 Hollywood Boulevard and 6201 Hollywood Boulevard (the "2017 Hollywood Mortgage"). The 2017 Hollywood Mortgage bears interest at a rate of one-month LIBOR plus 1.33%, matures in January 2023 and is callable without prepayment penalty beginning in January 2021. In November 2018, we entered into a \$79.2 million non-recourse portfolio financing (the "2018 Portfolio Financing") for seven Ground Leases originated in 2018 that were previously financed by the 2017 Revolver. The 2018 Portfolio Financing bears interest at an initial rate of 3.94%, increasing by 2.0% every 12 months (3.94% in Year 1, 4.02% in Year 2, 4.10% in Year 3, etc.) and matures in December 2028.

Payments of principal and interest on borrowings may leave us with insufficient cash resources to fund investment activities or to make distributions currently contemplated or necessary for us to qualify or maintain our qualification as a REIT. If interest rates, and therefore, the costs of our debt rise faster and by greater amounts than any rent escalations and percentage rents under our leases, we may not generate sufficient cash to pay amounts due under our borrowings. Our level of debt, the costs of our debt relative to the cash flows from operations and the limitations imposed on us by our debt agreements could have significant adverse consequences, including, without limitation, the following:

- our cash flow may be insufficient to meet our required principal and interest payments;
- we may be unable to borrow additional funds as needed on favorable terms, or at all;
- we may be unable to refinance our indebtedness at maturity or the refinancing terms may be less favorable than the terms of our original indebtedness;
- increases in interest rates could materially increase our interest expense on outstanding variable debt or future fixed rate debt;
- we may be forced to dispose of one or more of our assets, possibly on disadvantageous terms;
- our 2017 Revolver will restrict our ability to pay distributions to our stockholders;
- certain defaults under our 2017 Secured Financing, such as a failure of a tenant to pay required taxes, may be triggered by the actions or omissions of our tenants who have substantial control over the activities conducted on the properties subject to our Ground Leases, which may be difficult for us to address in a timely manner to avoid such defaults becoming an event of default under the initial portfolio financing (refer to Note 6);
- we may default on our obligations or violate restrictive covenants, in which case the lenders or mortgagees may accelerate our debt obligations, repossess on the properties, if any, that secure their loans and/or take control of our properties, if any, that secure their loans and collect rents and other property income; and
- our default under debt agreements could result in a default or acceleration of other indebtedness with cross-default or cross acceleration provisions.

High interest rates and/or unavailability of debt financing for real estate transactions may make it difficult for us to finance or refinance investments, which could reduce the number of properties we can acquire or originate, our operating results, cash flows and the amount of cash distributions we can make to our stockholders.

If debt is unavailable at reasonable rates, we may not be able to finance the purchase or origination of Ground Lease investments. If debt is unavailable at rates lower than the capitalization rates on our investments, our operating results could be reduced. If we incur secured debt, we may be unable to refinance the investments when the debt becomes due, or to refinance the debt on favorable terms. If interest rates are higher when we refinance our investments, our operating results and cash flows could be reduced. This, in turn, could reduce cash available for distribution to our stockholders and may hinder our ability to raise more capital by issuing more stock or by borrowing more money.

Our degree of leverage and the lack of a limitation on the amount of indebtedness in our organizational documents we may incur could materially and adversely affect us.

Our organizational documents do not contain any limitation on the amount of indebtedness we may incur. A high ratio of debt-to-earnings or other metrics could be viewed negatively by investors. In addition, our degree of leverage could affect our ability to obtain additional financing for working capital, acquisitions, distributions or other general corporate purposes. Our degree of leverage could also make us more vulnerable to a downturn in business or the economy generally. If we become highly leveraged in the future, the resulting increase in debt service requirements could cause us to default on our obligations.

If we use interest rate derivatives and fail to hedge interest rates effectively, such failure could have a material and adverse effect on us.

Subject to our qualification as a REIT, we may seek to manage our exposure to interest rate volatility by using interest rate hedging arrangements that involve risk, such as the risk that counterparties may fail to honor their obligations under these arrangements, and that these arrangements may not be effective in reducing our exposure to interest rate changes. Moreover, there can be no assurance that our hedging arrangements will qualify for hedge accounting or that our hedging activities will have the desired beneficial impact on our results of operations and cash flows. Should we desire to terminate a hedging arrangement, there could be significant costs and cash requirements involved to fulfill our initial obligation under the hedging arrangement.

When a hedging arrangement is required under the terms of a mortgage loan, it is often a condition that the hedge counterparty maintains a specified credit rating. If the credit rating of a counterparty were downgraded and we were unable to renegotiate the credit rating condition with the lender or find an alternative counterparty with acceptable credit rating, we would be in default under the loan and the lender could seize that property securing the loan through foreclosure.

Joint venture investments could be adversely affected by our lack of sole decision-making authority, our reliance on partners' or co-venturers' financial position and liquidity and disputes between us and our co-venturers.

We may co-invest in the future with third parties through partnerships, joint ventures or other entities, acquiring non-controlling interests in or sharing responsibility for managing the affairs of a property, partnership, joint venture or other entity.

Under our stockholder's agreement with an institutional investor, we have agreed that it will have the right to participate as a co-investor in real estate investments for which we are seeking joint venture partners. In a joint venture, we would not be in a position to exercise sole decision-making authority regarding the property, partnership, joint venture or other entity. Investments in partnerships, joint ventures or other entities may, under certain circumstances, involve risks not present were a third party not involved, including the possibility that partners or co-venturers might become bankrupt or fail to fund their share of required capital contributions as a result of their challenged financial position and liquidity or otherwise. Partners or co-venturers may have economic or other business interests or goals which are inconsistent with our business interests or goals, and may be in a position to take actions contrary to our policies or objectives, and they may have competing interests that could create conflict of interest issues. Such investments may also have the potential risk of impasses on decisions, such as a sale, because neither we nor the partner or co-venturer would have full control over the partnership or joint venture. In addition, prior consent of our partners or co-venturers may be required for a sale or transfer to a third party of our interests in the partnership or joint venture, which would restrict our ability to dispose of our interest in the partnership or joint venture. If we become a limited partner or non-managing member in any partnership or limited liability company and such entity takes or expects to take actions that could jeopardize our qualification as a REIT or require us to pay tax, we may be forced to dispose of our interest in such entity at an unfavorable price or time. Disputes between us and partners or co-venturers may result in litigation or arbitration that would increase our expenses and prevent our executive officers and/or directors from focusing their time and effort on our business. Consequently, actions by or disputes with partners or co-venturers might result in subjecting properties owned by the partnership or joint venture to additional risk. In addition, we may in certain circumstances be liable for the actions of our partners or co-venturers. Our partnerships or joint ventures may be subject to debt and we could be forced to fund our partners' or co-venturers' share of such debt if they fail to make the required payments in order to preserve our investment. In addition, in any weakened credit market, the refinancing of such debt may require equity capital calls.

Changes in the method for determining LIBOR or a replacement of LIBOR may affect the value of the financial obligations to be held or issued by us that are linked to LIBOR and could affect our results of operations or financial condition.

In July 2017, the U.K. Financial Conduct Authority announced that it intends to stop persuading or compelling banks to submit LIBOR rates after 2021. We are unable to predict the effect of any changes, any establishment of alternative reference rates or any other reforms to LIBOR or any replacement of LIBOR that may be enacted in the United Kingdom or elsewhere. Such changes, reforms or replacements relating to LIBOR could have an adverse impact on the market for or value of any LIBOR-linked securities, loans, derivatives and other financial obligations or extensions of credit held by or due to us or on our overall financial condition or results of operations.

Risks Related to Our Organization and Structure

We are a holding company with no direct operations and will rely on funds received from our Operating Partnership to pay our obligations and make distributions to our stockholders.

We are a holding company and will conduct substantially all of our operations through our Operating Partnership. We will not have, apart from an interest in our Operating Partnership, any independent operations. As a result, we will rely on distributions from our Operating Partnership to make any distributions we declare on shares of our common stock. We will also rely on distributions from our Operating Partnership to meet any of our obligations, including any tax liability on taxable income allocated to us from our Operating Partnership. In addition, because we are a holding company, claims of stockholders are structurally subordinated to all existing and future creditors and preferred equity holders of our Operating Partnership and its subsidiaries. Therefore, in the event of a bankruptcy, insolvency, liquidation or reorganization of our Operating Partnership or its subsidiaries, assets of our Operating Partnership or the applicable subsidiary will be able to satisfy our claims to us as an equity owner therein only after all of their liabilities and preferred equity have been paid in full.

As of December 31, 2018, we owned, directly or indirectly, 100% of the interests in our Operating Partnership. On January 2, 2019, iStar acquired 12,500,000 Investor Units in our Operating Partnership for \$250.0 million, representing a 40.6% economic interest our Operating Partnership (See Item 1. Business - Recent iStar Investment Transaction for further details), which entitle iStar to receive equivalent distributions to those paid in respect of our common stock. In addition, in connection with our future acquisition of Ground Leases or otherwise, we may issue units of our Operating Partnership to third parties. Such issuances would reduce our ownership in our Operating Partnership. Stockholders do not directly own units of our Operating Partnership and do not have any voting rights with respect to any such issuances or other partnership level activities of our Operating Partnership.

The concentration of our voting power may adversely affect the ability of investors to influence our policies.

As of December 31, 2018, iStar owned approximately 41.8% of the outstanding shares and voting power of our common stock. In connection with the Recent iStar Investment Transaction, we entered into a Stockholder Agreement with iStar, pursuant to which iStar agreed to limit its aggregate voting power in us to 41.9% and iStar agreed to certain standstill provisions. We have agreed to seek stockholder approval to exchange iStar's Investor Units for shares of our common stock on a one-for-one basis.

Assuming this exchange occurs, iStar will own approximately 65.5% of our outstanding common stock, but will continue to be subject to a voting power limitation of 41.9%. See Item 1. Business - Recent iStar Investment Transaction for further details. Consequently, iStar has the ability to influence the outcome of matters presented to our stockholders, including the election of our board of directors and approval of significant corporate transactions, including business combinations, consolidations and mergers. Two directors of iStar also serve on our board of directors, including Jay Sugarman, who is the chief executive officer of iStar and our chief executive officer. Our directors, executive officers and iStar could exercise influence in a manner that is not in the best interest of our other stockholders. The concentration of voting power in iStar might also have the effect of delaying, deferring or preventing a change of control that our other stockholders may view as beneficial.

Certain provisions of Maryland law could inhibit changes in control of our company.

Certain "business combination" and "control share acquisition" provisions of the Maryland General Corporation Law, or the MGCL, may have the effect of deterring a third party from making a proposal to acquire us or of impeding a change in control under circumstances that otherwise could provide the holders of our common stock with the opportunity to realize a premium over the then-prevailing market price of our common stock. Pursuant to the MGCL, our board of directors has by resolution exempted business combinations between us and any other person. Our bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of shares of our stock. However, there can be no assurance that these exemptions will not be amended or eliminated at any time in the future. Our charter and bylaws and Maryland law also contain other provisions that may delay, defer or prevent a transaction or a change of control that might involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interest.

Certain provisions in the partnership agreement of our Operating Partnership may delay, defer or prevent unsolicited acquisitions of us.

Provisions in the partnership agreement of our Operating Partnership may delay, defer or prevent unsolicited acquisitions of us or changes of our control. These provisions could discourage third parties from making proposals involving an unsolicited acquisition of us or change of our control, although some stockholders might consider such proposals, if made, desirable. These provisions include, among others:

- redemption rights of qualifying parties;
- transfer restrictions on Operating Partnership units;
- our ability, as general partner, in some cases, to amend the partnership agreement and to cause the Operating Partnership to issue units with terms that could delay, defer or prevent a merger or other change of control of us or our Operating Partnership without the consent of the limited partners; and
- the right of the limited partners to consent to transfers of the general partnership interest and mergers or other transactions involving us under specified circumstances.

The partnership agreement of our Operating Partnership and Delaware law also contain other provisions that may delay, defer or prevent a transaction or a change of control that might involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interest.

Our charter contains stock ownership limits, which may delay, defer or prevent a change of control.

In order for us to qualify as a REIT for each taxable year commencing with our taxable year ended December 31, 2017, no more than 50% in value of our outstanding capital stock may be owned, directly or indirectly, by five or fewer individuals during the last half of any calendar year, and at least 100 persons must beneficially own our stock during at least 335 days of a taxable year of 12 months, or during a proportionate portion of a shorter taxable year. "Individuals" for this purpose include natural persons, private foundations, some employee benefit plans and trusts and some charitable trusts. To assist us in complying with these limitations, among other purposes, our charter generally prohibits any person from directly or indirectly owning more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of all classes and series of our capital stock or more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of our common stock. These ownership limitations could have the effect of discouraging a takeover or other transaction in which holders of our common stock might receive a premium for their shares over the then prevailing market price or which holders might believe to be otherwise in their best interests.

Our charter's constructive ownership rules are complex and may cause the outstanding shares owned by a group of related individuals or entities to be deemed to be constructively owned by one individual or entity. As a result, the acquisition of less than these percentages of the outstanding shares by an individual or entity could cause that individual or entity to own constructively in excess of these percentages of the outstanding shares and thus violate the share ownership limits. Our charter also provides that any attempt to own or transfer shares of our common stock or preferred stock (if and when issued) in excess of the stock ownership

limits without the consent of our board of directors or in a manner that would cause us to be "closely held" under Section 856(h) of the Code (without regard to whether the shares are held during the last half of a taxable year) will result in the shares being automatically transferred to a trustee for a charitable trust or, if the transfer to the charitable trust is not automatically effective to prevent a violation of the share ownership limits or the restrictions on ownership and transfer of our shares, any such transfer of our shares will be null and void.

Our bylaws designate the Circuit Court for Baltimore City, Maryland as the sole and exclusive forum for some litigation, which could limit the ability of stockholders to obtain a favorable judicial forum for disputes with our company.

Our bylaws provide that, unless we consent in writing to the selection of an alternative forum, the sole and exclusive forum for: (a) any derivative action or proceeding brought on our behalf; (b) any action asserting a claim of breach of any duty owed by us or by any director or officer or other employee to us or to our stockholders; (c) any action asserting a claim against us or any director or officer or other employee arising pursuant to any provision of the Maryland General Corporation Law or our charter or bylaws; or (d) any action asserting a claim against us or any director or officer or other employee that is governed by the internal affairs doctrine shall be the Circuit Court for Baltimore City, Maryland, or, if that Court does not have jurisdiction, the United States District Court for the District of Maryland, Baltimore Division. This forum selection provision may limit the ability of stockholders of our company to obtain a judicial forum that they find favorable for disputes with our company or our directors, officers, employees, if any, or other stockholders.

Our board of directors may change our strategies, policies or procedures without stockholder consent, which may subject us to different and more significant risks in the future.

Our investment, financing, leverage and distribution policies and our policies with respect to all other activities, including growth, debt, capitalization and operations, are determined by our board of directors. These policies may be amended or revised at any time and from time to time at the discretion of the board of directors without notice to or a vote of our stockholders. This could result in us conducting operational matters, making investments or pursuing different business or growth strategies than those contemplated in this prospectus. Under these circumstances, we may expose ourselves to different and more significant risks in the future, which could have a material adverse effect on our business and growth. In addition, the board of directors may change our policies with respect to conflicts of interest, provided that such changes are consistent with applicable legal requirements.

Our rights and the rights of our stockholders to take action against our directors and executive officers are limited, which could limit stockholders recourse in the event of actions not in the stockholders best interest.

Our charter limits the liability of our present directors and executive officers to us and our stockholders for money damages to the maximum extent permitted under Maryland law. Under current Maryland law, our present directors and executive officers will not have any liability to us or our stockholders for money damages other than liability resulting from: (i) actual receipt of an improper benefit or profit in money, property or services; or (ii) active and deliberate dishonesty by the director or executive officer that was established by a final judgment and is material to the cause of action. As a result, we and our stockholders have limited rights against our present and former directors and executive officers, which could limit your recourse in the event of actions not in your best interest.

Conflicts of interest exist or could arise in the future between the interests of our stockholders and the interests of holders of Operating Partnership units, which may impede business decisions that could benefit our stockholders.

Conflicts of interest exist or could arise in the future as a result of the relationships between us and our affiliates, on the one hand, and our Operating Partnership or any partner thereof, on the other. Our directors and executive officers have duties to us under applicable Maryland law in connection with their management of our company. At the same time, we, as the general partner of our Operating Partnership, have fiduciary duties and obligations to our Operating Partnership and its limited partners under Delaware law and the partnership agreement of our Operating Partnership in connection with the management of our Operating Partnership. Our fiduciary duties and obligations as general partner to our Operating Partnership and its partners may come into conflict with the duties of our directors and executive officers to our company. Our Operating Partnership agreement provides that in the event of a conflict in the duties owed by us to our stockholders and the fiduciary duties owed by us, in our capacity as general partner of our Operating Partnership, to those limited partners, we will fulfill our fiduciary duties to those limited partners by acting in the best interests of our company.

Additionally, the partnership agreement provides that we and our directors and executive officers will not be liable or accountable to our Operating Partnership for losses sustained, liabilities incurred or benefits not derived if we or such director or executive officer acted in good faith. The partnership agreement also provides that we will not be liable to the Operating Partnership or any partner for monetary damages for losses sustained, liabilities incurred or benefits not derived by the Operating Partnership or any limited partner, except for liability for our intentional harm or gross negligence. Moreover, the partnership agreement provides that our Operating Partnership is required to indemnify us and our directors and executive officers and authorizes our Operating Partnership to indemnify present and former members, managers, stockholders, directors, limited partners, general

partners, officers or controlling persons of our predecessor and authorizes us to indemnify members, partners, employees and agents of us or our predecessor, in each case for actions taken by them in those capacities from and against any and all claims that relate to the operations of our Operating Partnership, except: (i) if the act or omission of the person was material to the matter giving rise to the action and either was committed in bad faith or was the result of active and deliberate dishonesty; (ii) for any transaction for which the person received an improper personal benefit, in money, property or services or otherwise, in violation or breach of any provision of the partnership agreement; or (iii) in the case of a criminal proceeding, if the person had reasonable cause to believe that the act or omission was unlawful. No reported decision of a Delaware appellate court has interpreted provisions similar to the provisions of the partnership agreement of our Operating Partnership that modify and reduce our fiduciary duties or obligations as the general partner or reduce or eliminate our liability for money damages to the Operating Partnership and its partners, and we have not obtained an opinion of counsel as to the enforceability of the provisions set forth in the partnership agreement that purport to modify or reduce the fiduciary duties that would be in effect were it not for the partnership agreement.

We could increase or decrease the number of authorized shares of stock, classify and reclassify unissued stock and issue stock without stockholder approval, which could prevent a change in our control and negatively affect the market price of our common stock.

Our board of directors, without stockholder approval, has the power under our charter to amend our charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we are authorized to issue, to authorize us to issue authorized but unissued shares of our common stock or preferred stock and to classify or reclassify any unissued shares of our common stock or preferred stock into one or more classes or series of stock and set the terms of such newly classified or reclassified shares. As a result, we may issue series or classes of common stock or preferred stock with preferences, distributions, powers and rights, voting or otherwise, that are senior to the rights of holders of our common stock. Any such issuance could dilute our existing common stockholders' interests. Although our board of directors has no such intention at the present time, it could establish a class or series of preferred stock that could, depending on the terms of such series, delay, defer or prevent a transaction or a change of control that might involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interest.

Our Operating Partnership may issue additional Operating Partnership units, such as the issuance of Investor Units to iStar on January 2, 2019 (refer to Note 13), without the consent of our stockholders, which could have a dilutive effect on our stockholders.

Our Operating Partnership may issue additional Operating Partnership units, such as the issuance of Investor Units to iStar on January 2, 2019 (refer to Note 13), without the consent of our stockholders, which would reduce our ownership percentage in our Operating Partnership and may have a dilutive effect on the amount of distributions made to us by our Operating Partnership and, therefore, the amount of distributions we may make to our stockholders. Any such issuances, or the perception of such issuances, could materially and adversely affect the market price of our common stock.

We are an "emerging growth company," and we cannot be certain if the reduced SEC reporting requirements applicable to emerging growth companies will make our common stock less attractive to investors, which could make the market price and trading volume of our common stock be more volatile and decline significantly.

We are an "emerging growth company" as defined in the JOBS Act. We will remain an "emerging growth company" until the earliest to occur of: (i) the last day of the fiscal year during which our total annual revenue equals or exceeds \$1.07 billion (subject to adjustment for inflation); (ii) the last day of the fiscal year following the fifth anniversary of our initial public offering; (iii) the date on which we have, during the previous three-year period, issued more than \$1 billion in non-convertible debt securities; and (iv) the date on which we are deemed to be a "large accelerated filer" under the Exchange Act. We intend to take advantage of exemptions from various reporting requirements that are applicable to most other public companies, whether or not they are classified as "emerging growth companies," including, but not limited to, an exemption from the provisions of Section 404(b) of the Sarbanes-Oxley Act requiring that our independent registered public accounting firm provide an attestation report on the effectiveness of our internal control over financial reporting. An attestation report by our auditor would require additional procedures by them that could detect problems with our internal control over financial reporting that are not detected by management. If our system of internal control over financial reporting is not determined to be appropriately designed or operating effectively, it could require us to restate financial statements, cause us to fail to meet reporting obligations and cause investors to lose confidence in our reported financial information, all of which could lead to a significant decline in the market price of our common stock. The JOBS Act also provides that an "emerging growth company" can take advantage of the extended transition period provided in the Securities Act for complying with new or revised accounting standards. However, we have chosen to "opt out" of this extended transition period and, as a result, we will comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for all public companies that are not emerging growth companies. Our decision to opt out of the extended transition period for complying with new or revised accounting standards is irrevocable. We cannot predict if investors will find our common stock less attractive because we intend to rely on certain of these exemptions and benefits under the JOBS Act. If some investors find our common stock less attractive as a result, there may be a less active, liquid and/or orderly trading

market for our common stock and the market price and trading volume of our common stock may be more volatile and decline significantly.

Risks Related to Our Common Stock

We only recently went public in June 2017 and have experienced relatively low volume in the trading market for our common stock. Limited trading volume may depress the market price of our common stock and make it difficult for investors to sell their shares and less attractive to new investors to purchase shares of our common stock.

We only recently went public in June 2017, and have experienced relatively low volume in the trading market for our common stock. The market price of our common stock could be substantially affected by general market conditions, the extent of the secondary market for our common stock, the concentration in our ownership by iStar, the extent of institutional investor interest in us, the general reputation of REITs and the attractiveness of their equity securities in comparison to other equity securities of other entities (including securities issued by other real estate-based companies), our financial performance and prospects and general stock and bond market conditions.

The stock markets, including the NYSE on which shares of our common stock are listed, have from time to time experienced significant price and volume fluctuations. As a result, the market price of our common stock may be similarly volatile, and investors in shares of our common stock may from time to time experience a decrease in the market price of their shares, including decreases unrelated to our financial performance or prospects. The market price of shares of our common stock could be subject to wide fluctuations in response to a number of factors, including those listed in this "Risk Factors" section and others such as:

- our operating performance and the performance of other similar companies;
- actual or anticipated differences in our quarterly or annual operating results than expected;
- changes in our revenues or earnings estimates or recommendations by securities analysts;
- publication of research reports about us, the Ground Lease sector or the real estate industry;
- increases in market interest rates, which may lead investors to demand a higher distribution yield for shares of our common stock, and would result in increased interest expense on our debt;
- actual or anticipated changes in our and our tenants' businesses or prospects;
- the current state of the credit and capital markets, and our ability and the ability of our tenants to obtain financing on favorable terms;
- conflicts of interest with iStar, including our Manager, and other investors;
- the termination of our Manager or additions and departures of key personnel of our Manager;
- increased competition in the Ground Lease business in our markets;
- strategic decisions by us or our competitors, such as acquisitions, divestments, spin-offs, joint ventures, strategic investments or changes in business or growth strategies;
- the passage of legislation or other regulatory developments that adversely affect us or our industry;
- adverse speculation in the press or investment community;
- actions by institutional stockholders;
- the concentration of our equity ownership by iStar and other investors perceptions as to whether and when such shares may be sold and the influence of iStar and other investors over us;
- equity issuances by us (including the issuances of Operating Partnership units), or common stock resales by our stockholders, or the perception that such issuances or resales may occur;
- actual, potential or perceived accounting problems;
- changes in accounting principles;
- failure to qualify as a REIT;
- failure to comply with the rules of the NYSE or maintain the listing of our common stock on the NYSE;
- terrorist acts, natural or man-made disasters or threatened or actual armed conflicts; and
- general market and local, regional and national economic conditions, including factors unrelated to our operating performance and prospects.

No assurance can be given that the market price of our common stock will not fluctuate or decline significantly in the future or that holders of shares of our common stock will be able to sell their shares when desired on favorable terms, or at all. From time to time in the past, securities class action litigation has been instituted against companies following periods of extreme volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources.

Cash available for distribution may not be sufficient to make distributions to our stockholders at expected levels, or at all.

We intend to make distributions to holders of shares of our common stock and holders of Operating Partnership units. We intend to maintain our current distribution rate unless our actual or anticipated results of operations, cash flows or financial position, economic or market conditions or other factors differ materially from our current estimates. However, any future distributions will be made at the discretion of our board of directors and will depend on a number of factors, including our actual or anticipated results of operations, cash flows and financial position, our qualification as a REIT, prohibitions and other restrictions in our financing agreements, economic and market conditions, applicable law, and other factors as our board of directors may deem relevant from time to time. Our 2017 Revolver will restrict our ability to pay distributions to our stockholders. In 2018, we were permitted to make annual distributions up to an amount equal to 110% of our adjusted funds from operations, as calculated in accordance with the 2017 Revolver. In addition, we may make distributions to the extent necessary to maintain our qualification as a REIT. If sufficient cash is not available for distribution from our operations, we may have to fund distributions from working capital or borrow funds or issue equity for such distribution, or eliminate or otherwise reduce the amount of such distribution. We currently expect that our operating cash flow will cover our distribution for the foreseeable future. We currently have no intention to make distributions using shares of our common stock. We cannot assure you that our estimated distributions will be achieved or sustained. Accordingly, any distributions we make in the future could differ materially from our current expectations.

The market price of our common stock could be adversely affected by our level of cash distributions.

We believe the market price of the equity securities of a REIT is based primarily upon the market's perception of the REIT's growth potential, its current and potential future cash distributions, whether from operations, sales or refinancing, and its management and governance structure, and is secondarily based upon the real estate market value of the underlying assets. For that reason, our common stock may trade at prices that are higher or lower than our net asset value per share. To the extent we retain operating cash flows for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the market price of our common stock. If we fail to meet the market's expectations with regard to future operating results and cash distributions, the market price of our common stock could be adversely affected.

Increases in market interest rates may result in a decline in the market price of our common stock.

One of the factors that will influence the market price of our common stock will be the distribution yield on the common stock (as a percentage of the market price of our common stock) relative to market interest rates. An increase in market interest rates, which are currently at low levels relative to historical rates, may lead prospective purchasers of shares of our common stock to expect a higher distribution yield and higher interest rates would likely increase our borrowing costs and potentially decrease our cash available for distribution. Thus, higher market interest rates could cause the market price of our common stock to decline.

The number of shares and Operating Partnership units available for future sale could adversely affect the market price of our common stock.

We cannot predict whether future issuances of shares of our common stock or Operating Partnership units or the availability of shares for resale in the open market will decrease the market price of our common stock. On July 1, 2018, we began paying management fees under our management agreement in shares of our common stock (beginning January 1, 2019, the management agreement was amended and management fees can be paid in cash or in shares of our common stock at the discretion of our independent directors - refer to Note 13) valued at the greater of: (i) the volume weighted average market price of our common stock during the quarter for which the fee is being calculated; and (ii) the initial public offering price of \$20.00 per share of our common stock. Although our Manager is restricted from selling such shares for two years from the date such shares are issued, these restrictions will terminate upon termination of the management agreement, and the restrictions will not apply to distributions of shares to iStar in contemplation of a further distribution of such shares to iStar's stockholders. Under the terms of registration rights agreements entered into with our Formation Transactions and iStar's acquisition of Investor Units in our Operating Partnership, iStar and two institutional investors received rights to have shares of common stock issued from time to time registered for resale under the Securities Act. We may also issue shares of common stock or Operating Partnership units in connection with future property, portfolio or business acquisitions. Issuances or resales of substantial amounts of shares of our common stock (including shares of our common stock issued pursuant to our management agreement or our equity incentive plan) or Operating Partnership units, or upon exchange of Operating Partnership units, or the perception that such issuances or resales might occur could adversely affect the market price of our common stock. This potential adverse effect may be increased by the large number

of shares of our common stock that are or will be owned by iStar and two institutional investors to the extent that any of them resells, or there is a perception that any of them may resell, a significant portion of its holdings. In addition, future issuances of shares of our common stock may be dilutive to holders of shares of our common stock.

Future issuances of debt securities, which would rank senior to shares of our common stock upon our liquidation, and future issuances of equity securities (including preferred stock and Operating Partnership units), which would dilute the holdings of our then-existing common stockholders and may be senior to shares of our common stock for the purposes of making distributions, periodically or upon liquidation, may materially and adversely affect the market price of our common stock.

In the future, we may issue debt or equity securities or incur other borrowings. Upon liquidation, holders of our debt securities and other loans and shares of our preferred stock will receive a distribution of our available assets before holders of shares of our common stock. We are not required to offer any debt or equity securities to existing stockholders on a preemptive basis. Therefore, shares of our common stock that we issue in the future, directly or through convertible or exchangeable securities (including Operating Partnership units), warrants or options, will dilute the holdings of our then-existing common stockholders and such issuances or the perception of such issuances may reduce the market price of our common stock. Our preferred stock, if issued, would likely have a preference on distribution payments, periodically or upon liquidation, which could limit our ability to make distributions to holders of shares of our common stock. Because our decision to issue debt or equity securities or otherwise incur debt in the future will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing, nature or impact of our future capital raising efforts. Thus, holders of shares of our common stock bear the risk that our future issuances of debt or equity securities or our incurrence of other borrowings may materially and adversely affect the market price of shares of our common stock and dilute their ownership in us.

A portion of our distributions may be treated as a return of capital for U.S. federal income tax purposes, which could reduce the basis of a stockholder's investment in shares of our common stock.

A portion of our distributions to our stockholders may be treated as a return of capital for U.S. federal income tax purposes. As a general matter, a portion of our distributions will be treated as a return of capital for U.S. federal income tax purposes if the aggregate amount of our distributions for a year exceeds our current and accumulated earnings and profits for that year. To the extent that a distribution is treated as a return of capital for U.S. federal income tax purposes, it will reduce a holder's adjusted tax basis in the holder's shares, and to the extent that it exceeds the holder's adjusted tax basis will be treated as gain resulting from a sale or exchange of such shares.

Tax Risks Related to Ownership of Our Shares

Our failure to remain qualified as a REIT would subject us to U.S. federal income tax and applicable state and local taxes, which would reduce the amount of cash available for distribution to our stockholders.

We believe we have been organized and operate and intend to continue to operate in a manner that will enable us to qualify as a REIT for U.S. federal income tax purposes commencing with our taxable year ended December 31, 2017. We have not requested and do not intend to request a ruling from the Internal Revenue Service, or the IRS, that we qualify as a REIT. Qualification as a REIT involves the application of highly technical and complex Code provisions and Treasury Regulations promulgated thereunder for which there are limited judicial and administrative interpretations. The complexity of these provisions and of applicable Treasury Regulations is greater in the case of a REIT that, like us, holds its assets through entities treated as partnerships for U.S. federal income tax purposes. To qualify as a REIT, we must meet, on an ongoing basis, various tests regarding the nature and diversification of our assets and our income, the ownership of our outstanding shares, and the amount of our distributions. Our ability to satisfy these asset tests depends upon the characterization and fair market values of our assets, some of which are not susceptible to a precise determination, and for which we will not obtain independent appraisals. Our compliance with the REIT income and quarterly asset requirements also depends upon our ability to manage successfully the composition of our income and assets on an ongoing basis. In connection with such requirements, for so long as iStar or SFTY Venture LLC, an affiliate of GIC (Realty) Private Limited ("GICRE"), either individually or together in the aggregate, holds 10% or more of the shares of our common stock, we will be deemed to own any tenant in which, iStar, GICRE or iStar and GICRE together own, at any time during a taxable year, a 10% or greater interest, applying certain constructive ownership rules, which could cause us to receive rental income from a related party tenant. We have put in place, together with iStar and GICRE, procedures to diligence whether we will directly or indirectly receive rental income of a related party tenant, including as a result of our constructive ownership of a tenant due to ownership of such tenant by iStar and/or GICRE, and, in the event we receive rental income from a tenant in which GICRE owns a greater than 10% interest that could reasonably cause us to fail to qualify as a REIT, iStar has agreed to purchase our common shares from GICRE in an amount necessary to reduce GICRE's ownership interest in us below 10% on one occasion. However, due to the broad nature of the attribution rules of the Code, we cannot be certain that in all cases we will be able to timely determine whether we are receiving related party rental income in an amount that would cause us to fail the REIT gross income tests. To the extent we fail to satisfy a REIT gross income test as a result of receiving related party tenant income we could fail to qualify as a REIT or be subject to a penalty tax which could be significant in amount. See—"Certain U.S. Federal Income Tax Considerations—

Requirements for Qualification—General—Failure to Satisfy the Gross Income Tests." Moreover, new legislation, court decisions or administrative guidance, in each case possibly with retroactive effect, may make it more difficult or impossible for us to qualify as a REIT. Thus, while we believe we have been organized and operated and intend to continue to operate so that we will qualify as a REIT, given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in our circumstances, no assurance can be given that we have qualified or will continue to so qualify for any particular year. These considerations also might restrict the types of assets that we can acquire or services that we can directly provide to our tenants in the future.

If we fail to qualify as a REIT in any taxable year, and we do not qualify for certain statutory relief provisions, we would be required to pay U.S. federal income tax, including any applicable alternative minimum tax for our taxable year ended December 31, 2017, on our taxable income at regular corporate rates, and distributions to our stockholders would not be deductible by us in determining our taxable income. In such a case, we might need to borrow money, sell assets, or reduce or even cease making distributions in order to pay our taxes. Our payment of income tax would reduce significantly the amount of cash available for distribution to our stockholders. Furthermore, if we fail to qualify or maintain our qualification as a REIT, we no longer would be required to distribute substantially all of our net taxable income to our stockholders. In addition, unless we were eligible for certain statutory relief provisions, we could not re-elect to qualify as a REIT until the fifth calendar year following the year in which we failed to qualify. In addition, if we are treated as a "successor" of iStar (within the meaning of Treasury Regulations Section 1.856-8(c)(2)) and iStar's REIT status were terminated or revoked, we would be prohibited from electing to be taxed as a REIT until the fifth calendar year following the year in which iStar Inc.'s qualification was lost.

Complying with the REIT requirements may cause us to forego and/or liquidate otherwise attractive investments.

To qualify as a REIT, we must ensure that at least 75% of our gross income for each taxable year, excluding certain amounts, is derived from certain real property-related sources, and at least 95% of our gross income for each taxable year, excluding certain amounts, is derived from certain real property-related sources and passive income such as dividends and interest. In addition, we must ensure that, at the end of each calendar quarter, at least 75% of the value of our total assets consists of cash, cash items, government securities and qualified REIT real estate assets, including certain mortgage loans, certain kinds of mortgage-backed securities and certain securities issued by other REITs. The remainder of our investment in securities (other than government securities, securities of corporations that are treated as TRSs and qualified REIT real estate assets) generally cannot include more than 10% of the outstanding voting securities of any one issuer or more than 10% of the total value of the outstanding securities of any one issuer. In addition, in general, no more than 5% of the value of our assets (other than government securities and qualified real estate assets) can consist of the securities of any one issuer, no more than 20% of the value of our total securities can be represented by securities of one or more TRSs, and, the aggregate value of debt instruments issued by public REITs held by us that are not otherwise secured by real property may not exceed 25% of the value of our total assets. If we fail to comply with these asset requirements at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences.

To meet these tests, we may be required to take or forego taking actions that we otherwise would consider advantageous. For instance, in order to satisfy the gross income or asset tests applicable to REITs under the Code, we may be required to forego investments that we otherwise would make. Furthermore, we may be required to liquidate from our portfolio otherwise attractive investments. In addition, we may be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution. These actions could have the effect of reducing our income and cash available for distribution to our stockholders. Thus, compliance with the REIT requirements may hinder our investment performance.

The REIT distribution requirements could require us to borrow funds, issue equity or sell assets during unfavorable market conditions or subject us to tax, which may affect our ability to seize strategic opportunities, satisfy debt obligations and make distributions to our stockholders.

In order to qualify as a REIT, we must distribute to our stockholders, on an annual basis, at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains. In addition, we will be subject to U.S. federal income tax at regular corporate rates to the extent that we distribute less than 100% of our net taxable income (including net capital gains) and will be subject to a 4% nondeductible excise tax on the amount by which our distributions in any calendar year are less than a minimum amount specified under U.S. federal income tax laws. We intend to distribute our net taxable income to our stockholders in a manner intended to satisfy the REIT 90% distribution requirement and to eliminate U.S. federal income tax and the 4% nondeductible excise tax.

Our taxable income may exceed our net income as determined by GAAP because, for example, realized capital losses will be deducted in determining our GAAP net income, but may not be deductible in computing our taxable income. In addition, we may incur nondeductible capital expenditures or be required to make debt or amortization payments. Also, certain Ground Lease transactions we enter into may be determined to have a financing component, which may result in a timing difference between

the receipt of cash and the recognition of income for U.S. federal income tax purposes. As a result of the foregoing, we may generate less cash flow than taxable income in a particular year and we may incur U.S. federal income tax and the 4% nondeductible excise tax on that income if we do not distribute such income to stockholders in that year. In that event, we may be required to use cash reserves, incur debt, issue equity or liquidate assets at rates or times that we regard as unfavorable or make a taxable distribution of our shares in order to satisfy the REIT 90% distribution requirement and to eliminate U.S. federal income tax and the 4% nondeductible excise tax in that year.

For taxable years beginning after December 31, 2017, we will generally be required to take certain amounts into income no later than the time such amounts are reflected on our financial statements (the rule applies to debt instruments issued with original issue discount for tax years beginning after December 31, 2018). This rule could in certain circumstances increase our “phantom income,” which may require us to borrow funds or take other action to satisfy the REIT distribution requirements for the taxable year in which this “phantom income” is recognized.

To the extent we need to rely on third-party sources to fund our capital needs, we may not be able to obtain financing on favorable terms, in the time period we desire, or at all. Any additional debt we incur or any additional equity we issue may dilute our then-existing common stockholders will increase our leverage. Our access to third-party sources of capital depends, in part, on:

- general market conditions;
- the market's perception of our growth potential;
- our current debt levels;
- our current and expected future earnings;
- our cash flow and cash distributions; and
- the market price of our common stock.

If we cannot obtain capital from third-party sources, we may not be able to acquire, expand or develop properties when strategic opportunities exist, satisfy our principal and interest obligations or make the cash distributions to our stockholders necessary to qualify or maintain our qualification as a REIT.

If our Operating Partnership is treated as a corporation for U.S. federal income tax purposes, we will cease to qualify as a REIT.

We intend for our Operating Partnership to be treated as a partnership for U.S. federal income tax purposes. No assurance can be provided, however, that the IRS will not challenge our Operating Partnership's status as a partnership for U.S. federal income tax purposes, or that a court would not sustain such a challenge. If the IRS were successful in treating our Operating Partnership as a corporation for U.S. federal income tax purposes, we would fail to meet the gross income tests and certain of the asset tests applicable to REITs and, therefore, cease to qualify as a REIT and our Operating Partnership would become subject to U.S. federal, state and local income tax. The payment by our Operating Partnership of income tax would reduce significantly the amount of cash available to our partnership to satisfy obligations to make principal and interest payments on its debt and to make distribution to its partners, including us.

Even if we qualify as a REIT, we may incur tax liabilities that reduce our cash flow.

Even if we qualify as a REIT, we may be subject to certain U.S. federal, state and local taxes on our income and assets, including taxes on any undistributed income, taxes on income from some activities conducted as a result of a foreclosure, and state or local income, franchise, property and transfer taxes. In addition, any TRSs we own will be subject to U.S. federal, state and local corporate income taxes. In order to meet the REIT qualification requirements, or to avoid the imposition of a 100% tax that applies to certain gains derived by a REIT from sales of inventory or property held primarily for sale to customers in the ordinary course of business, we may hold some of our assets through taxable C corporations, including TRSs. Any taxes paid by such subsidiary corporations would decrease the cash available for distribution to our stockholders.

Any TRSs of ours will be subject to special rules that may result in increased taxes.

We may conduct certain activities or invest in assets through one or more TRSs. A TRS is a corporation other than a REIT in which a REIT directly or indirectly holds stock, and that has made a joint election with such REIT to be treated as a TRS. Other than some activities relating to hotel and health care properties, a TRS may generally engage in any business, including the provision of customary or non-customary services to tenants of its parent REIT. A TRS is subject to U.S. federal income tax as a regular C corporation.

No more than 20% (25% for taxable years beginning before December 31, 2017) of the value of a REIT's total assets may consist of stock or securities of one or more TRSs. This requirement limits the extent to which we can conduct our activities through TRSs. The values of some of our assets, including assets that we hold through TRSs, may not be subject to precise determination, and values are subject to change in the future. Furthermore, if a REIT lends money to a TRS, the TRS may be unable to deduct all or a portion of the interest paid to the REIT, which could increase the tax liability of the TRS. In addition, as a REIT, we must pay a 100% penalty tax on certain payments that we receive if the economic arrangements between us and any of our TRSs are not comparable to similar arrangements between unrelated parties. We intend to structure transactions with any TRS on terms that we believe are arm's length to avoid incurring the 100% excise tax described above; however, the IRS may successfully assert that the economic arrangements of any of our inter-company transactions are not comparable to similar arrangements between unrelated parties.

Dividends payable by REITs do not qualify for the reduced tax rates on dividend income from C corporations, which could adversely affect the value of our common stock.

The maximum U.S. federal income tax rate for certain qualified dividends payable by C corporations to U.S. stockholders that are individuals, trusts and estates is 20%. Dividends payable by REITs, however, are generally not eligible for this reduced rate. For taxable years beginning after December 31, 2017 and before January 1, 2026, non-corporate taxpayers may deduct up to 20% of certain qualified business income, including "qualified REIT dividends" (generally, REIT dividends received by a REIT shareholder that are not designated as capital gain dividends or qualified dividend income), subject to certain limitations, resulting in an effective maximum U.S. federal income tax rate of 29.6% on such income. Although the reduced U.S. federal income tax rate applicable to qualified dividends from C corporations does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable rates applicable to regular corporate dividends, together with the recently reduced corporate tax rate (21%) could cause non-corporate investors to perceive investments in REITs to be relatively less attractive than investments in non-REIT corporations that pay dividends, which could adversely affect the value of the REIT shares, including our common stock.

Complying with REIT requirements may limit our ability to hedge effectively and may cause us to incur tax liabilities.

The REIT provisions of the Code may limit our ability to hedge our assets and operations. Under these provisions, any income that we generate from transactions intended to hedge our interest rate risk will be excluded from gross income for purposes of the REIT 75% and 95% gross income tests if: (i) the instrument (A) hedges interest rate risk or foreign currency exposure on liabilities used to carry or acquire real estate assets, (B) hedges risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% gross income tests or (C) hedges a position entered into pursuant to clause (A) or (B) after the extinguishment of such liability or disposition of the asset producing such income; and (ii) such instrument is properly identified under applicable Treasury Regulations. Income from hedging transactions that do not meet these requirements will generally constitute non-qualifying income for purposes of both the REIT 75% and 95% gross income tests. As a result of these rules, we may have to limit our use of hedging techniques that might otherwise be advantageous or implement those hedges through a TRS. This could increase the cost of our hedging activities because our TRS would be subject to tax on gains or expose us to greater risks associated with changes in interest rates than we would otherwise want to bear. In addition, losses in our TRS will generally not provide any tax benefit, except for being carried forward against future taxable income in the TRS.

The ability of our board of directors to revoke our REIT election without stockholder approval may cause adverse consequences on our total return to our stockholders.

Our charter provides that the board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if the board determines that it is no longer in our best interest to continue to qualify as a REIT. If we cease to qualify as a REIT, we would become subject to U.S. federal income tax on our net taxable income and we generally would no longer be required to distribute any of our net taxable income to our stockholders, which may have adverse consequences on our total return to our stockholders.

Legislative or regulatory tax changes related to REITs could materially and adversely affect us.

The U.S. federal income tax laws and regulations governing REITs and their stockholders, as well as the administrative interpretations of those laws and regulations, are constantly under review and may be changed at any time, possibly with retroactive effect. No assurance can be given as to whether, when, or in what form, the U.S. federal income tax laws applicable to us and our stockholders may be enacted. Changes to the U.S. federal income tax laws and interpretations of U.S. federal tax laws could adversely affect an investment in our common stock.

On December 22, 2017, Congress enacted H.R. 1, also known as the Tax Cuts and Jobs Act of 2017 (the "TCJA"). The TCJA made major changes to the Code, including the reduction of the tax rates applicable to individuals and subchapter C corporations, a reduction or elimination of certain deductions (including new limitations on the deductibility of interest expense),

and permitting immediate expensing of capital expenditures. The effect of the significant changes made by the TCJA is highly uncertain, and additional administrative guidance is still required in order to fully evaluate the effect of many provisions. Technical corrections or other amendments to the new rules, and additional administrative guidance interpreting these new rules, may be forthcoming at any time but may also be significantly delayed. While we do not currently expect this reform to have a significant impact to our consolidated financial statements, stockholders are urged to consult with their tax advisors regarding the effects of the TCJA or other legislative, regulatory or administrative developments on an investment in our common stock.

Item 1b. Unresolved Staff Comments

None.

Item 2. Properties

Our principal executive offices are located at 1114 Avenue of the Americas, New York, New York 10036. Our telephone number is (212) 930-9400. Our website address is www.safetyincomegrowth.com. The information on, or otherwise accessible through, our website does not constitute a part of this prospectus.

See "Item 1. Business—Portfolio Overview" for a discussion of properties held by us for investment purposes and Item 8—"Financial Statements and Supplemental Data—Schedule III," for a detailed listing of such properties.

Item 3. Legal Proceedings

We are not currently a party to any pending legal proceedings that we believe could have a material adverse effect on our business or financial condition. However, we may be subject to various claims and legal actions arising in the ordinary course of business from time to time.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Equity and Related Share Matters

Our common stock trades on the NYSE under the symbol "SAFE." Computershare is the transfer agent and registrar for our common stock. We had 6 holders of record of common stock as of February 13, 2019. This figure does not represent the actual number of beneficial owners of our common stock because shares of our common stock are frequently held in "street name" by securities dealers and others for the benefit of beneficial owners who may vote the shares.

Unregistered Sales of Equity Securities

In October 2018, we issued 45,941 shares of our common stock to our Manager as payment for the management fee for the three months ended September 30, 2018. These shares were not registered under the Securities Act.

Issuer Purchases of Equity Securities

We did not purchase any shares of our common stock during the three months ended December 31, 2018.

Disclosure of Equity Compensation Plan Information

In connection with our initial public offering, we adopted a 2017 equity incentive plan (the "2017 Plan") to provide equity incentive opportunities to members of our Manager's management team and employees who perform services for us, our independent directors, advisers, consultants and other personnel. Our equity incentive plan provides for grants of stock options, shares of restricted common stock, phantom shares, dividend equivalent rights and other equity-based awards up to an aggregate of 907,500 (representing 5% of the issued and outstanding shares of our common stock as of the closing of our initial public offering).

On June 27, 2017, we issued a total of 40,000 fully-vested shares to our directors who are not employees of the Manager or iStar in consideration for their annual services as directors. On June 28, 2018, we issued a total of 40,000 fully-vested shares to our directors who are not employees of the Manager or iStar in consideration for their annual services as directors.

The following table presents certain information about our equity compensation plan as of December 31, 2018:

Plans Category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity incentive plans approved by shareholders ⁽¹⁾	—	—	827,500
Equity incentive plans not approved by shareholders	—	—	—

(1) Composed of the 2017 Plan.

In the third quarter 2018, we adopted an equity incentive plan providing for grants of interests in a subsidiary of the Operating Partnership intended to constitute profits interests within the meaning of relevant Internal Revenue Service guidance. Grants under the plan are subject to graduated vesting based on time and hurdles of our common stock price ranging from \$25.00 to \$35.00. The awards generally entitle plan participants to distributions, in the aggregate, of up to 15% of the capital appreciation above our investment basis. If the hurdles are not achieved in three years, the awards automatically terminate. Awards with an aggregate fair value of \$1.5 million were granted to employees of the Manager in the third quarter 2018, which will be recognized over a period of four years. During the year ended December 31, 2018, we recognized \$0.1 million in expense from the equity plan.

Item 6. Selected Financial Data

This item is not applicable due to our "smaller reporting company" filing status.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion summarizes the significant factors affecting our consolidated operating results, financial condition and liquidity during the two-year period ended December 31, 2018. This discussion should be read in conjunction with our consolidated financial statements and related notes for the two-year period ended December 31, 2018 included elsewhere in this Annual Report on Form 10-K. These historical financial statements may not be indicative of our future performance.

Introduction

We are a publicly-traded company that originates and acquires Ground Leases in order to generate attractive long-term risk-adjusted returns from our investments. We believe that our business has characteristics comparable to a high-grade fixed income investment business, but with certain unique advantages. Relative to alternative fixed income investments generally, our Ground Leases typically benefit from built-in growth derived from contractual rent increases, and the opportunity to realize value from future rights to acquire the buildings and other improvements on our land at no additional cost to us. We believe that these features offer us the opportunity to realize superior risk-adjusted total returns when compared to certain alternative highly-rated investments.

We have a diverse portfolio of 28 properties located in major metropolitan areas. All of the properties in our portfolio are subject to long-term leases consisting of 23 Ground Leases and one master lease (covering five properties) that provide for periodic contractual rent escalations or percentage rent participations in gross revenues generated at the relevant properties.

We have chosen to focus on Ground Leases because we believe they meet an important need in the commercial real estate capital markets and offer a unique combination of safety, income growth and the potential for capital appreciation (refer to Item 1. Business). We generally target Ground Lease investments in which the initial cost of the Ground Lease represents 30% to 45% of the Combined Property Value. If the initial cost of a Ground Lease is equal to 35% of the Combined Property Value, the remaining 65% of the Combined Property Value represents potential value accretion to us upon the reversion of the property, assuming no intervening change in the Combined Property Value. We refer to this potential value accretion as the "Value Bank," defined as the difference between the initial cost of the Ground Lease and the Combined Property Value. In our view, there is a strong correlation between inflation and commercial real estate values over time, which supports our belief that the value of our Value Bank should increase over time as inflation increases. Our ability to recognize value through reversion rights may be limited by the rights of our tenants under some of our Ground Leases, including tenant rights to purchase our land in certain circumstances and the right of one tenant to demolish improvements prior to the expiration of the lease. See "Risk Factors" for a discussion of these tenant rights.

We believe that the reversion right is a unique feature distinguishing Ground Leases from other fixed income investments and property types; however, no amounts relating to Value Bank are recorded on our balance sheet or reflected in our earnings. Accordingly, we periodically estimate and report the value of our Value Bank based in part on valuations of the Combined Property Value under our Ground Leases. We retain an independent valuation firm to prepare: (a) initial reports of the Combined Property Value associated with each Ground Lease in our portfolio; and (b) periodic updates of such reports. As reported in our Current Report on Form 8-K filed on February 14, 2019, as of December 31, 2018, our estimated Value Bank is \$1,809 million. Please review that 8-K for a discussion of the valuation methodology used and important limitations and qualifications of the calculation of Value Bank. See also "Risk Factors - There can be no assurance that we will realize any incremental value from the Value Bank or that the market price of our common stock will reflect any value attributable thereto."

We believe that there is a significant market opportunity for a dedicated provider of Ground Lease capital like us. We believe that the market for existing Ground Leases is fragmented with ownership comprised primarily of high net worth individuals, pension funds, life insurance companies, estates and endowments. However, while we intend to pursue acquisitions of existing Ground Leases, our investment thesis is predicated, in part, on what we believe is an untapped market opportunity to expand the use of Ground Leases to a broader component of the approximately \$7.0 trillion institutional commercial property market in the U.S. We intend to capture this market opportunity by utilizing multiple sourcing and origination channels, including manufacturing new Ground Leases with third-party owners and developers of commercial real estate and originating Ground Leases to provide capital for development and redevelopment. We further believe that Ground Leases generally represent an attractive source of capital for our tenants and may allow them to generate superior returns on their invested equity as compared to utilizing alternative sources of capital. We draw on the extensive investment origination and sourcing platform of iStar, the parent company of our Manager, to actively promote the benefits of the Ground Lease structure to prospective Ground Lease tenants.

Our common stock is listed on the New York Stock Exchange under the symbol "SAFE." We were incorporated in Maryland on April 14, 2017. We elected to be taxed as a REIT for U.S. federal income tax purposes, commencing with the tax year ended December 31, 2017. We conduct all of our business and own all of our properties through our Operating Partnership.

Executive Overview

We acquire, manage and capitalize Ground Leases and report our business as a single reportable segment. We believe owning a portfolio of Ground Leases affords our investors the opportunity for safe, growing income. Safety is derived from a Ground Lease's super senior position in the commercial real estate capital structure. Growth is realized through long-term leases with contractual periodic increases in rent. Capital appreciation is realized through growth in the value of the land over time and when, at the end of the lease, the commercial real estate property reverts to us, as landlord, and we are able to realize the value of the leasehold, which may be substantial. Our leases share similarities with triple net leases because typically we are not responsible for any operating or capital expenses over the life of the lease, making the management of our portfolio relatively simple, with limited working capital needs.

We have a diverse portfolio of 28 properties located in major metropolitan areas. All of the properties in our portfolio are subject to long-term leases consisting of 23 Ground Leases and one master lease (covering five properties) that provide for contractual periodic rental escalations or percentage rent participations in gross revenues generated at the relevant properties.

Our Portfolio

We have a portfolio of 28 properties that are diversified by property type and location. Our portfolio is comprised of 23 Ground Leases and a master lease (relating to five hotel assets that we refer to as our "Park Hotels Portfolio") that has many of the characteristics of a Ground Lease, including length of lease term, percentage rent participations, triple net terms and strong Ground Rent Coverage.

Below is an overview of our portfolio as of December 31, 2018:

Property Name	Location	Property Type	Lease Expiration / As Extended	Rent Escalation Structure
Hollywood Blvd - North	Los Angeles, CA	Multi-Family	2104 / 2104	CPI-Linked
Hollywood Blvd - South	Los Angeles, CA	Multi-Family	2104 / 2104	CPI-Linked
Onyx on First	Washington, DC	Multi-Family	2117 / 2117	Fixed with Future CPI Adjustments
The Buckler Apartments	Milwaukee, WI	Multi-Family	2112 / 2112	Fixed
Promenade Crossing	Orlando, FL	Multi-Family	2117 / 2117	Fixed with Future CPI Adjustments
Novel Music Row	Nashville, TN	Multi-Family	2117 / 2117	Fixed with Future CPI Adjustments
3333 LifeHope	Atlanta, GA	Medical Office	2116 / 2176	Fixed
Northside Forsyth Medical Center	Atlanta, GA	Medical Office	2115 / 2175	Fixed with Future CPI Adjustments

Miami Airport II	Miami, FL	Industrial	2117 / 2117	Fixed with Future CPI Adjustments
Total / Weighted Average			69 / 80 yrs	

(1) Property is part of the Park Hotels Portfolio and is subject to a single master lease.

(2) A majority of the land underlying this property is owned by a third party and is ground leased to us through 2044 subject to changes in the CPI; however, our tenant at the property pays this cost directly to the third party.

Great Oaks Purchase Commitment

In October 2017, we entered into a commitment to acquire land subject to a Ground Lease on which a 301-unit, luxury multi-family project known as “Great Oaks” is currently being constructed in San Jose, California. Pursuant to the purchase agreement, we will acquire the Ground Lease on November 1, 2020 from iStar for \$34.0 million. iStar committed to provide a \$80.5 million construction loan to the ground lessee. The Ground Lease has a term of 99 years.

Washington, DC Multi-Family Purchase Commitment

In August 2018, we entered into a commitment to acquire land and provide a Ground Lease for the Ground Lease tenant's construction of a 315-unit multi-family property in Washington, DC. The Ground Lease will have a term of 99 years. We have a call option to purchase the land at any time and expect to acquire the land in September 2019. We expect to fund the leasehold improvement allowance in early 2020.

Tenant Concentration

During the year ended December 31, 2018, the tenant under our Park Hotels Portfolio accounted for approximately \$13.2 million, or 27%, of our total revenues, and the tenant who leases the land on which the One Ally Center in Detroit, Michigan is located accounted for approximately \$5.3 million, or 11%, of our total revenues.

In addition, some of our tenants operate offices and hotels at the leased properties. For the year ended December 31, 2018, 35% and 28% of our total revenues came from office and hotel properties, respectively. For additional information on tenant concentrations, see "Item 1A. Risk Factors-Risks Related to Our Portfolio and Our Business-Tenant concentration may expose us to financial credit risk and hotel industry concentration exposes us to the financial risks of a downturn in the hotel industry generally, and the hotel operations at our specific properties."

(1) Operations prior to April 14, 2017 represent the activity of Safety, Income & Growth Inc. Predecessor. In addition, as a result of our acquisition of the Initial Portfolio (refer to Note 1) from iStar, the periods subsequent to April 14, 2017 are presented on a new basis of accounting pursuant to Accounting Standards Codification ("ASC") 805.

Ground and other lease income increased to \$47.4 million during the year ended December 31, 2018 from \$22.9 million for the same period in 2017. The increase in 2018 was primarily due to \$17.7 million of ground and other lease income earned on 13 Ground Leases originated or acquired in 2018, \$4.4 million of additional ground and other lease income earned on 3 Ground

Leases originated or acquired in 2017 and an increase of \$2.8 million related to percentage rent recognized on our Park Hotels Portfolio.

Other income for the year ended December 31, 2018 was \$2.3 million and consists of \$1.5 million received by us in connection with the termination of a contract for the purchase of the leased fee interest in a property due to the exercise by another entity of a pre-existing pre-emptive right to acquire such property and \$0.8 million of interest income earned on our cash balances. Other income for the year ended December 31, 2017 was \$0.4 million and consists primarily of interest income earned on our cash balances.

During the year ended December 31, 2018, we incurred interest expense from our secured financings of \$15.4 million compared to \$7.8 million in 2017, and we incurred an allocation of interest expense from iStar of \$2.1 million for the Predecessor period prior to the 2017 Secured Financing. The increase in 2018 was primarily the result of additional borrowings to fund our growing investment portfolio.

Real estate expense was \$1.6 million and \$1.5 million during the years ended December 31, 2018 and 2017, respectively. During the year ended December 31, 2018, real estate expenses consisted primarily of \$1.0 million related to the amortization of a below market lease asset at one of our hotel properties, property appraisal fees and insurance expense. During the year ended December 31, 2017, real estate expenses consisted primarily of the amortization of a below market lease asset at one of our hotel properties, recoverable property taxes at one of our properties and insurance, consulting and legal fees.

Depreciation and amortization was \$9.1 million and \$7.3 million during the years ended December 31, 2018 and 2017, respectively, and primarily relates to our ownership of the Park Hotels Portfolio and our ownership of the Buckler multi-family property. Beginning on April 14, 2017 we accounted for the acquisition of the Initial Portfolio from iStar in accordance with ASC 805 and began recording depreciation based on the acquisition date fair values of the real estate and recognizing amortization expense resulting from in-place intangible lease assets. The amortization expense from in-place intangible lease assets during the years ended December 31, 2018 and 2017 was \$3.1 million and \$2.2 million, respectively.

General and administrative expenses include management fees (which our Manager waived during the first year of the management agreement), stock-based compensation, costs of operating as a public company, research and developments costs targeted towards scaling our business and an allocation of expenses to us from our Manager and iStar (which our Manager waived during the first year of the management agreement). Although we paid no management fee or expense reimbursements to our Manager through June 30, 2018, GAAP required us to record expenses and a non-cash capital contribution from iStar despite iStar not receiving any compensation or reimbursement for its services. Prior to April 14, 2017, general and administrative expenses were allocated to us for certain iStar corporate functions, including executive oversight, treasury, finance, human resources, tax compliance and planning, internal audit, financial reporting, information technology and investor relations. General and administrative expenses, including stock based compensation, were allocated to us based on a pro rata allocation of costs from iStar's net lease and corporate business segments based on our average net assets. The following table presents our general and administrative expenses for the years ended December 31, 2018 and 2017 (\$ in thousands):

	For the Year Ended December 31, 2018	For the Year Ended December 31, 2017	For the Period from April 14, 2017 to December 31, 2017	For the Period from January 1, 2017 to April 13, 2017
<u>Non-cash expenses</u>				
Allocation from iStar	\$ —	\$ 807	\$ —	\$ 807
Stock-based compensation ⁽¹⁾	873	1,012	766	246
Management fees ⁽²⁾	3,643	1,988	1,988	—
Expense reimbursements to the Manager ⁽²⁾	778	639	639	—
Subtotal - non-cash expenses	5,294	4,446	3,393	1,053
<u>Cash expenses</u>				
Public company and other costs ⁽³⁾	4,676	1,791	1,701	90
Expense reimbursements to the Manager ⁽²⁾	692	—	—	—
Subtotal - cash expenses	5,368	1,791	1,701	90
Total general and administrative expenses	\$ 10,662	\$ 6,237	\$ 5,094	\$ 1,143

(1) For the period from January 1, 2017 to April 13, 2017, stock-based compensation represents an allocation from iStar.

(2) Waived through June 30, 2018.

(3) In July 2018, our board of directors engaged our current auditor to re-audit our financial statements included in the 2017 Annual Report that were audited by our predecessor auditor so that in connection with future securities offerings, we would not have to obtain consents and comfort letters from more than one accounting firm. During the year ended December 31, 2018, we incurred \$0.3 million in connection with the re-audit.

During the year ended December 31, 2018, other expense consists primarily of costs related to an unsuccessful acquisition (but for which we received a \$1.5 million termination fee), investment pursuit costs and fees related to our derivative transactions. During the year ended December 31, 2017, other expense consists primarily of non-recurring acquisition costs, unsuccessful investment pursuit costs and costs associated with entering into hedges.

During the year ended December 31, 2017, we recognized income from sales of real estate of \$0.5 million resulting from the sale of a parking facility from our Park Hotels Portfolio.

Non-GAAP Financial Measures

In addition to net income (loss) prepared in conformity with GAAP, we have historically reported the supplemental non-GAAP performance measures funds from operations ("FFO") and adjusted funds from operations ("AFFO"), which are frequently used by securities analysts, investors and other interested parties in the evaluation of REITs. Such measures reflect adjustments to net income that we considered to be useful when evaluating our core business, which is generating increasing cash flows from long-term leases with minimal unreimbursed property-level expenses, and owning land which, as an asset class, has historically appreciated in value over time.

For periods beginning January 1, 2019, we intend no longer to report AFFO and FFO. We expect that after the adoption of ASU 2016-02, "Leases" and ASU 2018-11, "Leases" (refer to Note 3), a significant majority of our newly originated Ground Leases will be classified as sales-type leases, and lease payments received by us will be recorded as interest income and amortization of the net investment in the lease. Furthermore, most of our new investments in land structured as Ground Leases will be classified as net investment in lease on our consolidated balance sheet. We believe that the GAAP treatment of these leases under the new accounting standards captures many of the fixed-income like aspects of our business such that AFFO and FFO will be of less utility

as supplemental measures going forward. Under the new standards, the cash flows from our Ground Leases will be recognized as interest income on an effective interest method similar to other fixed income investments. We believe that after the adoption of these ASUs, GAAP net income will be more indicative of our operating performance as a high grade, fixed income investment business.

The table below presents a reconciliation of our consolidated and combined net income (loss) allocable to Safety, Income & Growth Inc. common shareholders, the most directly comparable GAAP measure, to FFO and AFFO allocable to Safety, Income & Growth Inc. common shareholders, for the periods presented. We compute FFO in accordance with the National Association of Real Estate Investment Trusts ("NAREIT"), which defines FFO as net income (loss) (determined in accordance with GAAP), excluding gains or losses from sales of depreciable operating property, plus real estate-related depreciation and amortization. We compute AFFO by adding (or subtracting) to FFO the following items: straight-line rental income, the amortization of real estate-related intangibles, non-cash management fees and expense reimbursements, stock-based compensation, acquisition costs, the amortization of deferred financing costs and premiums/discounts related to debt obligations and the allocable share of noncontrolling interests' amortization of real estate-related intangibles and straight-line rental income.

	For the Year Ended December 31, 2018	For the Period from April 14, 2017 to December 31, 2017	For the Period from January 1, 2017 to April 13, 2017⁽¹⁾
	(in thousands)		
	The Company	Predecessor

Non-cash interest expense	1,614	465	20
Allocable share of noncontrolling interests' amortization of real estate-related intangibles and straight-line rental income	134	—	—
AFFO allocable to Safety, Income & Growth Inc. common shareholders	\$ 11,401	\$ 4,057	\$ 1,352

(1) Operations prior to April 14, 2017 represent the activity of Safety, Income & Growth Inc. Predecessor.

Investors should view FFO and AFFO as supplemental to, and not replacements of, GAAP net income (loss). The utility of FFO and AFFO as measures of our performance is limited because, among other things, they exclude depreciation and amortization and do not capture changes in the value of our properties that result from use or market conditions, which could materially impact our results from operations. FFO and AFFO are not indicative of cash available to fund ongoing cash needs, including the ability to make cash distributions to our stockholders. Although FFO and AFFO are measures used for comparability in assessing the performance of REITs, the NAREIT White Paper only provides guidelines for computing FFO; therefore, the computation of FFO and AFFO may vary from one company to another.

Liquidity and Capital Resources

Liquidity is a measure of our ability to meet potential cash requirements, including to pay interest and repay borrowings, fund and maintain our assets and operations, complete acquisitions and originations of investments, make distributions to our

stockholders and meet other general business needs. In order to qualify as a REIT, we are required under the Internal Revenue Code of 1986 to distribute to our stockholders, on an annual basis, at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains. We expect to make quarterly cash distributions to our stockholders sufficient to meet REIT qualification requirements.

As of December 31, 2018, we had \$16.4 million of unrestricted cash and the ability to borrow an additional \$2.9 million on our 2017 Revolver, subject to the conditions set forth in the applicable loan agreement (refer to Note 6 for more information on our 2017 Revolver), without pledging any additional assets to the facility. We refer to this \$19.3 million of unrestricted cash and additional borrowing capacity as our "equity" liquidity which can be used for general corporate purposes or leveraged (a maximum of 2:1 in the case of our 2017 Revolver) to acquire new Ground Lease assets. Our primary sources of cash to date have been proceeds of \$205.0 million from our initial public offering, proceeds of \$45.0 million from our private placement to iStar, proceeds of \$113.0 million from our initial capitalization by iStar and two institutional investors, borrowings from our debt facilities and, cash on January 2, 2019 of \$250.0 million from iStar's purchase of Investor Units in our Operating Partnership (which was used to repay in full the \$169.5 million outstanding on our 2017 Revolver). Our primary uses of cash to date have been the \$113.0 million acquisition of the Initial Portfolio from iStar (which was subject to the 2017 Secured Financing, as defined below), the acquisition/origination of 16 Ground Leases for an aggregate purchase price of approximately \$544 million, repayments on our debt facilities and distributions to our stockholders. Our primary sources of liquidity going forward will generally consist of cash on hand and cash generated from our operating activities, financings, and unused borrowing capacity under our 2017 Revolver (which we can leverage a maximum of 2:1).

We expect our short-term liquidity requirements to include:

- debt service and debt repayments;
- distributions to our stockholders and noncontrolling interests; and
- working capital.

We expect to meet our short-term liquidity requirements through our cash on hand, our cash flows from operations and borrowing capacity under our 2017 Revolver. The availability of our 2017 Revolver is subject to the conditions set forth in the applicable loan agreement.

We expect our long-term liquidity requirements to include:

- acquisitions and originations of Ground Lease investments; and
- debt maturities.

We expect to meet our long-term liquidity requirements through our cash on hand, cash flows from operations, mortgage financings, debt issuances and common and/or preferred equity issuances.

Contractual Obligations—The following table outlines the contractual obligations related to our long-term debt obligations and purchase commitments as of December 31, 2018 (refer to Note 6 and Note 7 to the consolidated and combined financial statements).

	Amounts Due By Period					
	Total	Less Than 1	1 - 3 Years	3 - 5 Years	5 - 10 Years	After 10 Years
(in thousands)						
Long-Term Debt Obligations⁽¹⁾:

(1) Assumes the extended maturity date for all debt obligations.

(2) The 2017 Revolver was repaid in full on January 2, 2019 from the proceeds of the sale to iStar of Investor Units in our Operating Partnership (refer to Note 13).

(3) Variable-rate debt assumes 1-month LIBOR of 2.50%. Interest payable does not include interest that may be payable under our derivatives.

(4) Refer to Note 7 of the consolidated and combined financial statements.

2018 Portfolio Financing—In November 2018, we entered into a non-recourse portfolio financing (the "2018 Portfolio Financing") for seven Ground Leases originated in 2018 that were previously financed by the 2017 Revolver (see below). The 2018 Portfolio Financing is interest only, bears interest at an initial rate of 3.94%, increasing by 2.0% every 12 months (3.94% in Year 1, 4.02% in Year 2, 4.10% in Year 3, etc.) and matures in December 2028.

2017 Secured Financing—In March 2017, we entered into a \$227.0 million non-recourse secured financing transaction (the "2017 Secured Financing") that bears interest at a fixed rate of 3.795% and matures in April 2027. The 2017 Secured Financing was collateralized by the Initial Portfolio including seven Ground Leases and one master lease (covering the accounts of five properties). In connection with and prior to the closing of the 2017 Secured Financing, we entered into a \$200 million notional rate lock swap, reducing the effective rate of the 2017 Secured Financing from 3.795% to 3.773%.

2017 Revolver—In June 2017, we entered into a recourse senior secured revolving credit facility with a group of lenders in the maximum aggregate initial original principal amount of up to \$300.0 million (the "2017 Revolver"). The 2017 Revolver provides an accordion feature to increase, subject to certain conditions, the maximum availability up to \$500.0 million. In July 2018, we added an additional lender to the 2017 Revolver bringing total capacity for the 2017 Revolver to \$350.0 million. The 2017 Revolver has an initial maturity of June 2020 with two 12-month extension options exercisable by us, subject to certain conditions, and bears interest at an annual rate of applicable LIBOR plus 1.35%. An undrawn credit facility commitment fee ranges from 0.15% to 0.25%, based on utilization each quarter. This fee was waived for the first six months after the closing date of June 27, 2017. The 2017 Revolver allows us to leverage Ground Leases up to a maximum 67%. The 2017 Revolver was repaid in full on January 2, 2019 from the proceeds of the sale to iStar of Investor Units in our Operating Partnership (refer to Note 13).

2017 Hollywood Mortgage—In December 2017, we entered into a \$71.0 million mortgage on 6200 Hollywood Boulevard and 6201 Hollywood Boulevard (the "2017 Hollywood Mortgage"). The 2017 Hollywood Mortgage bears interest at a rate of one-month LIBOR plus 1.33%, matures in January 2023 and is callable without prepayment penalty beginning in January 2021.

Debt Covenants—We are subject to financial covenants under the 2017 Revolver, including maintaining: a limitation on total consolidated leverage of not more than 70%, or 75% for no more than 180 days, of our total consolidated assets; a consolidated fixed charge coverage ratio of at least 1.45x; a consolidated tangible net worth of at least 75% of our tangible net worth at the date of the 2017 Revolver plus 75% of future issuances of net equity; a consolidated secured leverage ratio of not more than 70%, or 75% for no more than 180 days, of our total consolidated assets; and a secured recourse debt ratio of not more than 5.0% of our total consolidated assets. Additionally, the 2017 Revolver restricts our ability to pay distributions to our stockholders. In 2017, we were permitted to make distributions based on an annualized distribution rate of 3.0% of the initial public offering price per share of our common stock. In 2018, we were permitted to make distributions up to an amount equal to 110% of our adjusted funds from operations, as calculated in accordance with the 2017 Revolver. In addition, we may make distributions to the extent necessary to maintain our qualification as a REIT. The 2018 Portfolio Financing contains no significant maintenance or ongoing financial covenants. As of December 31, 2018, we were in compliance with all of our financial covenants.

Off-Balance Sheet Arrangements—We are not dependent on the use of any off-balance sheet financing arrangements for liquidity.

Critical Accounting Estimates

Basis of Presentation—For periods prior to April 14, 2017, the accompanying combined financial statements do not represent the financial position and results of operations of one legal entity, but rather a combination of entities under common control that have been “carved out” from iStar’s consolidated financial statements. For periods prior to April 14, 2017, these combined financial statements reflect the revenues and expenses of the Predecessor and include certain material assets and liabilities of iStar that are specifically identifiable and generated through, or associated with, an in-place lease, which have been reflected at iStar’s historical basis. For periods subsequent to April 14, 2017, the accompanying consolidated financial statements represent the consolidated financial statements of the Company. In addition, as a result of the Company’s acquisition of the Initial Portfolio from iStar, the consolidated financial statements subsequent to April 14, 2017 are presented on a new basis of accounting pursuant to Accounting Standards Codification (“ASC”) 805 (refer to Note 4).

The preparation of these consolidated and combined financial statements in conformity with generally accepted accounting principles in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. These combined financial statements for the periods prior to April 14, 2017 include an allocation of general and administrative expenses and interest expense to the Predecessor from iStar. General and administrative expenses include certain iStar corporate functions, including executive oversight, treasury, finance, human resources, tax compliance and planning, internal audit, financial reporting, information technology and investor relations. General and administrative expenses, including stock based compensation, represent a pro rata allocation of costs from iStar’s net lease and corporate business segments based on our average net assets as a percentage of iStar’s average net assets. Interest expense was allocated to the Predecessor by calculating its average net assets as a percentage of the average net assets in iStar’s net lease business segment and multiplying that percentage by the interest expense allocated to iStar’s net lease business segment (only for the number of days in the period in which the Predecessor did not have debt obligations outstanding—refer to Note 6). The Company believes the allocation methodology for the general and administrative expenses and interest expense is reasonable. Accordingly, the general and administrative expense allocation presented in our combined statements of operations for Predecessor periods does not necessarily reflect what our general and administrative expenses will be as a standalone public company for future reporting periods.

For the periods prior to April 14, 2017, most of the entities included in the Predecessor financial statements did not have bank accounts for the periods presented, and most cash transactions for the Predecessor were transacted through bank accounts owned by iStar. For the periods prior to April 14, 2017, the combined statements of cash flows for the periods presented were prepared as if operating, investing and financing transactions for the Predecessor had been transacted through its own bank accounts. Certain prior period amounts have been reclassified in the Company’s consolidated financial statements and the related notes to conform to the current period presentation.

Real estate—Real estate assets are recorded at cost less accumulated depreciation and amortization, as follows:

Capitalization and depreciation—Certain improvements and replacements are capitalized when they extend the useful life of the asset. Repair and maintenance costs are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful life, which is generally 40 years for facilities, the shorter of the remaining lease term or expected life for tenant improvements and the remaining useful life of the facility for facility improvements.

Purchase price allocation—Upon acquisition of real estate, we determine whether the transaction is a business combination, which is accounted for under the acquisition method, or an acquisition of assets. For both types of transactions, we recognize and measure identifiable assets acquired, liabilities assumed and any noncontrolling interest in the acquiree based on their relative fair values. For business combinations, we recognize and measure goodwill or gain from a bargain purchase, if applicable, and expense acquisition-related costs in the periods in which the costs are incurred. For acquisitions of assets, acquisition-related costs are capitalized and recorded in "Real estate, net," "Real estate-related intangible assets, net" and "Real estate-related intangible liabilities, net" on our consolidated balance sheets. If we acquire real estate and simultaneously enter into a lease of the real estate, the acquisition will be accounted for as an asset acquisition.

We account for our acquisition of properties by recording the purchase price of tangible and intangible assets acquired and liabilities assumed based on their estimated fair values. The value of the tangible assets, consisting of land, buildings, building improvements and tenant improvements is determined as if these assets are vacant. Intangible assets may include the value of lease incentive assets, above-market leases, below-market Ground Lease assets and in-place leases, which are each recorded at their estimated fair values and included in "Real estate-related intangible assets, net" on our consolidated balance sheets. Intangible liabilities may include the value of below-market leases, which are recorded at their estimated fair values and included in "Real estate-related intangible liabilities, net" on our consolidated balance sheets. In-place leases are amortized over the remaining non-cancelable term of the lease and the amortization expense is included in "Depreciation and amortization" in our consolidated and combined statements of operations. Lease incentive assets and above-market (or below-market) lease value are amortized as a reduction of (or, increase to) ground and other lease income over the remaining non-cancelable term of each lease plus any renewal periods with fixed rental terms that are considered to be below-market. We may also engage in sale/leaseback transactions whereby we execute a net lease with the occupant simultaneously with the purchase of the asset.

Impairments—We review real estate assets for impairment in value whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. The value of a long-lived asset held for use is impaired if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the asset (taking into account the anticipated holding period of the asset) are less than its carrying value. Such estimate of cash flows considers factors such as expected future operating income trends, as well as the effects of demand, competition and other economic factors. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount of the asset over the estimated fair value of the asset and reflected as an adjustment to the basis of the asset. Impairments of real estate assets, if any, are recorded in "Impairment of assets" in our consolidated and combined statements of operations.

Ground and other lease income—Ground and other lease income includes rent earned from leasing land and buildings owned by us to our tenants. Ground and other lease income is recognized on the straight-line method of accounting, generally from the later of the date the lessee takes possession of the space and it is ready for its intended use or the date of acquisition of the asset subject to existing leases. Accordingly, contractual lease payment increases are recognized evenly over the term of the lease. The periodic difference between ground and other lease income recognized under this method and contractual lease payment terms is recorded as deferred ground and other lease income receivable and is included in "Deferred ground and other lease income receivable, net" on our consolidated balance sheets. We are also entitled to percentage rent, representing a portion of our lessee's gross revenues from the properties, pursuant to some of our leases and record percentage rent as ground and other lease income when earned. Ground and other lease income also includes the amortization of finite lived intangible assets and liabilities, which are amortized over the period during which the assets or liabilities are expected to contribute directly or indirectly to the future cash flows of the business acquired.

We estimate losses within ground and other lease income receivable and deferred ground and other lease income receivable balances as of the balance sheet date and incorporate an asset-specific reserve based on management's evaluation of the credit risks associated with these receivables. As of December 31, 2018 and 2017, we did not have an allowance for doubtful accounts related to real estate tenant receivables or deferred ground and other lease income.

Fair Values—We are required to disclose fair value information with regard to our financial instruments, whether or not recognized in the consolidated balance sheets, for which it is practical to estimate fair value. The Financial Accounting Standards Board guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. We determine the estimated fair values of financial assets and liabilities based on a hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of us and our own assumptions about market participant assumptions. We determined the carrying values of our financial instruments including cash and cash equivalents; restricted cash; ground and other lease income receivable; deferred ground and other lease income receivable, net; deferred expenses and other assets, net; and accounts payable, accrued expenses, and other liabilities approximated their the fair values of the instruments. We determined the fair value of our debt obligations, net as of December 31, 2018 and 2017 was approximately \$537.8 million and \$308.7 million, respectively.

New Accounting Pronouncements—For a discussion of the impact of new accounting pronouncements on our financial condition or results of operations, refer to Note 3 to the consolidated and combined financial statements.

Item 7a. Quantitative and Qualitative Disclosures about Market Risk

Market Risks

Our future income, cash flows and fair values relevant to financial instruments are dependent upon prevalent market prices and interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. One of the principal market risks facing us is interest rate risk on our floating rate indebtedness.

Subject to qualifying and maintaining our qualification as a REIT for U.S. federal income tax purposes, we may mitigate the risk of interest rate volatility through the use of hedging instruments, such as interest rate swap agreements and interest rate cap agreements. Our primary objectives when undertaking hedging transactions will be to reduce our floating rate exposure and to fix a portion of the interest rate for anticipated financing and refinancing transactions. However, we can provide no assurances that our efforts to manage interest rate volatility will successfully mitigate the risks of such volatility on our portfolio. Our current portfolio is not subject to foreign currency risk.

Our objectives with respect to interest rate risk are to limit the impact of interest rate changes on operations and cash flows and to lower our overall borrowing costs. To achieve these objectives, we may borrow at fixed rates and may enter into hedging instruments such as interest rate swap agreements and interest rate cap agreements in order to mitigate our interest rate risk on a related floating rate financial instrument. We do not enter into derivative or interest rate transactions for speculative purposes.

As of December 31, 2018, we had \$306.2 million principal amount of fixed-rate debt outstanding and \$240.5 million principal amount of floating-rate debt outstanding. In addition, as of December 31, 2018 we were party to derivative contracts to manage our interest rate risk.

The following table quantifies the potential changes in annual net income should interest rates increase or decrease by 10, 50 and 100 basis points, assuming no change in our interest earning assets, interest bearing liabilities, derivative contracts or the shape of the yield curve (i.e., relative interest rates). The base interest rate scenario assumes the one-month LIBOR rate of 2.50% as of December 31, 2018. Actual results could differ significantly from those estimated in the table.

Report of Independent Registered Public Accounting Firm

To the shareholders and the Board of Directors of Safety, Income & Growth Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Safety, Income & Growth Inc. and subsidiaries (the "Company") as of December 31, 2018 and 2017, the related consolidated statements of operations, comprehensive income, changes in equity, and cash flows, for the year ended 2018 and for the period April 14, 2017 to December 31, 2017 and the related combined statements of operations, comprehensive income, changes in equity, and cash flows for the period January 1, 2017 to April 13, 2017 (Predecessor), and the related notes and the schedule listed in the Index at Item 15 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and the results of its operations and its cash flows for the year ended December 31, 2018, the period from April 14, 2017 to December 31, 2017 and the period January 1, 2017 to April 13, 2017 (Predecessor), in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ DELOITTE & TOUCHE LLP

New York, New York
February 14, 2019

We have served as the Company's auditor since 2018.

The accompanying notes are an integral part of the consolidated and combined financial statements.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements

Note 1—Business and Organization

Business—Safety, Income & Growth Inc. (the "Company") operates its business through one reportable segment by acquiring, managing and capitalizing ground leases. Ground leases are long-term contracts between the landlord (the Company) and a tenant or leaseholder. The Company believes that it is the first publicly-traded company formed primarily to acquire, own, manage, finance and capitalize ground leases. Ground leases generally represent ownership of the land underlying commercial real estate projects that is net leased by the fee owner of the land to the owners/operators of the real estate projects built thereon ("Ground Leases"). Ground Leases are similar to "triple net" leases because the tenant is generally responsible for all property operating expenses, such as maintenance, real estate taxes and insurance and is also responsible for development costs and capital expenditures. Ground Leases are typically long-term (base terms ranging from 30 to 99 years, often with tenant renewal options) and have contractual base rent increases (either at a specified percentage or consumer price index ("CPI") based, or both) and sometimes include percentage rent participations.

The Company intends to target investments in long-term Ground Leases in which: (i) the cost of its Ground Lease represents 30% to 45% of the combined value of the land and buildings and improvements thereon as if there was no Ground Lease on the land ("Combined Property Value"); (ii) the ratio of underlying property net operating income to the Ground Lease payment due the Company ("Ground Rent Coverage") is between 2.0x to 5.0x; and (iii) the Ground Lease contains contractual rent escalation clauses or percentage rent that participates in gross revenues generated by the commercial real estate on the land. A Ground Lease lessor (the Company) typically has the right to regain possession of its land and take ownership of the buildings and improvements thereon upon tenant default and the termination of the Ground Lease on account of such default. The Company believes that the Ground Lease structure provides an opportunity for future investment value accretion through the reversion to the Company, as the Ground Lease owner, of the buildings and improvements on the land at the expiration or earlier termination of the lease, for no additional consideration from the Company.

The Company is managed by SFTY Manager, LLC (the "Manager"), a wholly-owned subsidiary of iStar Inc. ("iStar"), the Company's largest shareholder, pursuant to a management agreement (refer to Note 11 and Note 13). The Company has no employees, as the Manager provides all services to it. The Company intends to draw on the extensive investment origination and sourcing platform of its Manager to actively promote the benefits of the Ground Lease structure to prospective Ground Lease tenants.

Organization—The Company is a Maryland corporation and completed its initial public offering in June 2017. The Company's common stock is listed on the New York Stock Exchange under the symbol "SAFE." The Company's predecessor ("Original Safety" or the "Predecessor") was formed as a wholly-owned subsidiary of iStar on October 24, 2016. iStar contributed a pre-existing portfolio of Ground Leases to Original Safety and sought third party capital to grow its Ground Lease business. A second entity, SIGI Acquisition, Inc. ("SIGI"), was capitalized on April 14, 2017 by iStar and two institutional investors. On April 14, 2017, Original Safety merged with and into SIGI with SIGI surviving the merger and being renamed Safety, Income & Growth Inc. References herein to the Company refer to Original Safety before such merger and to the surviving company of such merger thereafter. Through these and other formation transactions, the Company: (i) acquired iStar's entire Ground Lease portfolio consisting of 12 properties (the "Initial Portfolio"), all of which were wholly-owned; (ii) completed the \$227 million 2017 Secured Financing (refer to Note 6) on March 30, 2017; (iii) issued 2,875,000 shares of the Company's common stock to two institutional investors for \$20.00 per share, or \$57.5 million (representing a 50.9% ownership interest in the Company at such time), and 2,775,000 shares of the Company's common stock to iStar for \$20.00 per share, or \$55.5 million (representing a 49.1% ownership interest in the Company at such time); and (iv) paid \$340.0 million in total consideration to iStar for the Initial Portfolio.

On June 27, 2017, the Company completed its initial public offering raising \$205.0 million in gross proceeds and concurrently completed a \$45.0 million private placement with iStar, its largest shareholder. The price per share paid in the initial public offering and the private placement was \$20.00. iStar incurred a total of \$18.9 million of organization and offering costs in connection with these transactions and received no reimbursement for its payment of the organization and offering costs. The payment of such costs were treated as capital contributions from iStar with an offsetting cost of capital in the Company's consolidated statements of changes in equity.

The Company elected to be taxed as a real estate investment trust ("REIT") for U.S. federal income tax purposes, commencing with the tax year ended December 31, 2017. The Company is structured as an Umbrella Partnership REIT ("UPREIT"). As such, all of the Company's properties are owned through a subsidiary partnership, Safety Income and Growth Operating

Safety, Income & Growth Inc.**Notes to Consolidated and Combined Financial Statements (Continued)**

Partnership LP (the "Operating Partnership"), which as of December 31, 2018 was wholly-owned by the Company (refer to Note 13). The UPREIT structure may afford the Company certain benefits as it seeks to acquire properties from third parties who may want to defer taxes by contributing their Ground Leases to the Company.

Note 2—Basis of Presentation and Principles of Consolidation and Combination

Basis of Presentation—For periods prior to April 14, 2017, the accompanying combined financial statements do not represent the financial position and results of operations of one legal entity, but rather a combination of entities under common control that have been “carved out” from iStar’s consolidated financial statements. For periods prior to April 14, 2017, these combined financial statements reflect the revenues and expenses of the Predecessor and include certain material assets and liabilities of iStar that are specifically identifiable and generated through, or associated with, an in-place lease, which have been reflected at iStar’s historical basis. For periods subsequent to April 14, 2017, the accompanying consolidated financial statements represent the consolidated financial statements of the Company. In addition, as a result of the Company’s acquisition of the Initial Portfolio from iStar, the consolidated financial statements subsequent to April 14, 2017 are presented on a new basis of accounting pursuant to Accounting Standards Codification (“ASC”) 805 (refer to Note 4).

The preparation of these consolidated and combined financial statements in conformity with generally accepted accounting principles in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. These combined financial statements for the periods prior to April 14, 2017 include an allocation of general and administrative expenses and interest expense to the Predecessor from iStar. General and administrative expenses include certain iStar corporate functions, including executive oversight, treasury, finance, human resources, tax compliance and planning, internal audit, financial reporting, information technology and investor relations. General and administrative expenses, including stock based compensation, represent a pro rata allocation of costs from iStar’s net lease and corporate business segments based on our average net assets as a percentage of iStar’s average net assets. Interest expense was allocated to the Predecessor by calculating its average net assets as a percentage of the average net assets in iStar’s net lease business segment and multiplying that percentage by the interest expense allocated to iStar’s net lease business segment (only for the number of days in the period in which the Predecessor did not have debt obligations outstanding—refer to Note 6). The Company believes the allocation methodology for the general and administrative expenses and interest expense is reasonable. Accordingly, the general and administrative expense allocation presented in our combined statements of operations for Predecessor periods does not necessarily reflect what our general and administrative expenses will be as a standalone public company for future reporting periods.

For the periods prior to April 14, 2017, most of the entities included in the Predecessor financial statements did not have bank accounts for the periods presented, and most cash transactions for the Predecessor were transacted through bank accounts owned by iStar. For the periods prior to April 14, 2017, the combined statements of cash flows for the periods presented were prepared as if operating, investing and financing transactions for the Predecessor had been transacted through its own bank accounts.

Principles of Consolidation and Combination—For the periods prior to April 14, 2017, the combined financial statements include on a carve-out basis the historical balance sheets and statements of operations and cash flows attributed to the Predecessor. For the periods subsequent to April 14, 2017, the consolidated financial statements include the accounts and operations of the Company, its wholly-owned subsidiaries and VIEs for which the Company is the primary beneficiary. All intercompany balances and transactions have been eliminated in consolidation.

Consolidated VIEs—The Company consolidates VIEs for which it is considered the primary beneficiary. As of December 31, 2018, the total assets of these consolidated VIEs were \$54.3 million and total liabilities were \$29.4 million. The classifications of these assets are primarily within "Real estate-related intangible assets, net" and "Real estate, net" on the Company's consolidated balance sheets. The classifications of liabilities are primarily within "Debt obligations, net" and "Accounts payable, accrued expenses and other liabilities" on the Company's consolidated balance sheets. The liabilities of these VIEs are non-recourse to the Company and can only be satisfied from each VIE's respective assets. The Company has provided no financial support to VIEs that it was not previously contractually required to provide and did not have any unfunded commitments related to consolidated VIEs as of December 31, 2018.

Safety, Income & Growth Inc.**Notes to Consolidated and Combined Financial Statements (Continued)****Note 3—Summary of Significant Accounting Policies**

The following paragraphs describe the impact on the Company's consolidated financial statements from the adoption of Accounting Standards Updates ("ASUs") in 2018.

ASU 2014-09—ASU 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), stipulates that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Certain contracts with customers, including lease contracts and financial instruments and other contractual rights, are not within the scope of the new guidance. The Company adopted ASU 2014-09 using the modified retrospective approach and the adoption did not have a material impact on the Company's consolidated financial statements.

ASU 2016-01—ASU 2016-01, Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities ("ASU 2016-01"), addressed certain aspects of recognition, measurement, presentation and disclosure of financial instruments. ASU 2016-01 eliminated the requirement for public business entities to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet. The adoption of ASU 2016-01 did not have a material impact on the Company's consolidated financial statements.

ASU 2016-15—ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments ("ASU 2016-15"), was issued to reduce diversity in practice in how certain cash receipts and cash payments, including debt prepayment or debt extinguishment costs, distributions from equity method investees, and other separately identifiable cash flows, are presented and classified in the statement of cash flows. The adoption of ASU 2016-15 did not have a material impact on the Company's consolidated financial statements.

ASU 2016-18—ASU 2016-18, Statement of Cash Flows: Restricted Cash ("ASU 2016-18"), requires that restricted cash be included with cash and cash equivalents when reconciling beginning and ending cash and cash equivalents on the statement of cash flows and requires disclosure of what is included in restricted cash. The adoption of ASU 2016-18 did not have a material impact on the Company's consolidated financial statements.

ASU 2017-01—The adoption of ASU 2017-01, Business Combinations: Clarifying the Definition of a Business ("ASU 2017-01"), did not have a material impact on the Company's consolidated financial statements. Under ASU 2017-01, certain transactions previously accounted for as business combinations under the former accounting guidance will be accounted for as asset acquisitions under ASU 2017-01. The Company expects more transaction costs to be capitalized relating to real estate acquisitions as a result of ASU 2017-01.

ASU 2017-05—ASU 2017-05, Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets ("ASU 2017-05"), simplifies GAAP by eliminating several accounting differences between transactions involving assets and transactions involving businesses. The amendments in ASU 2017-05 require an entity to initially measure a retained noncontrolling interest in a nonfinancial asset at fair value consistent with how a retained noncontrolling interest in a business is measured. Also, if an entity transfers ownership interests in a consolidated subsidiary that is within the scope of ASC 610-20 and continues to have a controlling financial interest in that subsidiary, ASU 2017-05 requires the entity to account for the transaction as an equity transaction, which is consistent with how changes in ownership interests in a consolidated subsidiary that is a business are recorded when a parent retains a controlling financial interest in the business. The Company adopted ASU 2017-05 using the modified retrospective approach and the adoption did not have a material impact on the Company's consolidated financial statements.

ASU 2017-12—ASU 2017-12, Derivatives and Hedging - Targeted Improvements to Accounting for Hedging Activities ("ASU 2017-12"), was issued to better align an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. ASU 2017-12 expands and refines hedge accounting for both nonfinancial and financial risk components and aligns the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. The Company early adopted ASU 2017-12 on January 1, 2018. The impact upon adoption was the elimination of previously recorded hedge ineffectiveness for cash flow hedges by means of a cumulative-effect adjustment to accumulated other comprehensive income with a corresponding decrease to retained earnings of approximately \$41,000.

Safety, Income & Growth Inc.**Notes to Consolidated and Combined Financial Statements (Continued)**

In June 2018, the FASB issued ASU 2018-07, Compensation—Stock Compensation ("ASU 2018-07") which was issued to align the guidance on share-based payments for goods and services to non-employees with share-based payments to employees. ASU 2018-07 requires non-employee share-based payment awards (refer to Note 11 - *Management Agreement*) to be measured at the grant date fair value of the equity instruments that the entity is obligated to issue for the goods and services received and the awards are not remeasured. Grant date is generally defined as the date at which the grantor and grantee reach a mutual understanding of the terms and conditions of the share-based award. ASU 2018-07 is effective for interim and annual reporting periods beginning after December 15, 2018. Early adoption is permitted and the Company adopted ASU 2018-07 on July 1, 2018. The adoption of ASU 2018-7 did not have a material impact on the Company's consolidated financial statements.

Real estate—Real estate assets are recorded at cost less accumulated depreciation and amortization, as follows:

Capitalization and depreciation—Certain improvements and replacements are capitalized when they extend the useful life of the asset. Repair and maintenance costs are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful life, which is generally 40 years for facilities, the shorter of the remaining lease term or expected life for tenant improvements and the remaining useful life of the facility for facility improvements.

Purchase price allocation—Upon acquisition of real estate, the Company determines whether the transaction is a business combination, which is accounted for under the acquisition method, or an acquisition of assets. For both types of transactions, the Company recognizes and measures identifiable assets acquired, liabilities assumed and any noncontrolling interest in the acquiree based on their relative fair values. For business combinations, the Company recognizes and measures goodwill or gain from a bargain purchase, if applicable, and expenses acquisition-related costs in the periods in which the costs are incurred. For acquisitions of assets, acquisition-related costs are capitalized and recorded in "Real estate, net," "Real estate-related intangible assets, net" and "Real estate-related intangible liabilities, net" on the Company's consolidated balance sheets. If the Company acquires real estate and simultaneously enters into a new lease of the real estate the acquisition will be accounted for as an asset acquisition.

The Company accounts for its acquisition of properties by recording the purchase price of tangible and intangible assets and liabilities acquired based on their estimated fair values. The value of the tangible assets, consisting of land, buildings, building improvements and tenant improvements is determined as if these assets are vacant. Intangible assets may include the value of lease incentive assets, above-market leases, below-market Ground Lease assets and in-place leases, which are each recorded at their estimated fair values and included in "Real estate-related intangible assets, net" or "Real estate-related intangible liabilities, net" on the Company's consolidated balance sheets. Intangible liabilities may include the value of below-market leases, which are recorded at their estimated fair values and included in "Real estate-related intangible liabilities, net" on the Company's consolidated balance sheets. In-place leases are amortized over the remaining non-cancelable term of the lease and the amortization expense is included in "Depreciation and amortization" in the Company's consolidated and combined statements of operations. Lease incentive assets and above-market (or below-market) lease value are amortized as a reduction of (or, increase to) ground and other lease income over the remaining non-cancelable term of each lease. Below-market Ground Lease assets are amortized to real estate expense over the remaining non-cancelable term of the lease. The Company may also engage in sale/leaseback transactions whereby the Company executes a net lease with the occupant simultaneously with the purchase of the asset.

Impairments—The Company reviews real estate assets for impairment in value whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. The value of a long-lived asset held for use is impaired if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the asset (taking into account the anticipated holding period of the asset) are less than its carrying value. Such estimate of cash flows considers factors such as expected future operating income trends, as well as the effects of demand, competition and other economic factors. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount of the asset over the estimated fair value of the asset and reflected as an adjustment to the basis of the asset. Impairments of real estate assets, if any, are recorded in "Impairment of assets" in the Company's consolidated and combined statements of operations. The Company did not record any impairments for the periods presented.

Cash and cash equivalents—Cash and cash equivalents include cash held in banks or invested in money market funds, if applicable, with original maturity terms of less than 90 days.

Restricted Cash—Restricted cash includes \$8.0 million and \$1.7 million held as collateral under certain of the Company's derivative transactions as of December 31, 2018 and 2017, respectively.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

The following table provides a reconciliation of the cash and cash equivalents and restricted cash reported in the Company's consolidated balance sheets that total to the same amount as reported in the Company's consolidated statements of cash flows (in thousands):

	December 31, 2018	December 31, 2017
Cash and cash equivalents	\$ 16,418	\$ 168,214
Restricted cash ⁽¹⁾	8,007	1,656
Total cash, cash equivalents and restricted cash reported in the consolidated statements of cash flows	\$ 24,425	\$ 169,870

(1) Restricted cash includes cash balances held as collateral under certain of the Company's derivative transactions.

Ground and other lease income—Ground and other lease income includes rent earned from leasing land and buildings owned by the Company to its tenants. Ground and other lease income is recognized on the straight-line method of accounting, generally from the later of the date the lessee takes possession of the space and it is ready for its intended use or the date of acquisition of the asset subject to existing leases. Accordingly, contractual lease payment increases are recognized evenly over the term of the lease. The periodic difference between ground and other lease income recognized under this method and contractual lease payment terms is recorded as deferred ground and other lease income receivable and is included in “Deferred ground and other lease income receivable, net” on the Company's consolidated balance sheets. The Company is also entitled to percentage rent, representing a portion of the Company's lessee's gross revenues from the properties, pursuant to some of its leases and records percentage rent as ground and other lease income when earned. During the year ended December 31, 2018 and the periods from April 14, 2017 to December 31, 2017 and January 1, 2017 to April 13, 2017, the Company recorded \$3.6 million, \$0.1 million, and \$0.6 million, respectively, of percentage rent. Ground and other lease income also includes the amortization of finite lived intangible assets and liabilities, which are amortized over the period during which the assets or liabilities are expected to contribute directly or indirectly to the future cash flows of the business acquired.

The Company estimates losses within ground and other lease income receivable and deferred ground and other lease income receivable balances as of the balance sheet date and incorporates an asset-specific reserve based on management's evaluation of the credit risks associated with these receivables. As of December 31, 2018 and 2017, we did not have an allowance for doubtful accounts related to real estate tenant receivables or deferred ground and other lease income.

Other income—Other income primarily includes interest income, non-recurring fees in connection with the termination of a purchase contract and other ancillary income.

Earnings per share—The Company has one class of common stock. Earnings per share ("EPS") is calculated by dividing net income (loss) attributable to common stockholders by the weighted average number of common shares outstanding (refer to Note 9 for a summary of shares outstanding).

Deferred expenses and other assets—Deferred expenses and other assets includes deferred financing fees associated with the 2017 Revolver (refer to Note 6), derivative assets, deferred costs, purchase deposits, leasing costs such as brokerage, legal and other costs which are amortized over the life of the respective leases and presented as an operating activity in the Company's consolidated and combined statements of cash flows. Amortization of leasing costs is included in "Depreciation and amortization" in the Company's consolidated and combined statements of operations.

Deferred financing fees—Deferred financing fees associated with the Company's debt facilities are recorded in “Debt obligations, net” on the Company's consolidated balance sheets. The amortization of deferred financing fees is included in “Interest expense” in the Company's consolidated and combined statements of operations.

Stock-based compensation—The Company adopted an equity incentive plan to provide equity incentive opportunities to members of the Manager's management team and employees who perform services for the Company, the Company's independent directors, advisers, consultants and other personnel. The Company's equity incentive plan provides for grants of stock options, shares of restricted common stock, phantom shares, dividend equivalent rights and other equity-based awards, including long-term incentive plan units. The Company accounts for stock-based compensation awards using the fair value method, which requires

Safety, Income & Growth Inc.**Notes to Consolidated and Combined Financial Statements (Continued)**

an estimate of fair value of the award at the time of grant. On each of June 28, 2018 and June 27, 2017, the Company issued a total of 40,000 fully-vested shares to its directors who are not employees of the Manager or iStar in consideration for their annual services as directors with aggregate grant date fair values of \$0.8 million and \$0.8 million, respectively. During the year ended December 31, 2018 and the period from April 14, 2017 to December 31, 2017, the Company recognized \$0.8 million and \$0.8 million, respectively, in stock-based compensation expense related to this plan, which is classified within "General and administrative" in the Company's consolidated statements of operations.

During the third quarter 2018, the Company adopted an equity incentive plan providing for grants of interests in a subsidiary of the Operating Partnership intended to constitute profits interests within the meaning of relevant Internal Revenue Service guidance. Grants under the plan are subject to graduated vesting based on time and hurdles of the Company's common stock price ranging from \$25.00 to \$35.00. The awards generally entitle plan participants to distributions, in the aggregate, of up to 15% of the capital appreciation above the Company's investment basis. If the hurdles are not achieved in three years, the awards automatically terminate. Awards with an aggregate fair value of \$1.5 million were granted to employees of the Manager in the third quarter 2018, which will be recognized over a period of four years. During the year ended December 31, 2018, the Company recognized \$0.1 million in expense related to this equity plan, which is recorded in "General and administrative" in the Company's consolidated statements of operations and "Noncontrolling interests" on the Company's consolidated balance sheet.

Income taxes—The Company operates its business in a manner consistent with its election to be taxed as a REIT. As such, the consolidated and combined financial statements of the Company have been prepared consistent with the Company's qualification as a REIT for the periods presented. The Company elected to be taxed as a REIT under sections 856 through 859 of the Internal Revenue Code of 1986, as amended (the "Code") beginning with its taxable year ended December 31, 2017. The Company will be subject to federal and state income taxation at corporate rates on its net taxable income; the Company, however, may claim a deduction for the amount of dividends paid to its stockholders. Amounts distributed as dividends by the Company will be subject to taxation at the stockholder level only. While the Company must distribute at least 90% of its net taxable income to qualify as a REIT, the Company intends to distribute all of its net taxable income, if any, and eliminate federal and state taxes on undistributed net taxable income. Certain states may impose minimum franchise taxes. In addition, the Company is allowed certain other non-cash deductions or adjustments, such as depreciation expense, when computing its net taxable income and distribution requirement. These deductions permit the Company to reduce its dividend payout requirement under federal tax laws. The Company formed a taxable REIT subsidiary ("TRS") during the year ended December 31, 2018. The TRS had no activity during the periods presented, and accordingly, no provision for income taxes was required.

Derivative instruments and hedging activity—The Company's use of derivative financial instruments is associated with debt issuances and primarily limited to the utilization of interest rate swaps, interest rate caps or other instruments to manage interest rate risk exposure. The Company does not enter into derivatives for trading purposes. Refer to Note 8 for more information on the Company's derivative activity.

Variable interest entities—The Company evaluates its investments and other contractual arrangements to determine if they constitute variable interests in a VIE. A VIE is an entity where a controlling financial interest is achieved through means other than voting rights. A VIE is consolidated by the primary beneficiary, which is the party that has the power to direct matters that most significantly impact the activities of the VIE and has the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE. This overall consolidation assessment includes a review of, among other factors, which interests create or absorb variability, contractual terms, the key decision making powers, their impact on the VIE's economic performance, and related party relationships. Where qualitative assessment is not conclusive, the Company performs a quantitative analysis. The Company reassesses its evaluation of the primary beneficiary of a VIE on an ongoing basis and assesses its evaluation of an entity as a VIE upon certain reconsideration events.

Fair Values—The Company is required to disclose fair value information with regard to its financial instruments, whether or not recognized in the consolidated balance sheets, for which it is practical to estimate fair value. The Financial Accounting Standards Board ("FASB") guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company determines the estimated fair values of financial assets and liabilities based on a hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the Company and the Company's own assumptions about market participant assumptions. The Company determined the carrying values of its cash and cash equivalents; restricted cash; ground and other lease income receivable; deferred ground and other lease income receivable, net; deferred expenses and other assets, net; and accounts payable, accrued expenses, and other liabilities approximated their fair values. The Company determined the fair value of its debt

Safety, Income & Growth Inc.**Notes to Consolidated and Combined Financial Statements (Continued)**

obligations, net as of December 31, 2018 and 2017 was approximately \$537.8 million and \$308.7 million, respectively, and is classified as Level 3 within the fair value hierarchy.

In connection with the Company's acquisition of the Initial Portfolio and its acquisition of two separate Ground Leases on June 28, 2017 (refer to Note 4), the Company was required to account for the acquisitions as business combinations pursuant to ASC 805. The Company utilized a third-party specialist to assist the Company in recognizing and measuring the identifiable assets acquired, the liabilities assumed, and estimating the remaining useful life of the identifiable assets acquired in accordance with ASC 350.

Other—The Company is an "emerging growth company" as defined in the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act") and is eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other publicly-traded companies that are not "emerging growth companies," including not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002. The Company has elected to utilize the exemption for auditor attestation requirements.

In addition, the JOBS Act provides that an "emerging growth company" can take advantage of the extended transition period provided in the Securities Act of 1933, as amended, for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. However, the Company has chosen to "opt out" of this extended transition period, and as a result, it will comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for all public companies that are not emerging growth companies. The Company's decision to opt out of the extended transition period for complying with new or revised accounting standards is irrevocable.

The Company will remain an "emerging growth company" until the earliest to occur of: (i) the last day of the fiscal year during which our total annual revenue equals or exceeds \$1.07 billion (subject to adjustment for inflation); (ii) the last day of the fiscal year following the fifth anniversary of the Company's initial public offering; (iii) the date on which the Company has, during the previous three-year period, issued more than \$1.0 billion in non-convertible debt; or (iv) the date on which the Company is deemed to be a "large accelerated filer" under the Securities Exchange Act of 1934, as amended.

New Accounting Pronouncements—In October 2018, the FASB issued ASU 2018-16, Derivatives and Hedging (Topic 815): Inclusion of the Secured Overnight Financing Rate ("SOFR") Overnight Index Swap ("OIS") Rate as a Benchmark Interest Rate for Hedge Accounting Purposes ("ASU 2018-16"). ASU 2018-16 expands the list of U.S. benchmark interest rates permitted in the application of hedge accounting by adding the OIS rate based on SOFR as an eligible benchmark interest rate. ASU 2018-16 is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2018, with early adoption permitted. The Company adopted ASU 2018-16 effective January 1, 2019 and the adoption did not have a material impact on the Company's consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses: Measurement of Credit Losses on Financial Instruments ("ASU 2016-13") which was issued to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments held by a reporting entity. This amendment replaces the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. ASU 2016-13 is effective for interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted for interim and annual reporting periods beginning after December 15, 2018. Management does not believe the adoption of ASU 2016-13 will have a material impact on the Company's consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases ("ASU 2016-02"), and in July 2018, the FASB issued ASU 2018-11, Leases ("ASU 2018-11"), to address two requirements of ASU 2016-02. ASU 2016-02 and ASU 2018-11 are effective for interim and annual reporting periods beginning after December 15, 2018. ASU 2016-02 requires the recognition of lease assets and lease liabilities by lessees for those leases classified as operating or finance leases. Adoption of ASU 2016-02 may result in the lessor and lessee under a long term lease of land to record the lease as a financing transaction. The lessor under a long-term lease of land will likely classify its land as a sales-type lease and record the land as a net investment in the lease. For the Company's Ground Leases which are sales-type leases, lease payments received by the Company will be recorded as interest income and amortization of the net investment in the lease. The amount recorded as interest income in any given period will likely be different than the straight-line ground lease income that would have been recorded under the superseded guidance. Management has decided to elect the practical expedient package that allows the Company: (a) to not reassess whether any expired or existing contracts

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

entered into prior to January 1, 2019 are or contain leases; (b) to not reassess the lease classification for any expired or existing leases entered into prior to January 1, 2019; and (c) to not reassess initial direct costs for any expired or existing leases entered into prior to January 1, 2019.

Lessees under operating and finance leases will be required to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its statement of financial position. Lessees under operating leases will be required to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, generally on a straight line basis, and classify all cash payments within operating activities in its statement of cash flows. Lessees under finance leases will be required to recognize interest expense on the lease liability (under the effective interest method) and amortization expense of the right-of-use asset (generally on a straight line basis), each reflected separately in the statement of operations.

ASU 2018-11 amends ASU 2016-02 so that: (a) entities may elect to not recast the comparative periods presented when transitioning to ASC 842 by allowing entities to change their initial application to the beginning of the period of adoption; and (b) provides lessors with a practical expedient to not separate non-lease components from the associated lease component of the contractual payments if certain conditions are met. Management has decided to elect both of these provisions.

As a result of the adoption of ASU 2016-02 and ASU 2018-11, the Company will not have any adjustments to its financial statements prior to December 31, 2018.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

Note 4—Real Estate and Real Estate-Related Intangibles

The Company's real estate assets consist of the following (\$ in thousands):

	As of	
	December 31, 2018	December 31, 2017
Land and land improvements, at cost	\$ 477,527	\$ 220,749
Buildings and improvements, at cost	192,396	192,396
Less: accumulated depreciation	(10,257)	(4,253)
Total real estate, net	\$ 659,666	\$ 408,892
Real estate-related intangible assets, net	262,531	138,725
Total real estate, net and real estate-related intangible assets, net	\$ 922,197	\$ 547,617

Real estate-related intangible assets, net consist of the following items (\$ in thousands):

	As of	
	December 31, 2018	December 31, 2017
Above-market lease assets, net ⁽¹⁾	\$ 190,209	\$ 77,197
In-place lease assets, net ⁽²⁾	46,783	35,744
Below-market lease asset, net ⁽³⁾	24,796	25,784
Other intangible assets, net	743	—
Real estate-related intangible assets, net	\$ 262,531	\$ 138,725

- (1) Above-market lease assets are recognized during business combinations and asset acquisitions when the present value of market rate rental cash flows over the term of a lease is less than the present value of the contractual in-place rental cash flows. Accumulated amortization on above-market lease assets was \$3.0 million and \$0.9 million as of December 31, 2018 and 2017, respectively. The amortization of above-market lease assets decreased "Ground and other lease income" in the Company's consolidated statements of operations by \$2.1 million and \$0.9 million, respectively, for the year ended December 31, 2018 and the period from April 14, 2017 to December 31, 2017. Above-market lease assets are amortized over the non-cancelable term of the leases.
- (2) In-place lease assets are recognized during business combinations and asset acquisitions and are estimated based on the value associated with the costs avoided in originating leases comparable to the acquired in-place leases as well as the value associated with lost rental revenue during the assumed lease-up period. Accumulated amortization on in-place lease assets was \$5.3 million and \$2.2 million as of December 31, 2018 and 2017, respectively. The amortization expense for in-place leases was \$3.1 million and \$2.2 million, respectively, for the year ended December 31, 2018 and the period from April 14, 2017 to December 31, 2017. These amounts are included in "Depreciation and amortization" in the Company's consolidated statements of operations. In-place lease assets are amortized over the non-cancelable term of the leases.
- (3) Below-market lease asset, net resulted from the acquisition of the Initial Portfolio and relates to a property that is majority-owned by a third party and is ground leased to the Company. The Company is obligated to pay the third-party owner of the property \$0.4 million, subject to adjustment for changes in the CPI, per year through 2044; however, the Company's tenant pays this expense directly under the terms of a master lease. Accumulated amortization on the below-market lease asset was \$1.7 million and \$0.7 million as of December 31, 2018 and 2017, respectively. The amortization expense for the Company's below-market lease asset was \$1.0 million and \$0.7 million, respectively, for the year ended December 31, 2018 and the period from April 14, 2017 to December 31, 2017. These amounts are included in "Real estate expense" in the Company's consolidated statements of operations. The below-market lease asset is amortized over the non-cancelable term of the lease.

The estimated expense from the amortization of real estate-related intangible assets for each of the five succeeding fiscal years is as follows (\$ in thousands) ⁽¹⁾:

Year	Amount
2019	7,312
2020	7,312
2021	7,312
2022	7,312
2023	7,312

- (1) As of December 31, 2018, the weighted average amortization period for the Company's real estate-related intangible assets was approximately 77 years.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

Real estate-related intangible liabilities, net consist of the following items (\$ in thousands):

	As of	
	December 31, 2018	December 31, 2017
Below-market lease liabilities, net ⁽¹⁾	\$ 57,620	\$ 57,959
Real estate-related intangible liabilities, net	\$ 57,620	\$ 57,959

(1) Below-market lease liabilities are recognized during business combinations and asset acquisitions when the present value of market rate rental cash flows over the term of a lease exceeds the present value of the contractual in-place rental cash flows. Accumulated amortization on below-market lease liabilities was \$1.0 million and \$0.4 million as of December 31, 2018 and 2017, respectively. The amortization of below-market lease liabilities increased "Ground and other lease income" in the Company's consolidated statements of operations by \$0.6 million and \$0.4 million, respectively, for the year ended December 31, 2018 and the period from April 14, 2017 to December 31, 2017.

Acquisitions—On April 14, 2017, the Company, through a merger and other formation transactions, acquired the Initial Portfolio from iStar and accounted for the acquisition as a business combination pursuant to ASC 805. On June 28, 2017, the Company separately acquired two additional Ground Leases (described below) from third party sellers for an aggregate purchase price of approximately \$142.0 million and accounted for the acquisitions as business combinations pursuant to ASC 805.

The Company acquired the existing Ground Lease at 6201 Hollywood Boulevard, a 183,802 square foot land parcel subject to a long term Ground Lease located in Los Angeles, CA in the Hollywood neighborhood adjacent to the Hollywood/Vine metro station. The Ground Lease had 87 years remaining on its term at the time of acquisition.

The Company acquired the existing Ground Lease at 6200 Hollywood Boulevard, a 143,151 square foot land parcel subject to a long term Ground Lease located in Los Angeles, CA in the Hollywood neighborhood adjacent to the Hollywood/Vine metro station. The site is currently under construction as a multi-family development with retail space and underground parking. The Ground Lease had 87 years remaining on its term at the time of acquisition.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

The Company's purchase price allocations for the acquisitions described above are presented in the table below (\$ in thousands):

	Initial Portfolio	6200 Hollywood Blvd.	6201 Hollywood Blvd.	Total
Assets				
Land and land improvements, at cost	\$ 73,472	\$ 68,140	\$ 72,836	\$ 214,448
Buildings and improvements, at cost	192,396	—	—	192,396
Real estate	265,868	68,140	72,836	406,844

Real estate-related intangible liabilities	\$ 50,644	\$ —	\$ 7,734	\$ 58,378
Debt obligations	227,415	—	—	227,415
Total liabilities	<u>278,059</u>	<u>—</u>	<u>7,734</u>	<u>285,793</u>
Equity Purchase Price ⁽¹⁾	<u>\$ 113,000</u>	<u>\$ 73,640</u>	<u>\$ 68,360</u>	<u>\$ 255,000</u>

(1) The Company paid \$340.0 million in total consideration to iStar for the Initial Portfolio, including the assumption of the 2017 Secured Financing.

The pro forma revenues and net income (loss) below are presented for informational purposes only and may not be indicative of what the actual results of operations of the Company would have been assuming the transaction occurred on January 1, 2016, nor do they purport to represent the Company's results of operations for future periods. The following unaudited table summarizes the Company's pro forma revenues and net loss for the year ended December 31, 2017, as if the acquisitions of these properties were completed on January 1, 2016 (\$ in thousands):

Pro forma revenues	\$ 25,828
Pro forma net income (loss) ⁽¹⁾	(803)

(1) The combined statements of operations prior to April 14, 2017 represented the activity of the Predecessor and EPS was not applicable. The acquisition of the Initial Portfolio is included in EPS for the period from April 14, 2017 to December 31, 2017.

From the date of acquisition through December 31, 2017, \$16.1 million in total revenues and \$8.5 million in net property-level income associated with the Initial Portfolio, 6200 Hollywood Boulevard and 6201 Hollywood Boulevard were included in the Company's consolidated statements of operations.

In August 2017, the Company acquired land and simultaneously structured and entered into a Ground Lease at 3333 LifeHope in Atlanta, GA and accounted for the transaction as an asset acquisition. The Ground Lease has a term of 99 years. In addition, the ground lessee will construct a 185-space parking deck adjacent to the building scheduled to be completed in 2019, which will be engineered to accommodate future development of the site. The Company has a right of first refusal to provide funding for up to 30% of the construction cost of an additional 160,000 square feet of development on terms consistent with the Ground Lease. iStar, the Company's largest shareholder, committed to provide a \$24.0 million construction loan to the ground lessee for the renovation of the property. This transaction was approved by the Company's independent directors in accordance with the Company's policy with respect to transactions in which iStar is also a participant.

In October 2017, the Company entered into a commitment to acquire land subject to a Ground Lease on which a 301-unit, luxury multi-family project known as "Great Oaks" is currently being constructed in San Jose, California. Pursuant to the purchase agreement, the Company will acquire the Ground Lease on November 1, 2020 from iStar for \$34.0 million. iStar committed to provide a \$80.5 million construction loan to the ground lessee. The Ground Lease expires in 2116. This transaction was approved by the Company's independent directors in accordance with the Company's policy with respect to transactions in which iStar is also a participant.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

The Company accounted for the following acquisitions made during the year ended December 31, 2018 as asset acquisitions and recorded an aggregate \$256.8 million in "Real estate, net," an aggregate \$130.1 million in "Real estate-related intangible assets, net" and an aggregate \$0.3 million in "Real estate-related intangible liabilities, net" on its consolidated balance sheet.

In January 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of Onyx on First, a multi-family building located in the Navy Yards neighborhood of Washington, D.C., one block away from the Navy Yards metro station. The Ground Lease has a term of 99 years.

In February 2018, the Company entered into two ventures in which it has majority and controlling interests, and the ventures acquired land and simultaneously structured and entered into two Ground Leases. The partners' noncontrolling interests in the ventures are recorded in "Noncontrolling interests" on the Company's consolidated balance sheets (refer to Note 9). The first Ground Lease was part of the recapitalization of a two-building office campus in Cary, NC. The second Ground Lease was part of the acquisition of an office building in midtown Atlanta. Both Ground Leases have terms of 99 years.

In May 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of 100 and 200 Glenridge Point, two multi-tenant office buildings in Atlanta, GA. The Ground Lease has a term of 99 years. In addition, iStar provided a \$19.9 million loan to the ground lessee with an initial term of one year for the acquisition of the property. This transaction was approved by the Company's independent directors in accordance with the Company's policy with respect to transactions in which iStar is also a participant.

In June 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of Promenade Crossing, a 212-unit multi-family community located in the Baldwin Park submarket of Orlando, FL. The Ground Lease has a term of 99 years.

In June 2018, the Company acquired land and simultaneously structured two Ground Leases as part of the Ground Lease tenant's acquisition from iStar of two industrial facilities located in Miami, FL for \$22.8 million. Both Ground Leases have a term of 99 years. This transaction was approved by the Company's independent directors in accordance with the Company's policy with respect to transactions in which iStar is also a participant.

In July 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of The Madison, a 177,000 square foot Class-A office building located in Phoenix, AZ. The Ground Lease has a term of 99 years.

In July 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of Balboa Executive Center, a 121,000 square foot office building located in San Diego, CA. The Ground Lease has a term of 99 years.

In August 2018, the Company acquired the existing Ground Lease at 1325 Wilson Blvd. in Rosslyn, VA. The Ground Lease expires in June 2035 and has four 10-year extension options through June 2075. The property is improved with a 318-unit, 16-story Hyatt Centric branded hotel.

In August 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of the Jefferson Building, a 73,000 square foot office building located in Washington, DC. The Ground Lease has a term of 99 years.

In August 2018, the Company entered into a forward commitment to acquire land and provide a Ground Lease for the Ground Lease tenant's construction of a 315-unit multi-family property in Washington, DC (refer to Note 7). The Ground Lease will have a term of 99 years.

In November 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of 1111 Pennsylvania Avenue, a 337,000 square foot Class-A office building located in Washington, DC. The Ground Lease has a term of 99 years.

In November 2018, the Company acquired land and simultaneously structured and entered into a Ground Lease as part of the Ground Lease tenant's acquisition of Novel Music Row, a 275-unit Class-A multi-family building located in Nashville, TN. The Ground Lease has a term of 99 years.

During the year ended December 31, 2018, the Company received \$1.5 million in connection with the termination of a purchase contract for the purchase of the leased fee interest in a property due to the exercise by another entity of a pre-existing pre-emptive right to acquire such property.

Total secured credit financing	546,693	308,000		
Total debt obligations	546,693	308,000		
Debt premium, discount and deferred financing costs, net	(2,728)	(926)		
Total debt obligations, net	\$ 543,965	\$ 307,074		

(1) Represents the extended maturity date for all debt obligations.

(2) The initial rate is 3.94% and increases by 2.0% every 12 months.

(3) As of December 31, 2018, inclusive of the effect of an interest rate swap the effective interest rate is 3.04%.

2018 Portfolio Financing—In November 2018, the Company entered into a non-recourse portfolio financing (the "2018 Portfolio Financing") for seven Ground Leases originated in 2018 that were previously financed by the 2017 Revolver (see below). The 2018 Portfolio Financing is interest only, bears interest at an initial rate of 3.94%, increasing by 2.0% every 12 months (3.94% in Year 1, 4.02% in Year 2, 4.10% in Year 3, etc.) and matures in December 2028.

2017 Secured Financing—In March 2017, the Company entered into a \$227.0 million non-recourse secured financing transaction (the "2017 Secured Financing") that bears interest at a fixed rate of 3.795% and matures in April 2027. The 2017 Secured Financing was collateralized by the Initial Portfolio including seven Ground Leases and one master lease (covering the accounts of five properties). In connection with and prior to the closing of the 2017 Secured Financing, the Company entered into a \$200 million notional rate lock swap, reducing the effective rate of the 2017 Secured Financing from 3.795% to 3.773% (refer to Note 8).

2017 Hollywood Mortgage—In December 2017, the Company entered into a \$71.0 million non-recourse first mortgage on 6200 Hollywood Boulevard and 6201 Hollywood Boulevard (the "2017 Hollywood Mortgage"). The 2017 Hollywood Mortgage bears interest at a rate of one-month LIBOR plus 1.33%, matures in January 2023 and is callable without prepayment penalty beginning in January 2021.

2017 Revolver—In June 2017, the Company entered into a recourse senior secured revolving credit facility with a group of lenders in the maximum aggregate initial original principal amount of up to \$300.0 million (the "2017 Revolver"). The 2017 Revolver provides an accordion feature to increase, subject to certain conditions, the maximum availability up to \$500.0 million. In July 2018, the Company added an additional lender to the 2017 Revolver bringing total capacity for the 2017 Revolver to \$350.0 million. The 2017 Revolver has an initial maturity of June 2020 with two 12-month extension options exercisable by the Company, subject to certain conditions, and bears interest at an annual rate of applicable LIBOR plus 1.35%. An undrawn credit facility commitment fee ranges from 0.15% to 0.25%, based on utilization each quarter. This fee was waived for the first six months after the closing date of June 27, 2017. The 2017 Revolver allows the Company to leverage Ground Leases up to a maximum of 67%. During the year ended December 31, 2018, the Company increased borrowings on the 2017 Revolver by \$159.5 million. As of December 31, 2018, there was \$180.5 million of undrawn capacity on the 2017 Revolver and the Company had the ability to draw an additional \$2.9 million without pledging any additional assets to the facility. The 2017 Revolver was repaid in full on January 2, 2019 from the proceeds of the sale to iStar of Investor Units in the Company's Operating Partnership (refer to Note 13).

Debt Covenants—The Company is subject to financial covenants under the 2017 Revolver, including maintaining: (i) a limitation on total consolidated leverage of not more than 70%, or 75% for no more than 180 days, of the Company's total consolidated

Safety, Income & Growth Inc.

Notes to Consolidated and Combined Financial Statements (Continued)

assets; (ii) a consolidated fixed charge coverage ratio of at least 1.45x; (iii) a consolidated tangible net worth of at least 75% of the Company's tangible net worth at the date of the 2017 Revolver plus 75% of future issuances of net equity; (iv) a consolidated secured leverage ratio of not more than 70%, or 75% for no more than 180 days, of the Company's total consolidated assets; and (v) a secured recourse debt ratio of not more than 5.0% of the Company's total consolidated assets (exclusive of amounts drawn on this facility). Additionally, the 2017 Revolver restricts the Company's ability to pay distributions to its stockholders. In 2017, the Company was permitted to make distributions based on an annualized distribution rate of 3.0% of the initial public offering price per share of its common stock. In 2018, the Company was permitted to make annual distributions up to an amount equal to 110% of the Company's adjusted funds from operations, as calculated in accordance with the 2017 Revolver. In addition, the Company may make distributions to the extent necessary to maintain the Company's qualification as a REIT. The 2018 Portfolio Financing contains no significant maintenance or ongoing financial covenants. As of December 31, 2018, the Company was in compliance with all of its financial covenants.

Future Scheduled Maturities—As of December 31, 2018, future scheduled maturities of outstanding debt obligations, assuming all extensions that can be exercised at the Company's option, are as follows (\$ in thousands):

	2018 Portfolio Financing	2017 Secured Financing	2017 Hollywood Mortgage	2017 Revolver ⁽¹⁾	Total
2019	\$ —	\$ —	\$ —	\$ —	\$ —
2020	—	—	—	—	—
2021	—	—	—	—	—
2022	—	—	—	169,500	169,500
2023	—	—	71,000	—	71,000
Thereafter	79,193	227,000	—	—	306,193
Total principal maturities	79,193	227,000	71,000	169,500	546,693
Debt premium, discount and deferred financing costs, net					(2,728)
Total debt obligations, net					\$ 543,965

(1) The 2017 Revolver was repaid in full on January 2, 2019 from the proceeds of the sale to iStar of Investor Units in the Company's Operating Partnership (refer to Note 13).

Note 7—Commitments and Contingencies

Unfunded Commitments—In October 2017, the Company entered into a commitment to acquire land subject to a Ground Lease on November 1, 2020 from iStar for \$34.0 million (refer to Note 4).

In August 2018, the Company entered into an aggregate \$30.0 million commitment to acquire land for \$12.5 million and provide a \$17.5 million leasehold improvement allowance for the Ground Lease tenant's construction of a 315-unit multi-family property in Washington, DC (refer to Note 4). The Company has a call option to purchase the land at any time and currently expects to acquire the land in September 2019. The Company expects to fund the leasehold improvement allowance in early 2020.

Legal Proceedings—The Company evaluates developments in legal proceedings that could require a liability to be accrued and/or disclosed. Based on its current knowledge, and after consultation with legal counsel, the Company believes it is not a party to, nor are any of its properties the subject of, any pending legal proceeding that would have a material adverse effect on the Company's consolidated and combined financial statements.

Note 8—Risk Management and Derivatives

In the normal course of its ongoing business operations, the Company encounters credit risk. Credit risk is the risk of default on the Company's leases that result from a tenant's inability or unwillingness to make contractually required payments.

Risk concentrations—Concentrations of credit risks arise when the Company has multiple leases with a particular tenant or credit party, or a number of the Company's tenants are engaged in similar business activities, or activities in the same geographic region, or have similar economic features, such that their ability to meet contractual obligations, including those to the Company, could be similarly affected by changes in economic conditions.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

Although the Company's real estate assets are geographically diverse and the tenants operate in a variety of industries and property types, to the extent the Company has a significant concentration of ground and other lease income from any tenant, the inability of that tenant to make its payment could have a material adverse effect on the Company. During the year ended December 31, 2018, the Company's two largest tenants accounted for approximately \$13.2 million and \$5.3 million, or 27% and 11%, respectively, of the Company's revenues.

The carrying value of five hotels leased by the Company under a master lease guaranteed by Park Intermediate Holdings LLC represented 21.1% of the Company's total assets as of December 31, 2018. Park Intermediate Holdings LLC is a subsidiary of Park Hotels & Resorts Inc., which is a public reporting company. According to Park Hotels & Resorts Inc.'s public Securities and Exchange Commission filings, Park Hotels & Resorts Inc. conducts substantially all of its business and holds substantially all of its assets through Park Intermediate Holdings LLC. For detailed financial information regarding Park Hotels & Resorts Inc., please refer to its financial statements, which are publicly available on the website of the Securities and Exchange Commission at <http://www.sec.gov>.

Derivative instruments and hedging activity—The Company's use of derivative financial instruments is associated with debt issuances and primarily limited to the utilization of interest rate swaps, interest rate caps or other instruments to manage interest rate risk exposure. The Company does not enter into derivatives for trading purposes.

The Company recognizes derivatives as either assets or liabilities on the Company's consolidated balance sheets at fair value. Interest rate hedge assets are recorded in "Deferred expenses and other assets, net" and interest rate hedge liabilities are recorded in "Accounts payable, accrued expenses and other liabilities" on the Company's consolidated balance sheets. If certain conditions are met, a derivative may be specifically designated as a hedge of the exposure to changes in the fair value of a recognized asset or liability, a hedge of a forecasted transaction or the variability of cash flows to be received or paid related to a recognized asset or liability.

For the Company's derivatives designated and qualifying as cash flow hedges, changes in the fair value of the derivatives are reported in accumulated other comprehensive income (loss) and subsequently reclassified into interest expense in the same periods during which the hedged transaction affects earnings. Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's debt. The Company is hedging its exposure to the variability in future cash flows for forecasted transactions over a maximum period of 24 months (excluding forecasted transactions related to the payment of variable interest on existing financial instruments).

For the Company's derivatives not designated as hedges, the changes in the fair value of the derivatives are reported in "Interest expense" in the Company's consolidated statements of operations. Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

The table below presents the Company's derivatives as well as their classification on the consolidated balance sheets as of December 31, 2018 and 2017 (\$ in thousands):⁽¹⁾

Derivative Type	December 31, 2018		December 31, 2017		Balance Sheet Location
	Fair Value ⁽²⁾				
Assets					
Interest rate swaps	\$	2,987	\$	1,024	Deferred expenses and other assets, net
Interest rate cap ⁽³⁾		4		18	Deferred expenses and other assets, net
	\$	2,991	\$	1,042	
Liabilities					
Interest rate swaps	\$	10,092	\$	904	Accounts payable, accrued expenses and other liabilities
	\$	10,092	\$	904	

- (1) For the year ended December 31, 2018, the Company recorded \$6.7 million of unrealized losses in accumulated other comprehensive income (loss).
(2) The fair value of the Company's derivatives are based upon widely accepted valuation techniques utilized by a third-party specialist using observable inputs such as interest rates and contractual cash flow and are classified as Level 2 within the fair value hierarchy. Over the next 12 months, the Company expects that \$0.3 million related to cash flow hedges will be reclassified from "Accumulated other comprehensive income (loss)" as a reduction to interest expense.
(3) This derivative is not designated in a hedging relationship.

Credit Risk-Related Contingent Features—The Company reports derivative instruments on a gross basis in its consolidated financial statements. The Company has agreements with each of its derivative counterparties that contain a provision whereby if the Company either defaults or is capable of being declared in default on any of its indebtedness, then the Company could also be declared in default on its derivative obligations. In connection with its interest rate derivatives which were in a liability position as of December 31, 2018 and 2017, the Company posted collateral of \$8.0 million and \$1.7 million, respectively, which is included in "Restricted cash" on the Company's consolidated balance sheets. As of December 31, 2018 and 2017, the Company would not have been required to post any additional collateral to settle these contracts had the Company been declared in default on its derivative obligations.

The tables below present the effect of the Company's derivative financial instruments in the consolidated statements of operations and the consolidated statements of comprehensive income (loss) for the year ended December 31, 2018 (\$ in thousands):⁽¹⁾

Derivatives Designated in Hedging Relationships	Location of Gain (Loss) Recognized in Income	Amount of Gain (Loss) Recognized in Accumulated Other Comprehensive Income	Amount of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income into Earnings
Interest rate swaps	Interest expense	\$ (6,745)	\$ 252

- (1) For the period from April 14, 2017 to December 31, 2017, the Company recognized \$(0.1) million in accumulated other comprehensive income (loss).

Derivatives not Designated in Hedging Relationships	Location of Gain or (Loss) Recognized in Income	Amount of Gain or (Loss) Recognized in Income
Interest rate cap	Interest expense	\$ (13)

In February 2017, the Company entered into and settled a rate lock swap in connection with the 2017 Secured Financing (refer to Note 6). As a result of the settlement, the Company recorded a \$0.4 million unrealized gain in other comprehensive income, which was recorded in "Safety, Income & Growth Inc. Predecessor equity" on the Company's consolidated balance sheets. In connection with the Company's acquisition of the Initial Portfolio, the 2017 Secured Financing was recorded at fair value and the resulting premium is recorded as a reduction to interest expense over the term of the 2017 Secured Financing.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

Note 9—Equity

Common Stock—On April 14, 2017, two institutional investors acquired 2,875,000 shares of the Company's common stock for \$57.5 million and iStar acquired 2,775,000 shares of the Company's common stock for \$55.5 million.

On June 27, 2017, the Company sold 10,250,000 shares of its common stock in its initial public offering for proceeds of \$205.0 million. Concurrently with the initial public offering, the Company sold \$45.0 million in shares, or 2,250,000 shares, of its common stock to iStar in a private placement and issued a total of 40,000 fully-vested shares to its directors who are not employees of the Manager or iStar in consideration for their annual services as directors. On June 28, 2018, the Company issued a total of 40,000 fully-vested shares to its directors who are not employees of the Manager or iStar in consideration for their annual services as directors.

The following table presents a summary of the Company's ownership as of December 31, 2018:

Event	Date	Owner	# of shares	Price paid Per Share
Initial capitalization	April 14, 2017	Third parties	2,875,000	\$ 20.00
Initial capitalization	April 14, 2017	iStar	2,775,000	20.00
Initial public offering	June 27, 2017	Third parties	10,250,000	20.00
Concurrent iStar placement	June 27, 2017	iStar	2,250,000	20.00
Issuance of shares to directors	June 27, 2017	Directors	40,000	—
Issuance of shares to directors	June 28, 2018	Directors	40,000	—
Issuance of shares to iStar for payment of management fee	October 30, 2018	iStar	45,941	—
Shares outstanding as of December 31, 2018			18,275,941	

Subsequent to the initial public offering and through December 31, 2018, iStar purchased 2.4 million shares of the Company's common stock for \$45.7 million, at an average cost of \$18.69 per share, pursuant to 10b5-1 plans (the "10b5-1 Plans") in accordance with Rules 10b5-1 and 10b-18 under the Securities and Exchange Act of 1934, as amended, under which it could buy shares of the Company's common stock in the open market. In the third quarter 2018, iStar purchased an additional 133,524 shares of the Company's common stock in private and open market transactions for \$2.2 million, for an average cost of \$16.39 per share. The Company's board of directors has approved iStar's ownership of up to 41.9% of the Company's outstanding shares of common stock. As of December 31, 2018, iStar owned 41.8% of the Company's common stock.

Accumulated Other Comprehensive Income (Loss)—Accumulated other comprehensive income (loss) consists of net unrealized gains (losses) on the Company's derivative transactions.

Noncontrolling Interests—Noncontrolling interests include third-party equity interests in ventures that are consolidated in the Company's consolidated financial statements.

On January 2, 2019, the Company received \$250.0 million of proceeds from iStar for its investment in newly designated limited partnership units ("Investor Units") in the Operating Partnership (refer to Note 13).

Safety, Income & Growth Inc. Predecessor Equity—For the periods prior to April 14, 2017, Safety, Income & Growth Inc. Predecessor Equity represents net contributions from and distributions to iStar. Most of the entities included in the Predecessor's financial statements did not have bank accounts for the periods presented and most cash transactions for the Predecessor were transacted through bank accounts owned by iStar and are included in Safety, Income & Growth Inc. Predecessor Equity.

Dividends—The Company elected to be taxed as a REIT beginning with its taxable year ended December 31, 2017. To qualify as a REIT, the Company must annually distribute, at a minimum, an amount equal to 90% of its taxable income, excluding net capital gains, and must distribute 100% of its taxable income (including net capital gains) to eliminate corporate federal income taxes payable by the REIT. Because taxable income differs from cash flow from operations due to non-cash revenues and expenses (such as depreciation and other items), in certain circumstances, the Company may generate operating cash flow in excess of its dividends, or alternatively, may need to make dividend payments in excess of operating cash flows. During the year ended

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

December 31, 2018, the Company declared cash dividends on its common stock of \$10.9 million, or \$0.60 per share. Dividends paid in 2018 consisted of ordinary income of \$0.1153 per share and a return of capital of \$0.4847 per share for tax reporting purposes. During the period from April 14, 2017 to December 31, 2017, the Company declared cash dividends on its common stock of \$5.6 million, or \$0.3066 per share. All dividends paid in 2017 qualified as a return of capital for tax reporting purposes.

Note 10—Earnings Per Share

EPS is calculated by dividing net income (loss) attributable to common stockholders by the weighted average number of shares outstanding for the period. The following table presents a reconciliation of income (loss) from operations used in the basic and diluted EPS calculations (\$ in thousands, except for per share data):⁽¹⁾

	For the Year Ended December 31, 2018	For the Period from April 14, 2017 to December 31, 2017
Net income (loss)	\$ 11,936	\$ (3,669)
Net (income) attributable to noncontrolling interests	(196)	—
Net income (loss) attributable to Safety, Income & Growth Inc.	<u>\$ 11,740</u>	<u>\$ (3,669)</u>

(1) The combined statements of operations prior to April 14, 2017 represented the activity of the Predecessor and EPS was not applicable.

	For the Year Ended December 31, 2018	For the Period from April 14, 2017 to December 31, 2017
Earnings allocable to common shares:		
<i>Numerator for basic and diluted earnings per share:</i>		
Net income (loss) attributable to Safety, Income & Growth Inc.	<u>\$ 11,740</u>	<u>\$ (3,669)</u>
<i>Denominator for basic and diluted earnings per share:</i>		
Weighted average common shares outstanding for basic and diluted earnings per common share	18,218	14,648
Basic and diluted earnings per common share:		
Net income (loss) attributable to Safety, Income & Growth Inc.	\$ 0.64	\$ (0.25)

(1) The combined statements of operations prior to April 14, 2017 represented the activity of the Predecessor and EPS was not applicable.

Note 11—Related Party Transactions

The Company is externally managed by an affiliate of iStar, the Company's largest shareholder. iStar has been an active real estate investor for over 20 years and has executed transactions with an aggregate value of approximately \$40.0 billion. iStar has an extensive network for sourcing investments, which includes relationships with brokers, corporate tenants and developers that it has established over its long operating history. As of September 30, 2018, iStar had total assets of approximately \$5.1 billion and 167 employees.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

Management Agreement

A summary of the terms of the management agreement in place as of December 31, 2018 is below:

Manager	SFTY Manager, LLC, a wholly-owned subsidiary of iStar Inc.
Management Fee⁽¹⁾	Annual fee of 1.0% of total equity (up to \$2.5 billion) Annual fee of 0.75% of total equity (> \$2.5 billion)
Management Fee Consideration⁽¹⁾	Payment will be made exclusively in the Company's common stock (valued at the greater of: (i) the volume weighted average market price during the quarter for which the fee is being paid; or (ii) the initial public offering price of \$20.00 per share)
Lock-up	Restriction from selling common stock received for management fees for two years from the date of such issuance (restriction will terminate in the event of and effective with the termination of the management agreement)
Management Fee Waiver	No management fee was paid to the Manager during the first year (through June 30, 2018)
Incentive Fee	None
Term⁽¹⁾	1 year
Renewal Provision	Automatically renewed for additional one-year terms unless previously terminated by majority of independent directors or otherwise, as provided in the agreement
Termination Fee⁽¹⁾	None

(1) The management agreement was amended in January 2019 in conjunction with an equity investment from iStar. Refer to Note 13 for a summary of the revised terms of the management agreement.

For the year ended December 31, 2018, the Company recorded \$3.6 million in management fees to the Manager. For the period from April 14, 2017 to December 31, 2017, the Company recorded \$2.0 million in management fees to the Manager. These management fees are recorded in "General and administrative" in the Company's consolidated statements of operations. Prior to June 30, 2018, no management fees were paid to the Manager because such fees were waived during the first year of the agreement. The fees were accounted for as a non-cash capital contribution from iStar despite iStar not receiving any compensation for its services during the first year of the agreement. The Company issued 45,941 shares of its common stock to the Manager for payment of the management fee for the three months ended September 30, 2018.

Expense Reimbursements

The Company pays, or reimburses the Manager for, all of the Company's operating expenses, except those specifically required to be borne by the Manager under the management agreement. In addition, because the Manager's personnel perform certain legal, accounting, due diligence tasks and other services that third-party professionals or consultants otherwise would perform, the Manager is reimbursed, in cash or in shares of the Company's common stock, for the documented cost of performing such tasks.

For the year ended December 31, 2018, the Company was allocated \$1.5 million in expenses from the Manager. For the period from the initial public offering on June 27, 2017 to December 31, 2017, the Company was allocated \$0.6 million in expenses from the Manager. These expenses are recorded in "General and administrative" in the Company's consolidated statements of operations. Prior to June 30, 2018, in accordance with the provisions of the management agreement, the reimbursement of expenses was waived by the Manager and, accordingly, these expenses were accounted for as a non-cash capital contribution from iStar despite iStar not receiving any reimbursement for these allocated expenses during the first year of the agreement.

Acquisitions

iStar has participated in certain of the Company's investment transactions, either as a seller of land or by providing financing to the Company's Ground Lease tenants. Refer to Note 4 for a description of such transactions.

(1) The combined statements of operations prior to April 14, 2017 represented the activity of the Predecessor and EPS was not applicable.

Note 13—Subsequent Events

On January 2, 2019, iStar invested \$250.0 million in our Operating Partnership by purchasing 12.5 million Investor Units from the Operating Partnership, at a price of \$20.00 per unit. This transaction was approved by a special committee of the Company's board of directors, with the advice of independent legal and financial advisors. The Company intends to use the proceeds from the sale of the Investor Units primarily to fund future investments in Ground Leases. Each Investor Unit will receive distributions equivalent to distributions declared and paid on one share of the Company's common stock. The Investor Units have no voting rights. They have limited protective consent rights over certain matters such as amendments to the terms of the Investor Units that would adversely affect the Investor Units.

Safety, Income & Growth Inc.
Notes to Consolidated and Combined Financial Statements (Continued)

In conjunction with the \$250.0 million investment, the Company and iStar have entered into an amended and restated management agreement. The material revised terms of the amended management agreement are summarized in the following table.

Management Fee	Annual fee of 1.0% of total equity (up to \$1.5 billion) Annual fee of 1.25% of total equity (for incremental equity of \$1.5 billion to \$3.0 billion) Annual fee of 1.375% of total equity (for incremental equity of \$3.0 billion to \$5.0 billion) and Annual fee of 1.5% of total equity (for incremental equity over \$5.0 billion)
Management Fee Consideration	At the discretion of the Company's independent directors, payment will be made in cash or in shares of the Company's common stock (valued at the greater of: (i) the volume weighted average market price during the quarter for which the fee is being paid; or (ii) the initial public offering price of \$20.00 per share)
Term	Initial term from January 1, 2019 - June 30, 2022; non-terminable except for cause. Automatic annual renewals thereafter, subject to non-renewal upon certain findings by the Company's independent directors and payment of termination fee.
Termination Fee	3x prior year's management fee, subject to the Company having raised \$820 million of total equity since inception

(1) The aggregate cost for Federal income tax purposes was approximately \$838.1 million at December 31, 2018.

(2) Pledged as collateral under the 2017 Secured Financing.

(3) These properties have land improvements with depreciable lives from 7 to 12 years.

(4) Pledged as collateral under the 2017 Hollywood Mortgage.

(5) Pledged as collateral under the 2017 Revolver.

(6) Pledged as collateral under the 2018 Portfolio Financing.

Safety, Income & Growth Inc.
Schedule III—Real Estate and Accumulated Depreciation (Continued)
As of December 31, 2018
(\$ in thousands)

The following table reconciles real estate for the year ended December 31, 2018 and the periods from April 14, 2017 to December 31, 2017 and January 1, 2017 to April 13, 2017:⁽¹⁾

	Year Ended December 31, 2018	April 14, 2017 to December 31, 2017	January 1, 2017 to April 13, 2017
	The Company		The Predecessor
Beginning balance	\$ 413,145	\$ —	\$ 165,699
Acquisitions	256,778	413,145	—
Ending balance	<u>\$ 669,923</u>	<u>\$ 413,145</u>	<u>\$ 165,699</u>

(1) On April 14, 2017, the Company, through a merger and other formation transactions, acquired the Initial Portfolio from iStar and accounted for the acquisition as a business combination pursuant to ASC 805. As a result, the Company recorded the assets acquired and liabilities assumed at their acquisition date fair values.

The following table reconciles accumulated depreciation for the year ended December 31, 2018 and the periods from April 14, 2017 to December 31, 2017 and January 1, 2017 to April 13, 2017:⁽¹⁾

	Year Ended December 31, 2018	April 14, 2017 to December 31, 2017	January 1, 2017 to April 13, 2017
	The Company		The Predecessor
Beginning balance	\$ 4,253	\$ —	\$ 61,221
Additions	6,004	4,253	894
Ending balance	<u>\$ 10,257</u>	<u>\$ 4,253</u>	<u>\$ 62,115</u>

(1) On April 14, 2017, the Company, through a merger and other formation transactions, acquired the Initial Portfolio from iStar and accounted for the acquisition as a business combination pursuant to ASC 805. As a result, the Company recorded the assets acquired and liabilities assumed at their acquisition date fair values.

Item 9. Changes and Disagreements with Registered Public Accounting Firm on Accounting and Financial Disclosure

None.

Item 9a. Controls and Procedures

Evaluation of Disclosure Controls and Procedures—The Company has established and maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company has formed a disclosure committee that is responsible for considering the materiality of information and determining the disclosure obligations of the Company on a timely basis. Both the Chief Executive Officer and the Chief Financial Officer are members of the disclosure committee.

Based upon their evaluation as of December 31, 2018, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) under the Securities and Exchange Act of 1934, as amended (the "Exchange Act")) are effective.

Management's Report on Internal Control Over Financial Reporting—Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of the disclosure committee and other members of management, including the Chief Executive Officer and Chief Financial Officer, management carried out its evaluation of the effectiveness of the Company's internal control over financial reporting based on the framework in *Internal Control—Integrated Framework* issued in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on management's assessment under the framework in *Internal Control—Integrated Framework*, management has concluded that its internal control over financial reporting was effective as of December 31, 2018.

Changes in Internal Controls Over Financial Reporting—There have been no changes during the last fiscal quarter in the Company's internal controls identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9b. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance of the Registrant

Portions of the Company's definitive proxy statement for the 2019 annual meeting of shareholders to be filed within 120 days after the close of the Company's fiscal year are incorporated herein by reference.

Item 11. Executive Compensation

CERTIFICATION

I, Jay Sugarman, certify that:

1. I have reviewed this annual report on Form 10-K of Safety, Income & Growth Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
